DEPUTIES ON TRIAL

They Tell the Story of the Killing of Lucius Will ams.

IT WAS A DESPERATE BATTLE

The Old Man Had Sworn To Kill

the Officers. HE REFUSED TO SURRENDER TO THEM

After He Was Mortally Wounded He De clined 1To Talk to Them-The Case Continued Until Today.

Macon, Ga., May 23 .- (Special.)-The United States courtroom was crowded this morning at 10 o'clock when the habeas corpus proceedings in the case of Deputy United States Marshals John Kelly, Bob and Cohen Garrison, charged with the murder of Lucius L. Williams, of Telfair county, commenced before Judge Speer.

Since the arrival of the deputies in Macon on Tuesday morning from Telfair, they have been in the custody of United States Marshal Harrell, but this morning the marshal delivered them over to Sheriff Alligood, of Telfair county. This was a mere form of law, as they had to be in charge of the sheriff before the habes corpus hearing could properly proceed.

Among those present was the wife of John M. Williams, a young woman about sixteen years old. She had her infant in her arms, a very pretty child. John M. Williams is only twenty-one years old and Stephen Williams is about eighteen years. These men, who have been in jail since they were brought to Macon, were in

response to an inquiry of Judge Speer United States District Attorney Gary stated that he was present in his official capacity by order of United States Attor-tiesney General Olney, to represent the dep-uties. He also answered that there was associated with him in the case Mr. Marion Erwin as the special attorney of the depu-

Colonel J. W. Preston stated that he represented Sheriff Alligood, of Telfair, and Hon. Tom Eason, of Telfair, was associated with him as the solicitor general of his circuit to represent Sheriff Alligood and

The first witness examined was United States Marshal Harrell, who testified that certain papers that were handed to him the district attorney were warrants the arrest of Lucius Williams, John Williams, Stephen Williams and others for conspiracy, murder, etc. He related how he, at the head of a posse, went to Telfair, Irwin and other counties to exe cute the warrants. He arrested some of the parties, but Lucius, John M. and Stethen Williams were not captured at the and Bob and Cohen Garrison were depu-tised to assist him. Since December 9th he has been making continuous efforts to arrest Lucius Williams and his two sons.

Rewards Offered. He further stated that as an extra inducement for their arrest rewards to the amount of \$900 had been offered for the arrest of the three Williams men. Of this amount \$300 was offered by the United Williams and he had been authorized by Mr. Walter B. Hill, of Macon, attorney for Norman W Dodge, of New York, to offer a reward of \$600 for the arrest of Lucius, John M. and Stephen Williams, \$200 for

ton, Marshal Harrell said that he appoint ed the Garrisons as deputies to make the arrest because he thought they were in position to locate the men. He never knew that they were deadly enemies of Lucius Williams, and in their conversation with him he received no impression from them that they were fees of Williams. Colonel Preston endeavoxed to show that Marshal Harrell had appointed the Garri-sons knowing that they were on hostile terms with Lucius Williams, but in this he was unsuccessful. The marshal reiterated that he was not aware that the Garrisons were unfriendly to Williams, and it ot until after the warrants had been given for execution that he ever heard that Lucius Williams was an enemy of the Gar-risons. It never came to his knowledge that the Garrisons had made threats against the life of Lucius Williams. He employed the Garrisons for no other reas-on than that he thought that they would to discover the whereabouts of Lucius Williams, as they were his nephews and were well acquainted with localities

Colonel Preston, who, on his side of the case, is conducting the examination of witnesses, asked the court if Colonel Ea-sion, who is representing the state of Geor-gia, could ask the witness any questions, if so desired. The court replied that he could not unless he took the place of Colonel Preston as examining council in the case. Colonel Eason, therefore, does not participate in the examination of wit-

Mr. L. M. Erwin, deputy United States clerk, was the next witness. He testified simply to issuing the warrants.

Did Not Intend To Go to Macon. Deputy Marshal George White testified that in the early part of last July he went to Telfair to serve a warrant in equity on Lucius Williams. He saw Williams and Williams told him that he and other deputies and early active in thousand such other deputies cauld serve a thousand such papers and he would pay no attention to them. Later in July he again went to Telfair to serve a rule nisi for injunction on Williams and order to show cause why should not be enjoined from trespas ing on certain land claimed by Dodge

Williams said to him on this visit:
"I thought I told you not to serve any more papers on me. I told you not to come back here with any more papers. I don't care a d-n about your court papers, and I don't propose to pay a bit of at-tention to them. I am not going to court, so you had better not come down here any You or no other deputies shall be serving papers on me. If you come againg twill be a question of who can pull the

trigger first.
"If you are quicker than I am I will die, but if I am quicker than your are you will die. You shan't arrest me or any of my sons, and if you or any of your depu-ties attempt it I will kill you and them, and if any of those Dodge people attempt to cut any more timber I will kill them.

MALARIA.

HOW TO KEEP IT OFF.

SIMPLE VEGETABLE REMEDY.

"I was attacked with malarial fever in the summers of 1882 and '83, and became very much reduced in flesh, and my friends thought I would die. I was induced to try thought I would die. I was induced to try siminous Liver Regulator and commenced improving at once. Before taking three pottles of Regulator I was entirely well of malarial poison and have not had an attack of it since. * * My son had a severe attack of chills, and I gave him a few doses of Regulator, which completely cured him." John T. Chappell, Popular Mount, Va. I am seventy years old and have but a short time to live anyhow and I don't care for results. I am not going up to Macon to court, for I would be sent to the pentientlers."

penitentiary. Mr. White further stated that he told Williams that the papers had been given to him to serve and he had it to do. Wil. liams replied with an oath and a threat that he and all other deputies had better keep away from him and his sons if they keep away from him and his sons it they didn't wish to die. Mr. White also said that he had a conversation with John M. Williams, and John M. told him that he and his father would never submit to ar-

Williams Carried a Gun. Mr. Dave Wells, of Telfair, next testified. He said in substance that he was a cousin of Lucius Williams. He had had several conversations with Lucius Williams and John M. Williams. They told him that the land trouble between them and Dodge was settled; that Mr. John A. Phillips, an agent of Dodge, had been to see them and had arranged to settle the land trouble and would send deeds, etc., to New York; that Phillips told them to go home and lay down their arms and they would not be troubled any further. Wit-ness had met Lucius Williams several with a gun. On the last Saturday before the Monday of the killing he met Lucius and John M. Williams in the road. John M. Williams told him that he under-stood that the woods were full of deputy marshals and he was going home, put up his arms and stay there. At the time of this conversation he thought John M. Willlams had a pistol. Lucius Williams had a gun. Witness testified that about a week before the killing he had a conversation with the Garrisons and they told him that Mr. Kelly had a bench varrant for the arrest of Lucius Williams to take him dead or alive. They had been auhim dead or alive. They had been au-thorized to act as deputies to assist in his arrest and they intended to get him if they could. Witness testified that he had examined the body of Lucius Williams after he died. He saw a gunshot wound in the left side and a wound in the right jaw. He described the location of the law. He described the location of the house of John M. Williams, where the shooting occurred, and the premises. He said that he saw a hole through a fence rail between the dwelling and a cotton house that had been made by a bullet, perhaps a No. 38, which had been fired from the direction of a dwelling toward the cotton house. He testified to seeing a

it looked to him like a buckshit. He thought the balls in the house came from the direction of the cotton house and from he side toward a field.

Mr. Wells testified that Lucius Williams told him a few days before the killing that he knew that the Garrisons had been depu-tized as marshals to arcest him and he didn't intend that they should do it.

the cotton house. He testified to seeing a number of bullet holes in the outside of

the house and about the windows. A sash was torn to pieces. He also saw a number of bullet holes in the walls on the inside of the house. He picked out one ball and

John Kelly's Testimony. The next witness was Deputy Marshal John Kelly, who killed Lucius Williams. When he took the stand there was a hum of expectancy and a general movement of Interest on the part of the audience, for they knew that the tale of the shooting from the deputy's side would now be told, from the deputy's side would now be told, Mr. Kelly was composed in manner, and gave his testimony in a clear voice and in spent twenty-six days in Telfair trying to get an opportunity to arrest the Williamses On Monday he determined to bring matters to a close, and he and the two Garrisons and another person took position about a quarter of a mile from the house of John M. Williams. He saw Lucius Williams, John M. and Stephen Williams enter the house with guns on their shoulders. The land was level and the view clear. About 12 o'clock the deputies started toward the thouse. They crawled a part of the way

to keep themselves from being seen from the house. Kelly and Cohen Garrison ap-proached the front of the house, and Bob Garrison and another, person came up toward the rear of the house. Kelly and Cohen Garrison took position near a cot house about thirty-five yards from welling, and which stood between them and the dwelling. Kelly saw Lucius Wil-liams and his son, John M. Williams, lying down on the front porch, in the right end corner from where Kelly and Cohen Garrison stood. He saw that the gun of Lucius Williams was lying by his side. Kelly

"Gentlemen, get up and consider yourselves my prisoners. I have warrants for your arrest." The younger Williams raised partly up and Lucius Williams peered over the top of the banister and had his gun in his hand, "I said: 'Mr. Willia At this moment a girl appeared in the loorway with a baby in her arms. I said to her: 'Get back in the house, and get back quick.' She ran inside. Williams, in a stooping position, commenced to move toward the front door, with his gun brought up partly to a level. I again commanded him to put down the gun and surrender. He made a quick movement toward the door, which was open, stood up straight, leveled his gun and fired. I leveled mine at the same instant, and we fired simultance. neously. I heard the bullet from his Winchester whistle by my neck. Soon as he fired he jumped into the house. My shot took effect on him, for when he rushed in the house I saw blood near the door facing. Just before Lucius Williams and myself fired at each other John M. Williams crawled from the porch and got into the house. I could have killed him, but he had no gun and I didn't wish to do it. Immediately after Lucius Williams got into the house I saw some one at a window with a gun. I fired, and the load crashed through the window. I heard something like a piece of lumber fall on the floor. I afterward ascertained that it was the gun of John M. Williams that fell on the floor.

and when I examined the gun later I found a buckshot in the stock of it. "Soon after I shot through the window I heard shots fired from the rear of the house, where Bob Garrison was. Silence then ensued for a while. Presently a bullet whizzed right by my ear. This came near taking my life. I looked and caught a glimpse of Lucius Williams near the back corner of the house, in the act of firing. We shot simultaneously. His bullet went wide of its mark, but my load lodged right at the corner of the house. Soon I espied Lucius Williams crawling under the house toward the edge of the front porch. I did not shoot at him, as I couldn't get a good aid because of the fence pickets that were between me and the house. Soon he fired from around the edge of the house, near the porch. I did not return the fire because I couldn't get a good view, and didn't wish to waste my shots. Presently Williams exposed much of his body and l fired, striking him in the left side. liams also fired as he was falling, and the bullet went up in the air. Williams fell back on the ground and didn't shoot any He had fired five times, and I fired

Soon after the old man fell, John M. Williams' wife rushed out of the house and begged us not to shoot any more. She said we had killed the old man, and not to kill her husband. I assured her that I would not hurt her husband and Stepher Williams if she would bring me their guns and pistols, and they would surrender. She brought me three guns and a pistol, in-cluding the gun of Lucius Williams, which she took from near him on the ground where he had been lying since being shot. John M. and Stephen Williams then came out of the house and surrendered. I desired to speak to the old man and find out sired to speak to the old man and find out how badly he was shot, but he refused to see me or talk to me. We then took John M. and Stephen Williams, with their guns, and brought them to Macon. Just before leaving, I told the girl at the house to and tell Jack Williams that his father with the shot. Jack Williams lived about a quarter than the same was the came up however just of a mile away. He came up, however, just as the girl started off. I said to him: 'Jack, I have shot your father. I had it to do, and am sorry for it.' He replied: 'I am sorry, too.' He went in the house to see his father, and came out and told me that he was badly shot, and thought he

Didn't Shoot Him While Asleen In response to an inquiry from Judge Speer, Kelly swore positively that he did not shoot Williams while he was asleep, or while Williams was lying down on the porch. He said he could have shot and torn Williams to pieces while he was lying down, but he didn't care to shoot unless it became necessary filn self-dethe Williamses at the house, as he understood that the wafe of John Williams had been quite sick, and if a fight had occurred it might have had a had effect on her, and to avoid this he had spent about sixteen days trying to catch them in the woods. Kelly described how, months ago, he went to Telfair to arrest Lucius Williams and found him sitting in his yard, his gun near by, and captured him before he could reach the gun. Williams resisted, stamped his feet and cursed. He attempted to use his knife and Kelly drew his pistol and threatened to kill him if he tried to use his knife. bring him a gun and he would kill Kelly Kelly stated that he arrested Williams and started away with him when a num-ber of men with Winchesters met them in the road and rescued Williams from

Preston, Kelly was required to testify who was the fourth man with him at the time of the shooting of Lucius Williams and who had approached to the rear o the house with Bob Garrison, while and Cohen Garrison came up at the front-Kelly testified that the fourth man was Newt Wells, and he had deputized him to serve as a deputy. The district attorney didn't wish the identity of Wells revealed, but Judge Speer said it was admissible and Kelly then told the name-Newt Wells Kelly testified that he shot four times Cohen Garrison three times and Bob Gar rison said he shot six times and New Wells three times, making a total of six teen shots. Kelly said each of his shells was loaded with twenty buckshot, which would make eighty shot that he Kelly said he didn't wish to shoot liams, tried to prevent it, endeavored to reason with him, but to no purpose. He said it was necessary to shoot him in the execution of the warrants. He stated that when the Williamses' Winchesters brought to him after the snooting were loaded with cartridges. Kelly that Cohen and Bob Garrison told him that Dave Wells had told him (Wells) that that Dave Wells had told him (Wells) that he understood Kelly and the Garrisons were hunting him, but that they should never arrest him, and that they would rather put their heads in h-l than come to his house to arrest him. Kelly further testified that some months ago when he went to serve an attachment for conwent to serve an attachment for con-tempt on Williams that Williams said he was not coming to court because the court didn't wish him on the contempt proceed-irgs, but desired him on account of the assassination of Captain John C. Forsyth, for which Luther A. Hall et al. is now serving in the penitentiary.

Court adjourned until tomorrow morning

Newsy Notes. The Sunday schools of Montezuma came to Macon today in large numbers and held their annual picnic at Ocmulgee park. Rev. Father Brislaw delivered an eloquent

their annual picnic at Ocmulgee park.

Rev. Father Brislaw delivered an eloquent and interesting address last night to the Hibernian society of Macon.

The commencement exercises of Wesleyan Female college began tonight with the exhibition of the Philomathean society. A fine programme was splendidly rendered, Judge J. L. Hardeman will deliver the commencement address at the Southern Female college at LaGrange on the 28th instant, Judge Hardeman is one of the most eloquent men in Georgia, and his oration on the 28th will delight and charm his audience.

Manager George W. Duncan, of the peach carnival, has appointed the following committee to take charge of the encampment project, alluded to in The Constitution today: Colonel C. M. Wiley, chairman, Lieutenant Colonel E. D. Huguerin, Major John P. Ross, Captain Miller White; Captains Tom Drew, C. C. Carnes, P. G. R. Bell and Albert Jones. The committee will go to work at once to confer with the military of the state looking to the holding of the encampment at Macon.

Gus Walker, charged with assault with intent to murder James Raley, was sentenced by Judge Hardeman today to three years in the penitentiary.

The Emigrants from the South Will Have Suffering and Trouble. Brunswick, Ga., May 24 .- (Special.)-C.

Brunswick and grand chancellor of the Knights of Pythias for Georgia, handed The Constitution's correspondent today a letter just received from a missionary, who has been located for sixteen years a Monrovia, Africa, where the steamship Horsa landed with its cargo of negro immigrants from Georgia. The letter was dated April 8th, and says:

"Most of the emigrants landed today. They were not expected and no preparations were made for their reception. Some are sick. One man will scarcely survive. One mine-months-old child was buried yesterday on shore. It saddens me to see the people come here. The poorest person in the United States has better chance in the United States than here. This company will see suffering. Mules, horses and even donkeys cannot live here. Advise the people to stay where they are. Nearly all have to undergo the acclimating fever. Many of them die of it, but it is almost sure to meet them and it takes the courage all out of most persons.

"MARY A. SHARP." Shaw is anxious that the colored people know the true status of affairs in Africa.

COTTON THIEVES ARRESTED.

They Were Samplers and Had a Fence

To Sell for Them. Albany, Ga., May 24.—(Special.)—Jim Deson and Louis Ford, colored cotton samplers respectively for West & Plonsky and Parker & Co., cotton buyers, of this city, were arrested today for stealing cot. ton from their employers. Deson and Ford have been in the employ of these firms for several years and have succeeded in get-ting away with hundreds of pounds of cot-They had a confederate named Bill Price, a Brunswick and Western trainhand, who disposed of the spoils for them to parties along his run. Inspectors Expected.

Lieutenants Satterlee and Brown are ex-ected here next Monday for the purpose of inspecting the Colquitt Guards, the colored military company of this city.

SAVANNAH'S YACHT CLUB

The Ruth Won the First Prize-The

Launch Races. Savannah, Ga., May 24.—The Savannah Yacht Club held its twentleth annual re-gatta at Thunderbolt today. The Ruth, a Savannah built boat, won the first prize in the first class sailing yachts. The money was \$100 in gold. Of the first class launches Major A. W. Wilkins's Moselle won over the Dixie, entered by George J. Baldwin, and the Diana, entered by Mr. Andrew Sinmonds, of Charleston, S. C. were only fair. The races were attended by several of the officers of the Atlanta and Raleigh.

SHOT A WOMAN.

Bud Pullen Kills His Paramour at

Danburgh and Escapes. Washington, Ga., May 24.—(Special.)—Bud Pullen, a white man, shot and killed Eveline McClendon, his paramour, a negro woman, at Danburgh yesterday afternoon. Pullen, so far, has evaded arrest. The citizens of the town are incensed and are making every effort to capture him.

Commencement Exercises Start at Shorter College with a French Play.

THE PUBLIC BUILDING IS GOING UP

Rome Desires a Low Fare from Atlanta To Allow Visitors To Run Up for a Day.

Rome, Ga., May 14. (Special.)-The open-

ing exercises of Shorter college began this evening by the presentation of a French play, composed and directed by Professor Lustrat, instructor in French, and a very enjoyable juvenile entertainment by the children, directed by Miss Mary Duggan. The entertainment was given in the college chapel, which was filled with an interested and appreciative audience. Both parts of the programme were most successfully rendered. The children were dressed in appropriate costumes, and presented a

very pleasant spectacle on the stage, and all who attended were delighted. The regular exercises of the commencement will begin with a public function of the graduating class given next Thursday afternoon, under the direction of Miss Eleanor Churchill Gibbs

Dismal Weather for May. Rain began falling yetterday afternoon and continued almost without cessation all day. It seemed more like a day in November than in the latter dats of May. Over coats and wraps were in demand, and the saloons and soda founts advertised hot drinks, while offices and residences kept

fires going, on account of the chilly It is feared that both fruit and field crops have been severely damaged by the unseasonable spell of weather

Uncle Sam's Donielle. Work on the new government building progresses slowly, but steadly. The walls have now reached the leve of the third floor, and the structure, built of straw colored brick, is assuming very handsome proportions.

There is a remarkable coincidence con nected with the laying of the first brick. It was laid by Miss Emily Snith, the only living child ever born on the site of the building, who was porn in the Centennial year of American independence. In the brick especially prepared for he occasion, she placed quite a number of trinkets newspapers and other articles

The committees appointed by the Floyd County Industrial Association are still hard at work getting things in shape for a creditable exhibit at the Cotton States and International exposition

This association will endeavorto secure a combination hotel and railroad rite, so that visitors can come to Rome during the exposition, spend some little time in looking around, and not be put to any more ex-pense than a regular day-board ate at the hotel. If they secure such a combination. will assist materiall; in slving the who will visit Atlanta during the exposi-

Cards are out for the marriag of Mr. Arthur Dennison Hull and Miss Adelaide Sinclaire Norton, two promient young so-

ciety people of Rome, June 6th.

An elegant reception will le tenered by the Ladies' Auxiliary of St. leter's Episcopal church, Tuesday eening from 5 till 10 o'clock. The ladie are pushing the work of completing the church: The Methodists of East Rone are pushing forward the work of completing their church, which they hope to jet reay by Angust 1st.
Mr. L. E. Moore, prescription cleri for D. W. Cuny the druggist, his just sood a most creditable examination before the state board of pharmacy.

GALA DAY AT-WAYCROSS

A Baby Show, Foot Races and a Greas Pole Enfertain the Crowd.

Waycross, Ga., May 24,-(Stecial.)-Onthousand visitors were here today and the trade day was a success. Excursion rates were given by the lines of the Plant system and the trains were crowded this morn-

Refreshments were served at noon and then followed the baby show. Twenty-two babies, all of them pretty as could be, were put on exhibition for the prize. The prize was to be given to the prettiest and Jeanette Waters, aged seventeen months, a daughter of Mr. and Mrs. J. O. Waters, of Pierce county, won the prize. The judges were J. R. Allen F. M. Roberts and William Chauncey. Five dollars in gold was the prize. Willie D. James, Berry Ander-son and J. O. Johnson ran a foot race between the Phoenix and Southern hotels. The distance was seventy-five yards. Willie D. James, of Manor, won the race and was awarded \$5. J. O. Johnson was second. The bag race by five little boys was very amusing, Eustace Sirmans, of Waycross, won with Frank Garrett second. Eustace received a prize of \$5. A greased pole had been arranged in the city park, and the flowers and trees were ruined by the boys in their attempt to climb the pole. A prize of \$10 was offered to the person who could climb to the top of the pole. The pole was greasy and the boys soon found it out Thirty boys tried to climb, but failed,

VERY MUCH ENCOURAGED. The Griffin Rifles Expect To Have Good Thing.

Griffin, Ga., May 24.—(Special.)—The fair that the Griffin Rifles propose holding dur-ing the coming encampment promises to be a tremendous success. Nearly every merchant in the city forwarded circular letters to various wholesale houses stating the object of the undertaking and asking contributions in articles of merchandise heard from and in every case in a very substantial way. Articles received from such sources will be grouped according to class and labeled with the donors' name. The ladies who have charge of the various departments have already begun active preparations and by June 11th everything will be ready for the start.

From present prospects the coming en-campment will be on about the same scale as those of the past two years. It was feared at first that the smallness of the appropriation and the action of the advisory board in sending the cavalry into camp at Savannah would affect it seriously. But the governor's reversal of the board's order will put about as large a number in camp as usual.

The colored population is much stirred up concerning the whereabouts of Rev. F. H. Braxton, erstwhile pastor of the Mt. Zion Baptist church. It is rumored that he has gotten himself into trouble again and has skipped out to avoid arrest. He has figured in several court cases since coming here and has kept his congregation in a continual wrangle. Some insist that he should be dismissed, while the majority seem to think him a martyr to prejudice.

The business over the telephone line be

tween Griffin and Atlanta has increased tween Griffin and Atlanta has increased to such an extent that a second line has been decided upon and is now in coursa of construction. Superintendent Gentry was down from Atlanta yesterday inspecting the work and looking after other business connected with the exchange here. Charles Sears, an old Griffin boy, now a conductor of the western division of the Southern railway, spent yesterday with his mother.

CONSUMPTION TOO SLOW FOR HIM. Forest Gay Wanted To Die and Took Laudanum.

Augusta, Ga., May 24.-(Special.)-Forrest Gay, a young man who was conspicuous on election day in the recent campaign in Augusta for getting into rows, has been in unconscious stupor all day as the result of a large dose of laudanum taken last night with suicidal intent. Gay lives in the milling district and essayed to be a leader among the populists. When there was any fighting around the polls Gay was usually there or thereabouts. Fearing pros-ecution for carrying concealed weapons, he eft Augusta some time ago, after drawing his pistol in a personal difficulty in the streets. He has been a victim of consur tion, and becoming despondent came home to die. Last night he took laudanum and is now lingering between life and death.

VERDICT FOR THE COMP.

He Sued the Populist Paper for Sal-

Augusta, Ga., May 24.—(Special.)—The suit of Arthur P. Glover against The Wool Hat, the populist paper, for unpaid sal-ary, was concluded today with a verdict for the plaintiff for \$250 with interest, Mr. Mac Williams, a popular young so-clety man, returned home from a fishing trip with a bullet hole in his toe. He had a rifle in his hand, resting the muzzle on his toe. The rifle went off unexpectedly

and now he limps. Lieutenant Satterlee is in Augusta to-

COURTHOUSE IN DANGER.

Elbert's New Building Threatened by Fire-Loss Covered by Insurance. Elberton, Ga., May 24.—(Special.)—El-bert's courthouse narrowly escaped being entirely consumed by fire late yesterday

afternoon. The fire originated in the fur-

race in the basement and was making rap-id headway when discovered. The office of Rev. James N. Wall, county school commissioner, the most costly fur-nished office in the building, was considera-bly damaged. The loss is fully covered by insurance and the building will at once be repaired.

A Sudden Death.

Wayeross, Ga., May 24.—(Special.)—Mrs. T. B. Henderson, wife of ex-Sheriff Henderson, was found dead in bed this morn ing by her husband, who had prepared breakfast for her. Mrs. Henderson fainted yesterday while out riding. Her health has been delicate for some time. She died suddenly and alone. Heart disease was probably the cause of her death. The fu-neral will take place Saturday morning at 10 o'clock at the Henderson residence.

Augusta, May 24.—The special train from Atlanta to Augusta run for the Order of Railway Conductors convention delegates, made the run in five hours and forty minutes. The train was composed of ten sleepers, one day coach and ten express

TO MINE FOR GOLD.

Organization of a Company at Scottsboro, Ala.

Chattanooga, Tenn., May 24.-The Santa Creet Mining Company was organized today at Scottsboro, Ala., with a capital stock of \$100,000, to mine for gold in Sand Mounain, fourteen miles from Scotts-boro. The mineral rights in 240 acres of land abng Santa creek have been purchas ed and options obtained on all farm and mountan land in the neighborhood. Officers were elected as follows: D. K. Jones. resident; O. F. Jones, secretary and treaurer, and F. V. Bodfish, manager;

all of Cattanooga. During the meeting reports reached Scottsbot that gold had also been discover-ed on the north side of the Tennessee river, opposite he mouth of Santa creek, and the townbecame greatly excited. Land owners no refuse to entertain propositions of sale. he mineral is found in the form of pebblet in a bed of gravel and sand and only dmits of being worked by the placer proess.

Stock in the new company is held by Chattanoos, Scottsboro and Montgomery, Ala., partic. Of 1.000 shares of stock, 3100 each, only simited portion remain untaken. The gold fiels cover an extensive territory is blieved the metal is there in paying quarities.

ALARGE DEAL

That Will Make the Watts Furnaces Go Into Blast.

Baltimore, Md., May 24.-A special dis-patch to The Manufacturers' Record from Middlesboro, Ky., reports that cable advices had jus been received from London vices had jui been received from London reporting the everything has been ar-ranged satisfactorily in the deals pending between the Middlesboro Town Company and the Was steel and fron syndicate, and that the Watis furnaces will go into blast about the middle of July. The Watts syndicate, wich is an English concern, invested abou \$2,500,000 in extensive furnaces and a steel plant at Middlesboro, which was copleted just about the time of the Baring failure. The depression in ron, and the nancial troubles in England. plant, and it as remained idle since built three yers ago. This plant includes two large funaces with a capacity of and a steel plat with a capacity of seven hundred tonsi day.

THE SECRET OF BEAUTY of the compexion, hands, and hair, in thousands of instance, is found in the perfect action of the PORES produced by SUTICURA SOAP.

The Magic Touch

FUNERAL NOTICE.

CALLAWAY-The friends and acquaintances of Mrs. M. W. Callaway, Mr. and Mrs. Eugene Callaway, Mr. Clayton Cal-laway and Mr. and Mrs. William W. Reid are requested to attend the funeral of the former from the residence of Mr. and Mrs. William W. Reid, 20 Highland avenue, Saturday at 3 o'clock p. m. Interment at Westview. The following are requested to act as pall-bearers: Mr. B. S. Drake, Mr. A. McD. Wilson, Captain Wingfield Woolf, Mr. H. S. Johnson, Mr. E. C. Stewart, Mr. T. J. Stovall and Judge John T. Pendle. Barclay & Co.'s at 2:15 o'clock p. m. Saturday.

USED THE MONEY ORDERS.

The Postmaster Made Some Repairs on His House.

Raleigh, N. C., May 24 .- (Special.)-W. R. Ferguson, postmaster at Southport, has defaulted to the amount of \$450, having used money order funds in repairing a house. He had an idea that he could thus borrow the money and then replace it. Mis bondsmen have made good the shortage and placed a young lady in charge

of the office. The grand jury of Robison county has prosecuted Judge W. L. Norwood, of the superior court, for drunkenness because he was so drunk he could not leave his room. Norwood's resignation is being called for by prominent republicans.

At Graham today there was argument in a case involving sixty square miles of territory now in Chatham county. Almence county claimed 5,000 acres of land in Chatham. The last legislature appoint-ed an arbitration committee and the latter awarded sixty square miles to Almance. Fermanent infunction is applied for and if it is not granted Congressman Stroud, of this district, will be placed in the fifth

The twelfth annual council of the Episcopal diocese of east Carolina met at Fayetteville today with a large attendance. Bishops Watson and Cheshire are present.

Mrs. J. W. Fry, wife of the general
manager of the Cape Fear and Yadkin
Valley railway, and daughter of the late

Julius A. Gray, of Greensboro, is dead.

Mrs. T. M. Emerson, wife of the traffic
manager of the Atlantic Coast Line, is
also dead. She was a daughter of the late Colonel Clamp Davis, of the Sixteenth North Carolina regiment. The frost yesterday was general in the

state and has damaged tender vegetagles and melon vines. The department of agriulture reports today that its sales of fertilizer tax tags this season are exactly two-thirds as large as those of last spring. The statement is made today that Ra-leigh's six republican aldermen, having failed within ten days after election to make returns of money they expended on their election, are, therefore, disqualified.

OUSTED TWO ALDERMEN

Because They Had Not Complied with

the Law.

Raleigh, N. C., May 24.—The board of aldermen of this city tonight ousted two republican members of the board because they had not complied with the law requiring them to return an itemized state of their campaign expenses within ten days after the election. This new law. which was passed by the recent fusion legisalture, provides that failure to make such returns works a forfeiture of the

There are four other republican mem-bers of the board, all of whom failed to comply with the law. The reason only two and not all of them were ousted was that it was desired to make a test case of it and have it decided before further ac-

A HOUSE BLOWN UP.

A Lady Killed and Several Persons Missing.

tion should be taken.

Omaha, Neb. May 24.—An explosion in a cottage at Twenty-sixth and Caldwell streets at 12:30 o'clock this morning blew the house to pieces, completely wrecking it. Mrs. G. S. Osburn, whose husband is a telegraph operator, was so badly burned that she died shortly afterwards. William Henry and his wife, the other occupants of the house at the time, have completely disapppeared. The explosion seems to have been caused by a large quantity of purpose-ly arranged gasoline and other explosives.

THE CINCINNATI SOUTHERN. Two Men Killed and Five Seriously Injured in a Wreck.

Danville, Ky., May 24.—There was a reight wrecked on the Cincinnati Southern The injured men are all tramps, two being

Chattanooga; D. R. Stocks, colored. Injured-Ransom Mitchell, colored, Cincinnati; Jacks Ward, Chattanooga; Archie Polick, Andrew Lawson and James Galli-van. The last three gave Somerset as their home. None are seriously injured.

The Ameer's Son in London. son of the ameer of Afghanistan, landed at Portsmouth this morning. The war-ships in the harbor were decorated with flags and fired salutes of honor as he landed. The young man was received on shore by the mayor of Portsmouth, comshore by the mayor of Portsmouth, com-manding officer of Portsmouth garrison. Both of these officials delivered addresses of welcome, after which the visitor nessed a parade of troops. Later he took a special train for London.

A Defaulter Sentenced.

Chicago, Ill., May 24.-Frederick W. Grifenicago, III., May 24.—Frederick W. Grif-fin, the defaulting assistant cashier of the Northwestern National banz, pleaded guilty in Judge Bunn's court this morning and was sentenced to five years in the penitentiary. Two months ago Griffin was found to be \$50,000 short in his accounts. He admitted taking the money, which, he said, he had lost in speculation.

NOT A JEALOUS GIRL

She Told Her Sweetheart To Marry the Other Woman.

HE DOES IT AND THEN ELOPES

The Unmarried One Who Is with Him Is Worth \$30,000-Alabama News. Burton's Trial.

Mobile, Ala., May 24 .- (Special.)-A spicy bit of gossip today was the sudden disappearance of Miss Josephine Maloney, an orphan girl who came into possession of a fortune of \$39,000 two years ago by the death of her father. Coupled with her sulden departure from Mobile came the announcement that Robert E. Rain, a motorman on the Mobile electric line, had also left the city. The two have been lovers for some months and it was understood that they were to be married.

A week ago Rain was arrested on a serious charge and compromised matters by marrying a well-known young lady. first love stuck to him, however, and brought flowers, fruit and cake to the jail where her affianced was held. She advised him to marry the girl and said that it would make no difference to her. The couple are reported to have boarded the Louisville and Nashville train yesterday morning for Houston, Tex., to attend the confederate veterans' reunion.

ROBINSON'S CASE CONTINUED.

Some of the Specifications quashed. Others Are Sustained.

Montgomery, Ala., May 24.—(Special.)— The decision of the supreme court today in the Robinson impeachment case was a combination of victory and defeat for both sides. The complaint had three charges, habitual drunkenness, wilfull neglect of duty and incompetency. The defense, through Judge Chilton, of this city, moved to strike out the three grounds of complaint and to quash the fifteen specifications of the and charge. The state then amended by striking out the entire third charge and two specifications of the second. The case was thus submitted. The court overruled the motion to quash the whole information, but sustained it as to eleven of the thir-teen remaining specifications in the second count. The state again asked to amend and the case was continued over until Monday week. Judge Robinson is the probate judge of Lee county and is the populist who contesting for General Harrison's seat in congress. The case is exciting great in-

TO THE JURY TODAY.

Argument Is Finished in the Trial of Young Burton.

Jacksonville, Ala., May 24.-(Special.)-Argument in the famous Joe Burton trial closed today. Judge Brewer will charge the jury tomorrow morning at 8 o'clock. Solicitor Wilson opened the argument yesterday for the state and D. D. McLeod for the defense, speaking about two and five hours respectively. Today F. J. Martin closed the argument for the defense. Colonel J. B. Merrill addressed the jury for more than two hours, closing the state's argument. It was expected that the case would go to the jury today, but Judge Brewer adjourned court at 3:30 o'clock this afternoon to allow the attorneys to agree on the charge. There is much speculation as to what the verdict of the jury will be. The chain of circumstantial evidence is strong and if he is acquitted, it will be on account of his youth and that some one else could have committed the murder, notwithstanding the fact that all the evidence points to his will be the twelfth and probably the last guilt. His mother, broken in health, on account of the terrible mental strain, returned to Edwardsville today. Tomorrow

FOUL PLAY SUSPECTED.

will be the twelfth and probably the last

Mangled Remains of a Federal Court

which may develop something sen sational occurred here this morning. Some train hands found the mangled remains of B. A. Hicks, of Henry county, under the wheels of a box car near the Louisville and Nashville freight depot. It was concluded the man had met an accidental death, and he was buried without an inquest.

Later, however, it developed that Hicks was a witness for the United States in a number of illicit distilling cases nearing trial in the United States court here, and a suspicion has been aroused that he was foully dealt with. He stated yesterday that, on account of being an informer, his e had frequently been threatened Henry county distillers. The matter is being investigated. Hicks was unmarried.

WORK AGAINST LIQUOR LICENSING.

An Amendment to the Temperance Committee Adopted.

Pittsburg, Pa., May 24.—The eighth day's session of the general assembly of the Northern Presbytery began at the usual hour. Resolutions were adopted indorsing the proposition to raise a million dollars for a reunion memorial fund to wout the debts of the benevolent boards. The report of the standing committee on temperance was read. One resolution de-clared that in order to secure more effective repressive legislation there should be increased endeavor to secure by election and appointment to official position men of clean hands and pure hearts, who have not lifted up their souls into vanity nor sworn deceitfully, and approved efforts to prevent the appointment of men of known itemperate habits to official positions under

Pational, state or municipal authority.

An amendment calling upon all voters of the Presbyterian church to work against licensing places for the sale of intoxicat-ing liquors excited opposition from the committee. The amended resolution was adopted by an almost unanimous vote.

REV. MR. GREER DEPOSED.

Southern Presbyterian Assembly Sus-

tain the Texas Presbytery. pallas, Tex., May 24.—The assembly spent the afternoon in discussing the education committee's report and the report on the Sabbath. Rev. T. M. Richardson, D. D., was re-elected secretary on the final vote, Dr. Lupton's name having been withdrawn. The vote stood 72 to 61 between Richardson, and McIlwaine. The Sabbath report was amended and adopted. The assembly will adjourn tomorrow.

The assembly spent the evening in the discussion of the report of the judicial commission appointed to consider the appeal of the presbytery of western Texas. The presbytery had deposed Rev. B. D. D. Greer from the ministry because of heresy. The commission sustained the action of the

A motion to recommit the report with instructions to make the report mor plete was lost by a vote of 43 to 52. After the discussion the assembly ad-

Labor Paper Suspends.

Oshkosh, Wis., May 24.—The Labor Advacte suspended yesterday, after a pre-carious existence of two years. It was started by L. W. Rodgers, the prominent American Railway Union man, on money furnished by Eugene V. Debs, who now

holds chattel mortgages of \$30 on the plant. It is probable that the paper will be run as a free silver organ, under the title of The Silver Dollar.

SOMETHING NEW IN BIKES. The Hired Min Takes the Family Out

for a Spin. New York, May 24.—(Special.)—A nov-elty in bicycles appeared on the boulevard today. It was a caree-wheeler, one in front and two behind, carrying a phaeton-like body, which tapered like a fashionable shoe, just under the saddle provided for the muscular power provider Beneath the canopy over the hind wheels the complaisant owner and his wife-or, perhaps, his best girl-sat as comfortably as in a coupe. The hired man on the cy-cle-rigged forepart was clad in wheeling livery and with apparent ease furnished the motive power. Cog chains on either side of the bike proper carried it to the rear hubs of the wheels behind, and on the level a speed sufficient to keep ahead of ordinary vehicles was attained. It was a genuine cycle carriage, and was enjoyed by all, excepting, perhaps, the big fellow who worked the forward pedals. Another nov-elty in the same line is shown by a Harlem laundry. Attached to all its cycles is a light box on wheels, which is connected behind, the door being within easy reach of the wheelman. Washing is delivered and collected expeditiously with these light running rigs. If the designers keep on blooded horses will eventually lead the life of a

Experts in such matters now say that \$25,000,000 about represents the cash now being expended on the new buildings under way or contracted for in this city to date, If the toilers are not all spendthrifts next winter will not seem so cold as the last one, even if it's full of blizzards.

During a talk yesterday on the business mprovement Chauncey M. Depew asserted that his choice for the republican nomina tion for president in 1896 was Governor Levi P. Morton, although he regards General Harrison the one who has the greatest strength at present.

This declaration of his preference was nade while he was speaking of ex-President Harrison's visit to the city and the reports concerning his presence here at the same time as Senator Elkins and others, Mr. Depew said:

"My candidate for 1896 is Governor Mor-ton. Desite that, I will say that I believe that General Harrison will be a candidate in the convention whom it will be unusually hard to beat. At present he is, perhaps, the strongest candidate. Mr. Harrison has the prestige of having been at the executive helm of the country in the era of its greatest prosperity. He is conservative, patriotic and able, and he stands promi-

nently before the country on his record."

About the same time that Mr. Depew made this statement he good-humoredly referred to the fact that by a popular coupon contest carried on by a local paper, he himself had yesterday been declared the choice of the people of New York for the republican nomination for the presidency. He laughed over it and cold

"I see it stated that Mr. Hill is the demo cratic choice. I do not think that this settles the question for either Mr. Hill or myself. It is all right, however. I did not know that the coupon contest was taking place until a few days ago, when some fellow wrote to me imploring me to stir my friends up. He said that he had been doing all he could, and it was time for me to stir

HEIKES LEADS.

He Made the Highest Average in the

He Made the Highest Average in the Shoot at Knoxville.

Knoxville, Tenn., May 24-(Special.)—After five days of solid shooting the tournament of the Knoxville Gun Club closed today. Only one day were the conditions favorable, which prevented large scores being made by any of the shooters. The crack shots who won averages carry off from \$500 to \$800 each, the other portion of the \$1,500 being divided up among the lighter men. The shoot is pronounced by the men as being the most successful one ever given in the United States.

the men as being the most successful one ever given in the United States.

For the last two days it has been quite evident that there would be a hard fight for the best general average. When the general averages of the five days were added up at the close of the day's shoot today the following winners were announced: Heikes first, McMurrchy second. Glover third, Ruble fourth. Budd and Leroy tied for fifth place. In the last day's shoot McMurrchy and D. A. Upton tied Mangled Remains of a Federal Court

Montgomery, Ala., May 24.—(Special.)—A

shoot McMurrchy and D. A. Upton tied
for first place, making 155 out of a possible 170; N. Morey second, with 154; Stewart, and Baker third, with 152 each; Young and Budd fourth Heikes, Jenks, Redwing and Leroy fifth, with 150 each

A RUSH FOR MARRIAGE LICENSES

Negroes in Washington. Washington, May 24.-A practical application to Washington city of the Edmund anti-polygamy law, originally designed by its framers to apply only to Utah, has resulted in numerous arrests of colored people here for its vibiation. Most of persons were simply carrying on the meth-ods which originated in the slave-holding when legally celebrated and re corded marriages between negroes were al most unknown. Some of the most desirable real estate in Washington, in direct line with the white house, is colored as to title by conditions rising out of the order of things above described—the property being in the hands of colored people, who are entirely unable to say whether their fathers and mothers were married according to forms of law or not. A recently inaugu-rated crusade against persons living in this legally unrecognized condition has resulted in great increase in the demand for marriage licenses, the highest record in any one day being 139. It has also brought cases before the courts and this afternoon a test indictment was found by the grand jury to bring in an issue the jury to bring in an issue the question whether the Utah anti-polygamy law ap-plies to the District of Columbia and to all other territories of the United States, including, of course, the Indian reserva-

THREATENED LYNCHING IN ILLINOIS Two Men Assault Young Ladies-The

Jail Heavily Guarded. Danville, Iil., May 24.—A lynching is talked of as a result of an attack upon two young ladies in this city Wednesday night. Shortly before 8 o'clock as Misses Laura Barnett and Lillian Draper were walking across the Vermillion river bridge, within two blocks of the heart of the city, they were attacked by John Hall, Jr., and Wil-liam Rice. Miss Draper made her escape, but Miss Barnett was knocked down and carried by the rufflans into a neighboring field. John Downs, who attempted to go to the assistance of the two young women, was badly beaten by the two men. Miss Barnett was not found until after 10 o'clock. She was unconscious and badly bruised. Hall and Rice were arrested yesterday and bound over to the grand jury. There is much excitement and the jail is heavily guarded. but Miss Barnett was knocked down and

DRANK AND DIED.

Liquor.

Knoxville, Tenn. May 24.—Three young men in Lee county, Virginia—Joe Burton, Edward Gallaghes and Sam Jones—went behind a counter in a store where some moonshine whisky was kept secreted for their special use, this morning, and drank liberally of the stuff. Some one had placed poison in the whisky and only one of the three—Gallagher—survives.

Smallpox Report.

Washington, May 24.—In addition to the serious outbreak of smallpox in Staunton, Va., the marine hospital service reports cases of smallpox during the past two weeks at Bowling Green, Ky., New Orleans, Memphis, Tenn., Paducah, Ky., Vicksburg, Miss., and Wheeling, W. Va. In most of the cities named the cases were sporadic.

TIME FOR FLIERS

Speculation Is Very Active in Nearly Every Field.

ONE RESULT OF MONEY LYING IDLE

The Damage to Wheat Is Not Estimated To Be Very Heavy by the Commercial Agencies.

New York, May 24.—Bradstreet's tomor-row will say:
"The moderate reaction in the stock mar-

ket last week and this week, caused pri-marily by repeated frosts and reports of severe damage to cereal crops and other farm products was followed only in part by a corresponding check to the move-ment in general trade. Our special tele-graphic advices furnish the most striking evidence of a broadening of demand for staples yet produced and the following data, telegraphed this journal, are the most bullish made public since the upward turn began on or about March 1st.

"No one of the larger grain states con-rms the reports of severe damage to firms the reports of severe damage to wheat and corn with which the exchanges have abounded and there is less reason to believe in the extent of it as currently reported. The most bullish feature of the wheat situation lies in the announcement of restriction of Argentine and Russian exports, reduced export ability of nearly all leading producers, and shorter supplies of importing countries. Few believe wheat has touched its highest point on this wave, although 25 cents per bushel above the lowest since the panic.
"Weolen manufacturers are working on

old orders and some refuse to stock up with material, as prices at the interior are above a parity with those at the sea-board. Western views are that manufacturers may be short of supplies to meet all contracts. Relatively the greatest improvement in demand and prices centers about Chicago, St. Louis, St. Paul, Minnapolis, Detroit and Milwaukee, in the west, and northwest, and about Savannah, Augusta, Memphis and Galveston at the south."

Dun & Co,'s Review.

R. C. Dun & Co.'s weekly review of trade comorrow will say:

"If wheat has been so greatly injured by "If wheat has been so greatly injured by the snows and frosts in May that the sud-den rise of 12 cents in two weeks is justi-fied, the calamity will affect all business prospects. The markets do not believe it, for stocks do not collapse, iron, leather and hides still rise, and no holders of wheat would sell at 80 cents, a lower price than had been known at this season for thirty pears prior to 1833, if current reports were credited. Some injury has undoubtedly been sustained, but our own dispatches do not show that it is really serjous. The temper is to buy regardless of visible requirements, in the faith that prices are sure to rise. Wild excitement in wheat, with sales in one day at Chicago alone of 200,000 000 bushes, about three three these 300,000,000 bushels, about three times the wheat there is in the country, and a renewed frenzy in cotton, with sales in three days exceeding the whole visible stock in America, followed the furious rise in stocks, in oil, and in hides, and leather. Exchanges include enormous speculative transactions, and for the month are 28.6 per cent larger than last year, but 6.9 per cent less than in 1893, with many banks falling, a sudden fall began. It is not entirely encouraging that idle money still comes hither in large amounts from the west, while the demand for commercial loans is rather short.

The iron industry distinctly gains and the improvement is no longer confined to prices of materials. Better wages at and prices of materials. Better wages at and west of Pittsburg convince buyers that prices must rise, and there have been larger sales of finished products, with about \$1\$ per ton bar prices for structural forms and steel bars, while bessemer pig has risen to \$11.50 at Pittsburg and gray forge to \$10. The Thomas Company has forge to \$10. The Thomas Company has advanced its anthracite pig 50 cents, and higher freights make southern cost more at the east. Sales of rails to May 1st were 420,000 tons and deliveries 250,000, both large than last year. Nail works are combining, and a coke pool is expected to raise prices soon. Pittsburg bank note withdrawals for pay rolls in the past month of \$2,383,-398 against \$1,865,818 last year by the same Orders this year number freight and seventy-two messenger cars, 5,000 cars more than in the whole year of 1894, but in 1899 and

output was over 93,000 freight cars.

"Purchases of dry goods, in the belief that the prices must rise, have kept textile mills fairly busy, but the demand for cottons seems slacker on the whole and print cloths are a sixteenth weaker. There is no improvement in demand for woolens. is no improvement in demand for woolens

and strikes do not abate.
"Failures this week have been 207 in the United States against 183 last year and 23 in Canada against 28 last year."

WILDE IS WEAK

And Was Allowed To Sit While Testifying.

London, May 24.—Upon the resumption of the trial of Oscar Wilde today, Sir Frank Lockwood, solicitor general, made application to the judge for the reinstate-ment in the case of the evidence in regard to Shelley, which the court eliminated from the case yesterday. The court refused to grant the application. Sir Edward Clark then opened the case for the dethe case yesterday. He complained of the unjust manner in which the prosecution had been conducted, and declared that because o this, the defendant could answer to only

the remnant of the charges. Wilde was then called to the stand and repeated the testimony he gave in the previous trial. Wilde is physically weak, and was allowed to sit while testifying Wilde's testimony brought out nothing new. Sir Frank Lockwood, throughout the cross examination, carefully avoided giving the defendant any opening for a literary

A STRING OF WILD CARS

Dash Down the Slope at Pratt Mines

One Man Killed.

Birmingham, Ala., May 24.—Down a slope to destruction ran a string of tram cars at slope No. 4 of Pratt mines this morning. It seems that this string of cars was at the of the slope, and that by some mishap they broke away from their fastenings. Then there was nothing to stop them, and they dashed down the steep slope at lightning speed. William Fields, a negro driver, Neal Brady and two mules were on the track in front of the cars. The mules and the negro driver were hurled to death, while Brady was probably fatally injured.

As it happened the men were just going to work and these were the only persons in

to work and these were the only persons in the shaft at the time, for if there had been any others the chances are they would have shared the fate, for being in front of the cars meant nothing short of death, At last accounts Brady was not dead, but he is probably fatally wounded.

EXCITEMENT AT SHANGHAI

Caused by a Report That Russians Have Occupied Kirim.

London, May 24.—A dispatch to The Pall Mall Gazette from Shanghai says: "Great excitement was caused by a report that the Russians have occupied Kirim, Manchina, thus cutting off the retreat of a large force of Japanese troops." Russia Negotiating with Japan.

New York, May 24.—A special cable dispatch to The Herald from St. Petersburg,

"In addition to the approaching settlement of the question respecting the leaving of the Liao-Tong peninsular. The Russian

negotiations directed toward the further guaranteeing of Russian interests in the far east. The negotiations take the form of overtures to Japan, made with the view of bringing the strength of Coovertures to Japan, made with the view of bringing about an early evacuation of Corea by the Japanese."

VICTORIA IS SEVENTY-SIX. Sir Henry Irving Bart., Can Now Play

to Big Houses.

London, May 24.—The queen's birthday was celebrated today in the usual manner. The weather was clear and the sun bright. All of the public buildings were decorated with flags, etc. The anniversary will be celebrated officially temorrow, when the ministers will give their customary dinners. The prince of Wales will attend the dinner to be given by Lord Rosebery.

Lord Rosebery dined with the queen Thursday evening, slept at Windsor Thursday night, and was given an audience with

day night, and was given an audience with her majesty Friday morning. The queen approved the list of birthday honors sub-mitted to her by the premier. Among those knighted by the queen are:

Henry Irving, the actor; Walter Besant, the author; Dr. W. H. Kingston, of Mon-treal; Lewis Morris, the poet, and Dr. W. treal; Lewis Morris, the poet, and Dr. W. H. Russell, the war correspondent. The Rt. Hon. Baron Playfair, of St. Andrews, and the Rt. Hon. James Stansfield, members of the house of commons for Hailfax, were created knights of the Grand Cross of the Most Honorable Order of the Bath.

Close of the Reichstag.

Berlin, May 24.-The session of the reichstag was closed at 3:15 o'clock this after-Chancellor Hohenlohe reading the imperial message bringing the sitting to an end. President Baron Buel von Berenberg called for three cheers for the em-peror, which were given, the socialist members having previously left the cham-

THE PRINCE OF BALLINGARRY. Being the Story of a Small Boy Who

Was Trying To Get to Ireland.
Lower Broadway was ablaze with pittless,
stone-splitting summer sunshine. From
Park Row to Wall street, comparatively

few persons paced those usually clowded pavements. Near the tall Western Union building stood a stalwart policeman, l'etlessly mopping his perspiring forehead, whereon the regulation helmet had left a deep red mark. "Shure, and 'tis hot as a Callingarry turf-

fire in the middle of July," grumbled the big guardian of the peace, with a grin. He was an Irishman, and it is only an Irishman who can grumble good lumnedly. Even as he spoke his wandering gaze was arrested by the appearance on the scene of a small boy. Indeed this specimen of the genus boy was very small in feed, and, moreover, displayed every evidence ci being "lost." He strolled wonderingly along ing "lost." He strolled wonderingly along the sidewalk, stopping whenever he net a passerby as though with intent to ask his

passerby as though with letent to ask his way. The passersby, however, paid no attention, and hurried onward, eager to escape from the heat and glare.

Clearly the child was no besgar; for, although his clothes were shabby, they were distinctly neat. As he came abreast of our policeman, that worthy hailed nim with a "Sa—ay, Johnnie! Where are ye goin?"

The boy looked up doubth, dy. "I beg your pardon," he said, with a luaint stateliness. "My name is not Johnnie. Can you tell me the shortest way to Ireland?"

The policeman gasped. "To Ireland!"

repeated he. "Don't you thry to make fun of me, young feller."
"I am not making fun," said the boy. "I wish to know the shortest way to Ire-

By the look on the policeman's face it was easy to see that he accounted the lit-tle fellow an idiot. "To Ireland, eh?" he said in a softer tone. "Shure, the way lies over the sea, my lad." "Is the sea wider than the East river?" tioned the boy.

questioned the boy.
"Thousands of miles and thousands of miles." wider-thousands

and thousands of miles."
"But there is a oridge?"
The policeman smiled. "Faith, and there is not," he said. "If there was 'tis myself would cross it mighty often."
"No bridge!" exclaimed the toy in dismay, "Then how am I going to get there?"
Resuming his helmet, the policeman citew his new acquaintance into the shade of a doorway. "Whereabouts in Ireland do you want to go?" he asked.

doorway. "Whereabouts in Ireland do you want to go?" he asked.
"To Ballingarry," was the ready answer.
"Ballingarry! Well, may I die hungry if that's not my own native place," said the policeman. "What is your name, little man?"
"I am the prince of Ballingary."

"I am the prince of Ballingarry."
"The prince of —! Holy mother! Shure

s stark, staring crazy," With grave dignity the urchin continued: "My name is Fergus O'Gara, prince of Ballingarry.'

Off came the peace preserver's helmet once more as he stared at his inform-"O'Gara!" he spluttered, "why, child 'tis a good sixty years since there was an O'Gara heard of in Ballingarry. They were the real old stock, but they went to the mischief with wine and blooded horses.

the mischief with wine and blooded horses. That was sixty good years ago. And prince, too? 'Tis hundreds of years, avick, since the O'Gara's were princes of Ballingarry.' "You are mistaken, sir," said the boy proudly. "My grandfather who left me to go to heaven only yesterday was Roderick O'Gara, prince of Ballingarry. My father died long ago, and I am now the prince of Ballingarry. Will you please tell me the way to go to Ireland?"

The policeman said no more, but he did considerable thinking. To his mind the stray boy was assuredly insane. Being himself from the district of Ballingarry he knew the history of the O'Garas by

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health or the pure liquid laxative principles embraced is the remedy, Syrup of Figs.

Its excellence is due to its presenting

in the form most acceptable and pleas ant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the me profession, because it acts on the Kid-neys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drug-gists in 50c and \$1 bottles, but it is man-ufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not scorpt any substitute if offered.

for this boy to be a genuine O'Gara, but his talk about princes and the like was utter moonshine. On the whole the best thing would be to bring him around to the police station and consult the ser

Accordingly he held out a huge hand to the claimant of princely honors, and with scarcely a word, led him to the neighboring station. On the way the boy began to show signs of intense fatigue. His hand trem-bled and he complained of headache. Matters grew worse until at the very steps of the station little O'Gara stumbled and fell. He was carried, inert and unconscious, into the police matron's room, where it became clear that he had suffered a sunstroke

It was the "silly season" when news is scarce and the newspapers next morning wove romances, whole columns in length, anent the little "Prince of Ballingarry." These articles were the means of attracting two widely different persons to the police

The first of the twain was a fat, redfaced Irish woman, who amnounced her self, amid floods of tears, to be the boy's nurse and foster-mother. The other was no less an individual than Mr. Roger Hark-ness, the famous multi-millionaire. Mr. Plarkness said never a word to explain 1.1s presence, but Mrs. Mullalley-for that was her name-discoursed with exceeding great volubility upon her "poor baby." Froin her involved statements it was gath-cred that little Fergus O'Gara, an orphan, had been brought up in seclusion by his aged grandfather. The latter had lost his estate in Ireland and sought refuge in America. Poverty and disappointment caused his mind to wander, until he became possessed of the idea that he had re-es-tablished the pristine glories of the O'Gara's family and was once more "Frince of Bal-lingarry." Poor little Fergus was trained in this wild belief by his mad ancestor; and, when the old Roderick O'Gara had died two days before, his last words were a From her involved statements it was gathtwo days before, his last words command to his grandson that he should hasten back to Ireland and assume the

"That's a mighty fine story," dryly remarked the sergeant of police, "but what's going to be done with the boy?"
"I'll take him," replied Mrs. Mullalley,

"and 'tis glad I'll be "Pardon me," interjected the hitherto silent Mr. Roger Harkness. "I think, mad-am, I can suggest a better plan. Suppose the child goes with me. You see. last year, while traveling in Ireland, I saw the old castle of Ballingarry where this boy's an-cestors lived, and, taking a fancy to the place. I bought it and had it restored. When I read that newspaper story this morning, it struck me that it might prove amusing to restore the O'Gara family as well as their stronghold. The boy has no living relatives? No! That is good. I shall make immediate application for his

guardianship.' As Mr. Harkness left the station the

As Mr. Harkness left the station the sergeant casually observed: "Well, every one knows that old Harkness is a crank, but this is the freakiest thing he has ever done with his money."

Some months later a neat barouche whirled two travelers along the hilly load which led from the railway station of Ballingarry in the kingdom of Ireland, towards where the gray castle of the O'Garas restored by yankee dollars rose over the treetops. The twain were Roger Harkness and his protege, little Feigus O'Gara. Through exaggerated delicacy, not unmixed with a touch

heart. In the old half-mythical days, before the English came to Ireland, they had
been great lords and princes. Subsequently
they dwindled down into mere petty squires
until sixty years before their debts and
the landed estate could have driven them
out of Ireland altogether. It was possible
for this boy to be a genuine O'Gara, but sent you to your new master, Fergus O'Gara, forty-second prince of Ballin-

The boy stepped statelily from the carriage, bowed to the astonished steward, and remarked with his old dignity: "Mr. Harkness, you are heartily welcome to my castle".

And so the prince of Ballingarry found his way to Ireland after all.

GERALD BRENAN.

LARGE GAIN IN GOLD. Production of Silver for 1894 Shows a Marked Falling Off.

rom The New York World. Washington, May 21.—Director of the Mint Preston will make public tomorrow his estimates of the production of gold and silver in the United States for 1894. They will show a production slightly in excess of \$40,000,000 of gold and about 48,000,-000 ounces of silver. This is an increase of more than \$4,000,000 in the value of the gold product and a decrease of about 12,000,000 ounces in the production of silver. The world's production of gold, it is estimated, will amount to \$172,000,000, an increase of about \$15,000,000 over the produc-

tion of 1893. duction of the United States is several million dollars less than had been predicted. The world's gold production has steadily and uninterruptedly increased since 1888. These figures are as follows: 1888, \$110,197,000; 1889, \$123,489,000; 1390, \$118, 848,000; 1891, \$130,650,000; 1892, \$146,297,600; 1893, \$157,228,100; 1894, \$172,000,000.

The increase of 1894 over 1893 is practically equal to the phenomenal increase shown by the figures of 1892 and an increase of nearly 7 per cent over the average annual production of the decade ending

with 1883. It is predicted that the ratio of increas will be maintained for the next four years, or at least until an annual average production of \$225,000,000 of gold bullion is reached, and that this average will be maintained probably for ten years. By 1900 the Siberian field, which Baron Humboldt pro-nounced the most extensive in the world, will be fully exploited. The South African field is of marvelous richness, and, according to the reports of the leading experts, the Witwatersrandt field contains \$1,500,000.-000 worth of gold which can be taken out within the next twenty-five years at low

cluding the wonderful Yukon field in Alas-ka, leads to the conclusion that the present year will see the production of the United States reach nearly \$50,000,000. Aus-tralasia more than holds its own, and

Corea, China and Central Africa still have their unworked bonanzas. The mint statistics of the principal countries of the world show that during the years 1891, 1892 and 1893 approximately \$524,-000,000 worth of gold was coined. Of this amount \$124,000,000 was recoinage, leaving a net amount of \$400,000,000, which is, however, several million dollars in excess of the actual new bullion coined in those years. The production shows a total of years. The production shows a total of \$434,000,000 for corresponding years, which is regarded by the experts as proof of the fact that the use of gold in the arts and sciences has declined enormously in the last ten years.

HONORS FOR THE YEAR

The Names of Those Who Have Carried Off the Scholastic Plums.

GETTING READY FOR GRADUATION

The Closing Exercises of the Girls' High School at the Grand.

PRECEDED BY THE ALUMNÆ RECEPTION

The Work of the Boys' High School-The Commencement Season Is Only Two Weeks Off.

The honors for the year in the Boys' and Girls' High schools have been announced. It was necessary to name the honor graduates before the meeting of the board of education last Thursday afternoon.

At this meeting the names of those who had completed the year's work with honor in their respective classes were read.

In the graduating class of the Boys' High school, composed of thirty-six brainy, promising young students, the first honor is carried off by Mr. J. Edward McGuire. Mr. Hugh Brown, who has made a splendid record during the year, bears off the

Under the rules adopted by the board of education, no two members of the class can share either the first or second honor. The least fractional difference between two men, however slight the shade of divergnecessitates a distinct classification. Each man, therefore, enjoys the distinction conferred him by his class honor un-

Among the Girls. In the Girls' High school the honors have been awarded as follows:

Literary department, first honor, Miss Emma Lou Garrett. Second honor, Miss Mai Giles.

Business department, first honor, Miss Beulah Liebman.

Second honor, Miss Isabel Fitch. The graduating class is a very large one, and the young ladies composing it are among the loveliest that ever graduated

from that institution. Miss Nettie Sergeant, the principal of the school, is proud of the records made by the honor girls of the graduating class this year. The work of the year has been extremely difficult and thorough, and the honors awarded to the young ladies are not only well earned, but may be fairly considered as a proof of the exceptional attainments of the class.

Exercises of Graduation. The graduating exercises of the Girls' High school will occur at the Grand opera

house on the evening of June 7th, next. Sixty-two young ladies, clad in delicate white robes of immaculate purity, will receive their diplomas from the board of education. Miss Sargeant is preparing to give the public a unique surprise, in the nature of one of the most original and beautiful commencement programmes ever rendered in this city. This is saying much in prais of the forthcoming entertainment, for its predecessors have all been gems of loveli-ness. The graduting exercises never fail to test the full seating capacity of the opera house, and hundreds each year are com-pelled to stand.
On Wednesday morning immediately pre-

ceding the exercises of graduation the annual meeting of the Mallon Society will be held in Browning hall, at 11 o'clock. Interesting exercises have been arranged for this occasion, and these will consist of musical selections, essays and recitation. The society was never enriched with a greater variety of talent than at present,

and a delightful programme is insured.

The alumnae reception on Monday even ng of commencement week will in all like lihood be one of the most brilliant social events of the summer. This will occur in Browning hall, and that beautiful and spacious apartment will be tastefully trimmed and decorated for the occasion. The mem-bers of the Alumnae Society have already commenced to make extensive preparations for this social event, and the earnestness of their efforts in this direction pledges that all former gatherings of the alumnae will be suspassed.

At this reception the name of the young lady who wins the scholarship prize will be announced. A lively contest for the prize has been in progress since the beginning of the year, and hundreds of people in Atlanta are eagerly anticipating the

the evening of June 6th, and thirty-six bright, manly young faces will describe an arc of smiles on that occasion. Professor W. M. Slaton, the principal of the school, has labored earnestly during MUST HAVE HOTELS PACKING

The boys nave shown unusual mathematical ability, especially the two honor boys. The class has also done good work in the classics and the sciences. The work has been such as to give them a splendid education, even if they never go off to college. As a matter of fact, a majority of the class will go to college."

Professor Slaton has taken a great leal of interest in the work of the literary so-cieties, and the exercises during the year

have shown great progress in debate and cratery. The discipline has been thorough, and the experience highly improving and beneficial. Professor Slaton has organized

a class in parliamentary law, and has de-

voted everal hours to the class after the close of the day's work. Quite a number of distinguished visitors have favored the

school during the year, among them Dr. W. H. Payne, chancellor Nashville university; Dr. A. J. Rickoff, for fifteen years superir tendent of public schools in Cleveland, O.; Hon. Clark Howell, Mayor Porter

King, Hon. J. F. O'Neill and many others. The work of Professor Slaton deserves the recognition of all who are interested in the

public schools of Atlanta. The manner in which he has succeeded will be distinctly shown at the approaching exercises.

In the Grammar Schools.

The pupils of the grammar schools are now in the midst of their final examina-

These will be concluded next week, and then the tehearsals will begin.

The schools have all made excellent records during the year, and the closing exercises will be bright, original and inter-

THE SCHOOL CLOSED.

Brilliant Exercises at Mrs. Prather's

School Thursday Evening.

On the brilliant commencement occasion

of Mrs. Prather's school last Thursday evening no one won more hearty and gen-

erous applause than the beautiful valedic

torian, Miss Lillian Barrow. Represent-ing, as she does, the highest type of bru-nette loveliness, her high bred face and

graceful figure in perfect harmony, the audience seemed filled with pleasurable anticipation as soon as she rose to read her essay. This compact liftle composition, showing the most careful research, delighted them with its bright thoughts and disjinct delivery but when the sleeped

and distinct delivery, but when she closed with her charming translation and musi-cal Latin recitation of Horace's "Ode to the Fountain of Bandusia," their ap-

plause broke forth with redoubled energy

Miss Barrow's refined treatment of her subject, "Consecrated Fountains," and her

finished rendition of the difficult role of

Mme. d'Orbeval in the French play, were a fitting close to the fair record she has

made each year of her school life in this,

her native city. Graduating at sixteen, she has accomplished in three years the

full college course in Latin, English and

mathematics, and in the Ivy Street Gram-mar school, where her little feet first touch-

ed the lowest rung of the ladder of know-

ledge, she is remembered by classmates and teachers as an honor pupil in every

ship in her school, they have crowned her

with the laurels of affection and decorated their stage with lilies in her honor.

ed their stage with lines in her honor.

The recitation by Miss Ida Richmond was another-brilliant feature of the evening. Miss Richmond is a young lady of rare histrionic talent and her voice is one of marvellous power and flexibility. It is doubtful if a more superb recitation has ever been rendered in this city and this gifted young lady has a brilliant future before her.

Postnoned Auction Sale. The Pryor street building and stores next to the old police station, postponed until Monday, May 27th, at 11 a. m., on account of rain. Sam'l W. Goode & Co. may 25, 3t.

DR. JONES TO THE VETERANS.

He Will Prench the Annual Sermon

Tomorrow Afternoon. Dr. J. William Jones, of Virginia,

ate veterans of this city tomorrow after-noon at the Young Men's Christian Asso-

clation.

No man in the south is more loyal to the memories of the dead confederate soldiers than Dr. Jones, and as one of the greatest surviving chaplains of the confederacy the is known and honored all over the south.

Hundreds will gather to hear him tomorrow afternoon, and as an orator Dr. Jones has no superior in the southern pulpit, and when it comes to making a speech or delivering a sermon to old soldiers he is all enthusiasm.

A special invitation is extended to every old veteran in the city.

preach the annual sermon to the con-

But her fairest record is that her rivals have always been her warmest friends, and that although receiving the class pin of '95 for the highest scholar-

the school, has labored earnestly during the year to fully equip the members of the class for graduation, and he freely admits that the course of study has been a severe taxation upon the boys.

"The curriculum," said he, in speaking of the year's work, "has been heavier than at any other time. More original work in geometry has been done than ever before. The boys have shown unusual mathematical ability, especially the two honer boys. There Are Not Sofficient Accommodations for Exposition Visitors.

CHAIRMAN ADAIR TALKS TO THE POINT

The Demand for Rooms and Houses Ja Greater Than the Supply-There Are No Vacant Houses.

"Atlanta will not have sufficient accommodations for the visitors that are coming to the Cotton States and International ex position unless something is done promptly," said Chairman Forest Adair, of the committee on public comfort, last night.

"There is no use for us to attempt to hide this fact from the public, because any one that is aware of the magnitude of the exposition will, after a moment's considera-

tion, see it as plainly as the noonday sun "Take this week, for an instance, and look at the hotels and see how they have been crowded. The two conventions that have been in session here this week have packed the hotels and many private boarding

"Now, unless something is done before the exposition opens we will be in a bad fix to entertain people when it does. The people are coming, and coming, too, in large numbers, but where we are going to put them is a puzzle to me. As a matter of course it would seem to many people as it such a report as this going abroad would hurt Atlanta and the exposition. This is just what I am striving to avoid if I have the power to do so."

A Convention Frightened Away. Several months ago the association of Superintendents of Bridges and Buildings announced that it would hold its annual convention here in October. Thinking that there might be some difficulty in procuring hotel accommodations at that time, the secretary wrote to the leading hotels here to make arrangements for the delegates.

He failed to get favorable replies from any of them, and after considerable correspondence the executive committee of the association decided to change the place of meeting from Atlanta to New Orleans.

Mr. Adair heard of this and wrote the secretary asking exactly why the change had been made. He received in reply a letter stating that every member of the asociation was anxious to visit Atlanta, but that hotel accommodations could not be secured in advance and that there was no encouragement for them to come. That fact alone had caused the change. "Come, We Will Care for You."

When Mr. Adair received this letter he determined to bring that convention to Atlanta, and to see, too, that every delegate was cared for and made comfortable during his stay.

He wrote to the secretary and pledged him his word that if the convention would meet in Atlanta first-class hotel accommo-"You shall have a place in which to hold your convention," he wrote, "if we have to throw open to you the doors of our churches."

After receiving this reassuring letter, second change was made, and Atlanta will have the convention.

There Are No Vacant Houses. Chairman Adair has made a study of the situation, a close study, and is thor-oughly posted as to the number of vacant houses in the city and of the number that

are being built. "There are actually no vacant houses in ne city," he said, "and there are few being the city," he said, "and there are few being built. When I say there are no vacant houses, I refer to the first-class ones.

There are, of course, a few of this class of houses vacant, but they do not stay that way long enough to count and are being

rented by Atlanta people The City Is Fast Filling Un. "The city," continued Mr. Adair, "is fast filling up with strangers. They have come here because they are interested in the exposition. These people must have some place to stay, and from the way they are coming in now, they will take all the vacant houses and rooms before any of the

visitors arrive. "I have now letters here from a large number of people that are to be here in a short time. They all want apartments engaged for them in advance, but as yet I have not been able to find places for them. Right now I want ten furnished rooms, or a furnished house that has that many rooms, for ten gentlemen that are to be engaged on the government exhibit. I have not been able to do this."

The House-to-House Canvass.

Several days ago Mr. H. G. Saunders, the publisher of the city directory and secretary of the chamber of commerce, set a corps of men to work on a house-to house canvass, to ascertain how many visitors could be accommodated at the private residences during the exposition. The men placed on the work have completed the placed on the work have completed the canvass, but the work has not yet been completed. Until this is done, Mr. Saunders cannot tell whether the result will be satisfactory or not. As soon as the work has been completed, Mr. Saunders will make a report to the exposition authorities. The canvassing was done thoroughly, in fact, so thoroughly that even the governor's mansion was visited.

sion was visited.

Every house on Peachtree street was visited and the energetic canvasser went to the home of the governor in his hunt for homes where the weary exposition visitor homes where the weary exposition visitor might find at least a resting place. The number of letters received every day at the exposition headquarters, asking that accomodations be secured for parties that have been formed for the purpose of visiting Atlanta, is surprisingly large, and the question of where to put the people is really a serious one.

APOLOGIZES TO THE CHIEF. George Taylor Makes His Statement Before the Evening Watch.

Yesterday afternoon Supernumerary George Taylor apologized to Chief Con-nolly in the presence of the evening watch for saying that the chief made him tired.

for saying that the chief made him tired.

And the statement he made was satisfactory and was accepted by the chief.

Some ten days ago Mr. Taylor made a remark in the presence of the officers that reflected upon his superior officers. The matter was reported to the chief and it was laid before the board of commissioners. They decided that Taylor should apologize for what he had said, as this action was necessary to maintain the proper discipline among the men. In the meantime Taylor was suspended from duty to await the decision of the board.

Yesterday afternoon Taylor made his

Yesterday afternoon Taylor made his statement to the chief before the evening watch. He said in substance that the rewatch. He said in substance that the remarks he made were not the result of any desire on his part to reflect upon his superiors. He had no idea that he was doing anything wrong and was only glad to right the matter. He thought that he had been treated unfairly, but later developments showed that he had been misinformed upon the subject in question and he was very sorry for what he had said upon the impulse of the moment.

His apology was accepted and he was reinstated and will perform his duties as heretofore.

as heretofore.

The men were cautioned not to criticise or censure their superiors, but to prefer charges if any complaints were to be made.

A Few Things a Summer Pligrim Can't Get Along Without.

Make a list of the things you think you ought to take on your summer holiday trip and you will be startled at the result. You wonder if you will have to hire a special baggage car. Now, strike out every article not imperatively necessary and you will find that a trunk of modest size will answer every purpose even of a long trip. Travelers in making up their lists of in-dispensables should not forget that a change of drinking water after the heat change of drinking water after the heat and fatigue of a journey is likely to make them sick. To remedy this evil, or what is better, to prevent it, the pilgrim takes a supply of that sound and wholesome stimulant, Duffy's Mait Whisky. A little of this whisky in the water not merely kils the germs that would make mischief in the stomach and bowels, but it tends directly and strongly to revive a nervous system exhausted by long continued mental application, pressing anxiety or physical labor.

Make room in your gripsack for a bottle

cal labor.

Make room in your gripsack for a bottle of Duffy's Pure Malt Whisky and use it when you are worn out with the heat—for there are fearful days even in the country. Re-invigorate your sluggish body with this prince of stimulants and in the sense of strength and wellbeing that follows you will be glad that in making up your list of absolutely needful things you did not overlook Duffy's Malt Whisky.

The Southern Wholesale Grocers' Association Meets Here Next Week.

THERE WILL BE 150 DELEGATES

The Convention Will Be in Session Three Days.

WHO THE ASSOCIATION OFFICERS ARE

The Programme as It Is Now Mapped Out. J. E. Maddox Prominently Mentioned for President.

A convention that will bring to Atlanta the representative and wealthiest business men in the south is that of the Southern Wholesale Grocers' Association, which will be called to order Wednesday morning by President E. H. Leigh. There will be wholesale grocers here to

the number of 150 or more, and from nearly every city of prominence in the south. The delegates will begin arriving here on Monday and on Tuesday there will be a meeting of the board of directors, which is com-posed of the foremost wholesale men in the country.

Among the cities that will be represented are Richmond, Va.; New Orleans; Memphis; Montgomery; Knoxville; Chattanooga; Nashville; St. Louis; Meridian; Birmingham; Anniston; Little Rock; Fort Worth, Tex., Denison, Tex.; Jackson, Tenn.; Monroe, La.; Natchez; Oxford, Ala.; Paris, Tex.; Rome, Ga.; Selma, Ala.; Shreveport, La.; Talladega; Weatherford, Tex.; Wichita Falls, Tex.; Lynchburg; Wilmington and

There will be from one to twelve delegates from the various cities, representing the wholesale grocery firms that are members of the Southern Wholesale Grocers' Association. There will be a large number of visitors of prominence, who will be guests of the association. At the last meeting of the association there were not less than seventy-five prominent visitors in attendance upon the convention. There will be from one to twelve delegates

ance upon the convention.

This is the fourth annual convention of the Southern Grocers' Association, and each year the association has grown in strength and its membership increased until it is becoming a significant power and is working much in the direction of good for the benefit of the members and those with whom they have dealings. The association has been singularly blessed in the matter of officers and those who have presided at the various meetings have been thoroughly competent and have had the good will of all the members and their entire confidence. The last meeting was held at New Or-

The last meeting was neit at New Orleans in April last year, and was a fine success in every way. It is intended by the Atlanta wholesale grocers that not a single thing shall be left undone to make the coming convention a red letter one in the history of the southern association, and to have every arrangement complete and faultless. The meeting means much for Atlanta and Atlanta's wholesale merchants intend that the very best of the city's best shall be served to the delegates from the various cities. A mere mention of the names of those who are working to this end will be sufficient to show conclusively that the visitors will have their every care looked after and be made to enjoy every

hospitality. There were six contestants for the next place of meeting during the New Orleans convention. Other than Atlanta there were Memphis, Galveston, Richmond, Knoxville and Augusta. Invitations were extended to the association from all these cities and vigorous efforts were made by the repre-sentatives of each to secure the association meeting. Atlanta was, of course, victorious, and the credit is due to the Atlanta whole-sale merchants, of which J. E. Maddox is

Why the Association Was Formed.

The whyfores of the organization of the Southern Wholesale Grocers' Association and the causes that led up to it are succinctly stated in the preamble to the con-Among other reasons was that of the in-

MR. J. E. MADDOX.
Who Is President of the Atlanta Wholesale
Merchants' Association.

creased facilities of production and distribution. This led to the extreme develop-ment of the law of competition and this, in turn, led to abuses in trade. The manufacturers and importers ignored the job-bers and sold their surplus products direct to the retailers, regardless of the interest of the jobber, thus bringing about a state of affairs which worked a great deal of harm.

It is a competition which, in fact, is termed illegitimate by the wholesale men, who hold that it is a recognized principle of the business world that trade should pass through regular cnannels—the manufacturer and importer, the jobber and retailer, each receiving his legitimate profit for his by the thought of undertaking it. I am

time and trouble and risk, and that no arti-cle of trade should be sold without a small margin of profit to all parties handling it. Resolving to place this important branch of trade upon a basis involving correct and sound principles, the organization of a Southern Wholesale Grocers' Association

It is true that the benefits derived from the formation of this association cannot be specified as to pecuniary betterment to any concerned, but it is true that the organiza-tion has brought the wholesale men into closer touch and placed them upon a basis of a more complete understanding and ap-preciation of the varied interests of each. The association seeks to cultivate and maintain the priciple that trade should pass through regular channels. The members claim that the necessity has become imper-

fully conscious of my unfitness for the du-ties of so distinguished a position, and feel even now that this flattering action of yours ought to be reconsidered, and that your standard should be placed in stronger hands; but I pledge you, when receiving this trust, that I will follow your cause as earnestly as I believe in the sentiments and greatness of the principles avowed by this association."

From the Association's Birth Place. Mr. W. B. Lockett, the first vice president, was elected to succeed First Vice President E. G. Leigh, who was elected

Mr. Lockett is from a family which was originally Georgian, and his father engaged in the cotton export trade in New Orleans. Mr. Lockett, however, claims Knox-

OFFICERS OF SOUTHERN WHOLESALE GROCERS' ASSOCIATION.

SECRETARY E. E. HOOKER. TREASURER J. L. BLAIR.

PRESIDENT EGBERT G. LEIGH.

FIRST V. PRES. W. B. LOCKETT. SECOND V. PRES. W. F. VANDIVER.

ative in consequence of the concentration of power by consolidation, absorption and combination on the part of those whose products are largely distributed by wholesale grocers or pass through their hands.

The southern association admits to membership, upon the same basis, all wholesale grocers. At present its members are embraced in the states of Virginia, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas. Texas, Arkansas and Missouri. In the twelve states named there are nearly 400 wholesale grocers, seven per cent of whom are members of the Southern Wholesale Grocers' Association

Management of the Association. The association is under the direction of a regular corps of officers, who are aided by a board of directors made up of the presi-dents of the various and numerous local associations throughout the southern terri-

tory, and an advisory board.

The following named gentlemen are the present officers of the association:

E. H. Leigh, Jr., of Richmond, Va., president; W. B. Lockett, Knoxville, Tenn., first vice president; W. F. Vandiver, of Montgomery, Ala., second vice president; John D. Blair, Richmond, Va., treasurer; and E. E. Hooker, Richmond, Va., secretary.

The adv.sory board is composed of the following named gentlemen:

I. H. Stauffer, Jr., New Orleans; Max M. Badenhelmer, St. Louis; W. J. Johnson. tory, and an advisory board.

Badenheimer, St. Louis; W. J. Johnson, Richmond; J. S. Moore, Richmond; and Wirt E. Taylor, Richmond. President Leigh is ex-officio chairman of the board of directors, which has the fol-lowing names on its roll as members:

I. H. Stauffer, Jr., New Orleans, La.; Jacob Furth, St. Louis, Mo.; L. C. Younger, Richmond, Va.; C. N. Churchill, Memphis, Tenn.; James Moore, Galveston, Tex; J. E. Maddox, Atlanta, Ga.; W. K. Phillips, Nashville, Tenn.; H. M. Hobbie, Montgomery, Ala.; S. R. Jaques, Macon, Ga.; W. B. Lockett, Knoxville, Tenn.; W. H. Weiss, San Antonio, Tav.; W. L. Dobbe, Chettanoo-San Antonio, Tex.; W. J. Dobbs, Chattanoo ga, Tenn.; S. W. Lee, Birmingham, Ala.; George Recihardt, Little Rock, Ark.; John E. Michael, Mobile, Ala.; M. W. Kelly, Co-lumbus, Ga.; J. B. Ardis, Shreveport, La.; S. D. Holt, Selma, Ala.; Paul Waples, Fort Worth, Tex.; R. P. Thomason, Anniston, Ala.; W. P. Simpson, Rome, Ga.; H. H. Threefoot, Meridian, Miss.; R. F. Scott, Paris, Tex.; J. F. Handy, Monroe, La.; S. H. Lowenburg, Natchez, Miss.; R. S. Halsey, Huntsville, Ala.; J. M. Gambill, Roanoke, Va.; Paul Mustin, Augusta, Ga.; C. M. Gilbert, Savannah, Ga.; L. P. O'Neill. Charleston, S. C.; J. C. Stevenson, Wilmington, N. C.; William D. Cleveland, Houston, Tex.; R. P. Volght, Norfolk, Va.; Erskine Miller, Staunton, Va.; and W. H. Fitzhugh, Vicksburg, Miss.

Something About the President. Mr. E. H. Leigh, Jr., of Richmond, Va., was elected president at the last convention

of the Southern Association in New Orleans. He succeeded J. H. Martin, of Memphis. President Leige, so those who know him say, is a man who is habitually modest. He is a man of most courteous manners and his unanimous election shows what his asso-

"When I realize the possibilities that lie in this great organization for the good to the southern country, and, indeed, this

action action of the contraction of the contraction

I find the ROYAL BAKING POWDER to contain leavening gas in greater quantity than any other baking powder I have examined,

ed from the University of Tennessee in 1881. He is president of the Wholesale Grocers' Association, of Knoxville, and is senior member of the well-known firm of Lockett & Co. It was in Knoxyille that the association was given a start. Mr. Lockett was first chairman of the association when the organization met in Nashville. He has been president of the local association four years and is a director in the Third National Bank, of Knoxville, and is also a director in the Knoxville Provision and Sugar Company.

He Halls from Georgia

W. F. Vandiver, of Montgomery, Ala., was elected second vice president to suc-ceed E. G. Scudder, of St. Louis. Mr. Vandiver is a native Georgian. He was born in Oglethorpe county forty-four years ago, moving to Alabama, however, when a sturdy youngster. He went to the city of Montgomery in 1870 and entered the then large mercantile house of LeGrand & Co. He was a steady worker and everything he undertook was entered into with a spirit of wonderful earnestness.

His present success speaks sufficiently for the earlier trials and hard work that had to be gone through before it was attained. Enterprising in every sense of the word, he is thoroughly identified with all movements that look to the advancement of Montgom-ery. Mr. Vandiver was in Atlanta during the early part of last year, when he was chairman of the freight committee. He went before Mr. Stahlman, of the South-ern Railway and Steamship Association, and presented several questions of impor-

tance to wholesale merchants. Has Made a Splendid Record.

Secretary E. E. Hooker, at present lodent of Knoxville, Tenn., is a young man of fine business qualifications—a fact which needs no further proof than to say that he has been secretary of the association for three years and will probably be re-elected

Mr. Hooker was elected secretary of the association in 1892 at the annual meeting in Memphis. He was born in Cincinnati, though, as stated, he claims Knoxville as his home. He has been in the south twelve years and is thoroughly identified with the people of this section. For several years he was in Jacksonville, Fla., in the wholesale coffee, tea and spice business, and later at Knoxville, Tenn., was in the whole-

sale business. It was after he had sold his interest in his Knoxville business that he was offered the temporary secretaryship of the Southern Wholesale Grocers' Association, and this was followed by his election to the permanent secretaryship. It is possible that he may come to Atlanta, as he goes to the city where the president elected hap-

Treasurer J. D. Blair, of Richmond. The treasurer of the association is John D. Blair of Richmond. Like the se he was elected by the members of the board of directors. He is one of the foremost of ciates think of him. A true index to his character is the speech he made when elected to his present position. It was very short. In it he said:

Richmond's business men and is a man who has the utmost confidence of the business men who are acquainted with him, while in his own state he is known for his integration. rity and the punctuality with which he meets all business matters. He was elected to act as secretary with

He Is Spoken of for President. One of the leading business men in the south is J. E. Maddox, junior member of the firm of J. J. & J. E. Maddox. The firm of which he is a member is known throughout the north and south and west and the names of the two members are synonymous with all that is honest and

synonymous with all that is honest and progressive.

Although still a young man, Mr. J. E. Maddox is recognized as a business man of far more than ordinary ability. He is acquainted with every detail of the vast amount of business his firm ques and is in touch with the varied interests which come in contact with such a trade. He is president of the local Wholesale Merchants' Association and has worked faithfully and despendent of the local Wholesale Merchants' Association and has worked faithfully and despendent. sociation and has worked faithfully and devoted much of his time toward preparing for the entertainment and reception of the southern association.

Mr. Maddox has been prominently men tioned in connection with the presidency of the Wholesale Grocers' Association and it is only a question of an expression from him as to whether or not he would accept the honor of the position and the duties of the office. Mr. E. W. Pope is vice president of the local association and Mr. H

G. Saunders is secretary.

As chairman of the committee on entertainment, Mr. J. G. Oglesby has devoted considerable interest to the coming convention. He is a hard worker and it is safe to say that the visitors will be properly and royally entertained. Another committee is that on reception. Mr. Stuart Woodson, president of the chamber of commerce, is chairman of this committee.

Will It Be Atlanta?

There is a question of importance to be lecided at the coming convention. There has never been any permanent headquarters named and the office of secretary has been of a migratory or ler, mov-ing to the city in which the president resided, while the treasurer necessarily came from the same city in order that all the work might be thrown into immediate

The question of permanent headquarters will be disposed of at the coming convention. It is one which has aroused considerable speculation. A central point is very much desired and it is understood that the fight will be between three cities—Atlanta, Knoxville and Chattanooga.

As to the Programme. The convention will be in session in Atlanta for three days. There will be three

business meetings, a couple of entertain-

ments and a splendid banquet.

The headquarters of the association will be at the Aragon Hotel, where most of the members have secured 100ms. On Tuesday the board of directors will hold a session and will look over the situation and complete the business programme There will be addresses on various selected subjects at all of the business meetings.

On Wednesday the first business meeting will occur and on the afternoon of that day the visitors will be taken to the base-ball game between Atlanta and Little Rock. Thursday morning there will be a business meeting and in the afternoon there will be a drive to the exposition grounds, where the visitors will be given some idea as to the scope of the Atlanta exposition. Friday will conclude the business and on Friday night there will be a banquet which will surpass all previous banquets and a which there will be served wines which will put to blush all other wines.

VEGETARIANISM IN THE ORIENT. Don't Eat Meat Because They Are Afraid of Enting Their Ancestors. From The New York Herald.

regular monthly meeting of the New York Vegetarian Society was held at the residence of Mrs. Arthur Haviland, No. 623 East One Hundred and Thirty-ninth 623 East One Hundred and Thirty-ninth street, last evening. A private dinner preceded it, given by Mrs. Haviland to Mr. and Mrs. John W. Scott, C. A. Montgomery, Dr. E. B. Foote, Jr., George Brunswick, Mr. and Mrs. Howe and Colonel and Mrs. John G. Fay.

Margherita Arlina Hamm spoke at the evening meeting on "Vegetarianism in the Orient."

"In the far east." she said, vegetarianism.

"In the far east," she said, vegetarianism has a literature of its own, and of its millions of advocates. It is a mat-ter of religious faith among many Buddhist and Taoist sects. Here are a few orient sentiments from the great meralists and preachers:
"The soul of your father may look out

through the eyes of a tiger, and your grandfather may live again in the bullock which draws your plow.
"Who kills the ox which plows his field and turns his mill is an ingrate as well as a malefactor.

"No one willingly will eat those of his kindred, and no one knows what forms his kindred from time to time assume. 'A meadow which keeps two

"A meadow which keeps two buffaloes will support one farrily; planted with rice it will support ten.
"Under sentiments such as these, Japan, Corea, China, Tonquin, Anam, Cochin China, Cambodia and Siam, the so-called Mongolian lands, have lived and thrived for centuries.
"It was told in China that they had fifty different kinds of flour. Besides grain, flour is made of powdered chestnut, walnut, peanut, almond, peach pit, plum stone, cherry pit, apricot pit, acorn, coccanut, filbert, watermelon and pumpkin seeds, roots and beans."

About fifty persons attended the meeting.

CONSUMPTION

can, without doubt, be cured in its early stages. It is a battle from the start, but with the right kind of weapons properly used it can be overcome and the insidious foe vanquished. Hope, courage, proper exercise, will-power, and the regular and continuous use of the best nourishing food-medicine in existence-

Scott's Emulsion

—the wasting can be arrested, the lungs healed, the cough cured, bodily energies renewed and the physical powers made to assert themselves and kill the germs that are beginning to find lodgment in the lungs. This renowned preparation, that has no doubt cured hundreds of thousands of incipient cases of Comsumption, is simply Cod-liver Oil emulsified and made palatable and easy of assimilation, combined with the Hypophosphites, the great bone, brain and nerve tonic. GEORGIA, FULTON COUNTY—To the Superior Court of Said County; 1. The petition of William A. Wright, J. S. Russell, T. C. Erwin, R. T. Dorsey, J. P. Steffner, W. W. Hulbert, Malvern Hill and E. P. Black, all of said county and state and D. F. Jack, of the county of Richmond, in the state of Georgia, and T. W. Leary and Charles L. Loop, of the county of Hamilton and state of Tennessee, and C. L. Myers and J. E. Starke, of the county of Duval and state of Florida, respectfully shows that they desire for themselves, and such other persons as may hereafter become associated with them, to be made and consituted a body corporate, under the name and style of

THE PROVIDENT FUND BUILDING AND LOAN ASSOCIATION.

THE PROVIDENT FUND BUILDING AND LOAN ASSOCIATION.

The principal office, place of business and residence of said association shall be in the city of Atlanta, Ga., in the country of Fulton, but petitioners desire the privilege of transacting business anywhere within the United States or any foreign country, to establish branch and department offices and agencies, to create and appoint general and local boards of directors and officers of said boards for the management of 2nid business; to appoint such attorneys, brokers, agents and representatives as may be necessary to carry on the business of said association, and to confer authority upon them for that purpose and to remove them at pleasure.

2. The objects of said association shall be pecuniary profit for its stockhoiders, to encourage the saving of money; the accumulation of a fund, which shall be paid in monthly installments or otherwise, by its stockhoiders, and loaning the same on real estate, personal or other acceptable security, to members of said association, or to persons not members thereof, or to firms and corporations, and to take and hold deeds, mortgages, notes, bonds, executions, llens and other evidences of debt or personal security therefor; to sell, assign, transfer or otherwise dispose of all such securities or any part thereof; to make, issue and sell bonds, debentures, notes or other obligations based on the securities and property, held or owned by said association; to buy, sell, own and deal in any such real or personal property; to improve any real estate by erecting buildings or other appliances for increasing the value thereof, and to lease or rent and sell for cash, on time or on installments; also to act as agent or trustee for the investment and management of funds for persons firms, corporations, administrators, executors, guardians and trustees; to act as agent or broker for negotiating loans, for the purchase and sale of bonds, stocks, notes and other evidences of debt, or of personal property and real estate, and charge such c

tract and be contracted with, and to have such other powers and to do such other acts as are customary and proper to carry out the intent, design and purpose of said

tract and be contracted with, and to have such other powers and to do such other acts as are customary and proper to carry out the intent, design and purpose of said association.

5. Petitioners pray that they be authorized and empowered to lend money to persons not members or shareholders of the association, as well as to members, at eight (8) per cent or less, and to aggregate the principal and interest at the date of the loan for the entire period of the loan, and to divide the sum of the principal and the interest for the entire period of the loan into monthly or other installments and to take security therefor by mortgage, with waiver of exemption or title, or both, upon and to real or personal property, and all contracts made and securities taken in accordance with this provision shall be valid for the full amount of principal and interest charged and shall not be held usurious.

6. Petitioners pray that the business and affairs of the association shall be managed, controlled and conducted by a board of directors, which shall have power to make all by-laws and needful rules and regulations for the government of the association, and that the persons named herein, and such others as they may elect, shall constitute the board of directors for ten years from the date of the organization of said association, and until their successors shall have been elected, with power in said board to fill vacancies that may occur by death, resignation or otherwise, and with power in said board of directors shall have power to be death, resignation or otherwise, and with power in said board of directors shall have power to elect, appoint or employ all such officers, agents and employes as it may deem necessary to manage and conduct the business, and said officers, agents and employes as it may deem necessary to manage and conduct the business, and said officers, agents and employes may be elected from their own number or from person, not members of the board, but all officers must be subscription is in addition to the common

VIENNA ROLLS.—One quart flour, ½ teaspoonful salt, 2 teaspoonfuls Royal Baking Powder, 1 teaspoonful lard, 1 pint milk. Sift together flour, salt, and powder; rub in lard cold, add milk, and mix in the bowl into smooth dough, ensily handled without sticking to hands and board. Flour board, turn out dough and give it a quick knead or two to equalize it; then roll it out with rollingpin to thickness of ½ inch, cut out with large round cutter, fold ½ over the other by doubling it; lay them on greased baking sheet, without touching. Wash them over with a little milk to glaze them. Bake in hot over 15 minufes.

and it is free from adulteration.

ENGLISH MUFFINS.—One quart flour, it teaspoonful sugar, I teaspoonful sult, 2 large teaspoonfuls Royal Baking Powder. 1% pints milk. Sift together flour, sugar, salt and powder; add milk and mix into smooth batter trifle stiffer than for griddle cakes. Have griddle heated regularly all over, grease it and lay on muffing, half fill them and when risen well up to top of rings turn over gently with cake turner. They should not be too brown, just a buff color. When all cooked, pull each open in half, toast delicately,

butter well, serve on folded napkin, piled high and very hot. OATMEAL MUFFINS .- One cup of oat OATMEAL MUFFINS.—One cup of oatmeal, 1½ pints flour, I teaspoonful salt, 2 teaspoonful sroyal Baking Powder, I tablespoonful lard, eggs, I pint milk. Sift together oatmeal, flour, salt and powder; rub in lard cold, add besten eggs and milk; mix smoothly into batter rather thinner than cup cake; fill muffin pans 2-3 full; bake in good hot oven fifteen minutes.

"POOR MAN'S" CORN GEMS.—One pint corn meal, I pint flour, I teaspoonful salt, 2 teaspoonful Royal Baking Powder, 1-3 pint each of milk and water. Sift the corn meal, flour, salt and powder together. Add the milk and water, mix into a firm batter; 2-3 fill well greased, cold gem par, Bake in a well-heated oven 15 minutes.

ROYAL EGG MUFFINS.—One quart flour, 1 tablespoonful sugar, 1 teapoonful salt, 1 large tablespoonful lard, 2 teaspoonfuls Royal Baking Powder, 3 eggs, 1% pints milk. Sift together flour, sugar, salt and powder; rub in the lard cold; add the beaten eggs and mfik; mix quickly into a

smooth batter, a little firmer than for griddle cakes; 2-3 fill cold, carefully greased muffin pans; bake in hot oven 15 minutes. ROYAL GRAHAM GEMS.—1½ pints Graham, ½ pint corn meal, 1 teaspoonful salt, 2 teaspoonfuls Royal Baking Powder, 1½ pints milk. Sift together Graham, corn meal, salt and powder. Add the milk and mix into a moderately stift batter; ½ fill cold gem pans, well greased. Bake in a solid hot oven 10 to 12 minutes.

Biscuits, Buns, Etc.

Hiscuits, Buns, Etc.

HOT BISCUIT.—I quart flour, I teaspoonful salt, 3 teaspoonfuls Royal Baking Powder, I tablespoonful lard, I pint sweet milk, cold—never use sour milk; use cold water when milk cannot be obtained. Sift together flour, salt and powder; rub in lard cold, add milk, form into smooth, consistent dough. Flour the board, turn out dough, roll out to thickness of ¾ inch, cut with small round cutter; lay them close together on greased baking tin; bake in good hot oven. Old biscuit can be made fresh by moistening, placing in oven until heated through.

ATLANTA, GA., May 25, 1895.

Trilby on the Bench.

Some of the newspapers that seem to think this country should have a currency system suitable only to the demands of the money power, and that also seem to think that in the levy of federal taxation the bondholders and the capitalists should be guaranteed exemptions not possessed by others, are in a state of mental agitation over the dissenting opinion delivered by Justice Harlan, of the supreme bench, in the income tax case.

In differing with the majority of the court Justice Harlan declared his belief in the constitutionality of the law as passed by congress, and among other things said:

The practical, if not the direct, effect of e decision today is to give to certain ands of property a position of favoritism and advantage that is inconsistent with the fundamental principles of our social organization, and to invest them with power and influence that may be perilous to that portion of the American people upon wh rests the larger part of the burdens of the government, and who ought not to be sub-jected to the dominion of aggregated wealth

any more than the property of the country should be at the mercy of the lawless. * * It is cause for profound regret that the highest tribunal of the land has thought it appropriate to intimate that the law now before us had its origin in a desire upon a part of the majority in the two houses of congress to impose undue burdens upon the people of particular states.

But this is not all. The decision now made will inevitably provoke a contest in this country from which the American people would have been spared if the court had not overturned its former adjudications, and had adhered to those principles of tax-ation under which our government, following the repeated adjudications of this court,

has always been administered. * * *
Is a given body of people in one corner
of the United States, although owning vast properties, from which uncounted millions regularly derived, of more con in the eye of the constitution and the ju-dicial tribunals of the land than the like number of people in other parts of the cour try who do not enjoy the same prosperity.

Are those in whose behalf arguments are made that rest upon favoritism by the lawmaking power to mere property and to particular sections of the country, aware that they are provoking a contest which in some frenzy and passion, existing social organizations and put in peril all that was dear to the friends of law and order? Are they yet to learn that such arguments tend to arouse a conflict that may result in giving life, energy and power, as well to those in our midst who are eager to array section against section as to those, unhappily not few in number, who are without any proper idea of our free institutions, and who have neither respect for the gifts of property nor any conception of what is liberty regulated by law.

The organs representing the principles of class taxation are vehement in their criticism of Justice Harlan's opinion, and the distinguished justice is being made the recipient of a volley of shot from the battery of the money power.

While The Constitution is not in clined to take the extreme view pre sented by Justice Harlan, it cannot be denied that there is much basis for what he says. The trend of legislation seems to be in the direction of making the rich richer, and the poor poorer-of increasing the burden on the masses and lessening that on the shoulders of those who are best able to stand it.

The people are not apt to accept the decision of the supreme court without stopping a moment to think of some of the circumstances leading up to it. When they read the opinion of Justice Field, bitterly attacking the income tax measure and denouncing the principle back of it as being an unwarranted onslaught on capital, they cannot fail to recall the fact that the same justice who declares the law to be unconstitutional today announced that practically the same measure was constitutional thirty years ago, and he delivered this contradictory opinion from the same bench as that from which he spoke last Mon-

The people are not likely to shut their eyes to the wonderful change which came over the dreams of Justice Shiras almost in a night. No hypnotist ever had a quicker victim, and the spectacle presented in his sudden change of mind suggests an ideal study of Trilbyized fustice.

But little more than a month ago the supreme court passed upon the constitutionality of the income tax. Eight judges heard the discussion, Justice Jackson being prevented from attendance by the condition of his health. They rendered their decision and four declared the principle of the law to be in conformity with the constitution and four ofhers declared to the contrary, leaving the court in a tie. Justice Shiras delivered a strong opinion in behalf of the constitutionality of the

On account of the even division of the court, the question is reopened, Justice to his seat on the

bench, and the nine justices listen to the reargument of the case. Justice Jackson is supposed to be the arbiter, and if he declares the law constitutional, it will stand, and if unconstitutional it must fall, this assumption being based upon the idea that a justice of the supreme court would not in a fortnight change his opinion on so important a subject. The decision is rendered, Justice Jackson declares the law to be constitutional, and the vote is 5 to 4-but not in favor of the constitutionality of the law, as might be supposed from Justice Jackson's opinion. It suddenly develops that Justice Shiras, who but little more than a month ago, thought the law constitutional, has reached the conclusion that it is unconstitutional, and thus the presence of Justice Jackson was rendered unnecessary, for the majority of the court is on record against the constitutionality of the law without him.

The aggressiveness of the money power in abusing Justice Harlan for his vigorous expression of opinion is but calling the attention of the people to some of the strange inconsistencies which no doubt operated to cause Justice Harlan to speak very plainly in what he had to say. If he spoke too plainly he has abundant excuse for it in the peculiar circumstances under which his opinion was molded.

The Fruit Crop Again.

Grapes and fruits generally have suffered heavily in the northern and central districts of the union during the frosts of the past week.

Our southern fruit growers should not forget this important piece of news. and if they profit by it in time their abundant crops will yield them a large

The thing to do is to save the crops which are so bounteous in this quarter of the republic. There will doubtless be delays in transporting our surplus to distant markets and immediate steps should be taken to save it by drying, preserving and canning. Evaporators are now within the reach of the mafority of our farmers, and peaches can readily be turned into a shape which always finds a market. To those who cannot afford one of these machines, the sun offers its genial rays, and while this process is not so rapid as the other, yet the laborer is rewarded with sweeter fruits than those produced by the evaporators.

Every community should have a canning factory, for it not only furnishes employment but it also gives the fruit grower a good market and saves what would otherwise be wasted. Our fruit is a godsend this year and we should make the most of it.

A Disputed Question.

The New Orleans Times-Democrat has received information to the effect that one J. Q. Allison, of Douglasville, Ga., is now in the chaingang of this state for violating its laws regarding the observance of the Sabbath.

Our New Orleans contemporary speaks of the matter as a case of religious persecution, and says that a state which punishes an industrious and honest man for keeping his Sabbath on the seventh day, and working on the first day of the week is a state whose Christianity and civilization are of a medieval character. It contends that the Lord has never repealed His old statute, "Six days shalt thou labor, and do all thy work; but the seventh day is the Sabbath of the Lord thy God; in it thou shalt not do any work."

Holding these views, The Times-Demrat proceeds to denounce the Geor gians as "un-Christian when they pun ish their fellow citizen for keeping one of the commands of the moral law which they themselves are in the habit of breaking." It concludes as follows:

But it is positively appalling, at this end of the nineteenth century, to contemplate Georgia's code of blue laws respecting this crime" of Sabbath-breaking. It provides that the offender may "be punished by a fine not to exceed \$1,000, imprisonment not to exceed six months, to work in the chaingang on the public works, or on such other works as the county authorities may em-ploy the chaingang, not to exceed twelve months, and any one or more of these punishments may be ordered in the discretion

That is surely a steep enough punishment for obeying his conscience in preference to the dictates of a mere secular authority, but even that is not the worst of it. case of "insurrection," under which head would naturally be included a refusal to work in the chaingang on the Sabbath, this delightful Georgia law directs that "such * * member or members of the chain-gang shall, upon trial and conviction in the supreme court of the county in which the crime is committed, be deemed guilty of a capital offense and be punished with death, or such other punishment as the judge in his discretion may inflict."

If, therefore, a Georgian who does his religious devotions and keeps his weekly "day of rest" on Saturday, according to the explicit order of the Almighty, be found oeing in his garden on Sunday, and be informed against, he is liable to a thousand dollars' fine, imprisonment for six months and inclusion in the chaingang, and in the event that while in the chaingang he refuses to work on his Sabbath he is liable tried for "insurrection," to be con-

victed and to be put to death!

What a delightful land of religious liberty Georgia must be, to be sure!
Would it not be well for our sister state to make concession to the spirit of religious tolerance of which we are given to boast, to the extent of quashing Allison's sentence and of erasing from her statute book nedieval law against Sabbath breaking which we have quoted? It is the nine-teenth century that is now closing, not the fourteenth.

All this makes very interesting reading, and it is well calculated to excite the sympathies of the thoughtless, but there is another side to be heard from. In the Christian world the first day of the week is now observed as the Sabbath, and the seventh day is only an ordinary working day. Are the millions of Christians who observe the first day to have their devotions interrupted by a very few persons, perhaps not more than a score or so in a state, who claim that they have the right to do any kind of work and make as much noise as they please on that day?

We think not. The minority should follow the example of the pious Jews who observe both days, the seventh and the first, thus keeping their Sabbath and respecting the one observed by the

Allison was not persecuted on account of his religious belief. He was pun- livered Susie Hook over to the devil.

ished because he violated a penal law of the state. Under the police powers of every commonwealth there are much severer statutes in relation to very small matters. Even under the munici pal ordinances great hardships result when a man exercises natural and godgiven rights in some cases where the law restrains him in the interests of the public.

The Douglasville man should have observed his own Sabbath, and then he should have respected the Sabbath of his neighbors who are in accord with the overwhelming mafority of the state and the nation and all Christian lands. For the sake of peace and order we cannot allow a few to bring anarchy into our system simply because they claim to be acting according to their religious convictions. Once give way to this plea, and we would then have no right to prohibit polygamy among the Mormons. In a republic the majority rule, and it would be a dangerous thing to admit the right of the minority to defy the laws under pretense of living up to their religion. If the Douglasville man wants to smash the Georgia Sabbath let him pay the penalty or go elsewhere.

Per Capita Circulation.

The St. Paul Press makes the stock argument of the goldbugs that we have more money in circulation than England has, and, therefore, should be satisfied. But The Press does not take into consideration the fact that France requires \$42.84 per capita as against our 22.57 and finds that a large volume of currency adds to her prosperity. We do not lay much stress, however, upon the per capita of other countries. They have their own peculiar conditions, and what suits them might not work satisfactorily here. As The New Orleans Times-Democrat puts it:

There is no greater folly than to argue that because \$17.24 per capita is enough currency in England it is enough here. The situation is entirely different. Here nearly all the crops are raised on credit, and in the country, as well as in the cities, improvements are always under way. The United States is a country being developed and built up; England is one already built up and carrying on a regular business, which varies little from year to year. The difference in size, for the United States is more than thirty times as large as all the British isles, must also be taken into con-sideration. It takes as much longer to harvest our crops, and the money needed in doing so is necessarily longer withdrawn from active circulation. Again great finan-cial differences exist in our several sections. There is little variation in the circulation wealth and development between the sev-eral British countries, whereas the south and west are as different financially from the east as India is from England. capita circulation of \$22.57 in the United States does not mean that circulation in the south and west, and an investigation would probably show a per capita in New England of \$60; in the south generally of \$10, and in some sections of it of \$5, but we do not imagine the larger circulation in New England will be of any benefit to Texas, Georgia or Oregon. It would be like telling the people of Newfoundland, now in the throes of bankruptcy, that they ought to be perfectly satisfied, as the per capita circulation of the British empire is large and amply sufficient. We do not imagine that the people south of the Ohio and west of the Mississippi will be satisfied at lains told that their eastern brethren are quite pleased with the situation and think there is enough money, when the contrary is very, apparent.

We have more than once expressed similar views in these columns, and the experience of the past few years has confirmed them. Every point made by The Times-Democrat is a sound one. In a country of vast size like ours with conflicting interests we need a large volume of currency, and we need local centers for its distribution, such as we had under the old state banking system. Our population doubles every thirty years, new territories become populated, and spring into statehood, and our commerce and industry continue to leap forward at a rate unknown in the old countries of Europe. If \$25 per capita will do in one generation, it may be that in the next the increase of population and business will make \$50 necessary. A financial system which suits England may be the worst possible one for the United States. Our statesmen should forget all about Europe and study our conditions. We need a currency which will meet the demands of our business without regard to what is satisfactory to other counfries. The only rational way to solve our problems is to legislate for America and America alone. When we consult the best interests of our people we are on the right line, and if our system does not please other nations, then so much the worse for them. What we need is a currency for the Americans and not for the Europeans.

A New Jersey Witch.

The good people around Haledon Hill, near Paterson, N. J., are in deep trouble just now.

The women are careful not to venture too far from home and strong men are armed to the teeth, ready to kill the witch who laid a spell upon poor Susie Hook. As the story goes, Susie was bewitched sometime ago by her best friend, Mrs. Kievett. The girl began to act queerly and the neighbors told her mother that it was a clear case of witchcraft and that the only remedy was to send her away, and that on the ninth day the witch would visit her and remove the spell. From house to house the gossip flew until Mrs. Hook

sent Susie to Haledon Hill. For sixteen days the neighbors have watched, but Mrs. Kievett has not made her appearance. Her husband, however, went to the hill, but his mission was to inquire who had started the story about his wife. "I know such things are," he said, "but my wife is no witch and I will kill the man who says she is." Mrs. Kievett herself laughs at the whole business. She is a comely woman of thirty-two and her friends say that the story about her started be cause she was kind to Susie and be friended her in every possible way be cause she saw that the girl was weak-

minded. Be this as it may, at the close of the nineteenth century in the Christian state of New Jersey, within sight of the churches of Paterson, there are hundreds of men and women who firmly believe that Mrs. Klevett is a mistress of the black art and that she has deSo, if they get a chance at the alleged witch, they are going to kill her-shoot drown or perhaps burn her to death. It is horrible to think that such superstition exists today in one of the oldest states of the union, but the story cannot be doubted. Evidently we need a good deal of home missionary work in this country. There are dark corners in every part of it.

A Modest Millionaire.

Mr. Daniel Scotten, of Detroit, de serves a medal for his modesty. He is a millionaire and a successful business man, and his fellow citizens would gladly recognize his merit and ability by calling him to some public office, but he is unwilling to accept such honors. In a recent letter to Mayor Pingree, declining to serve on the agricultural commission. Mr. Scotten says:

I must decline your appointment to be member of the agricultural commission.

I am deeply impressed with the honor you have conferred upon me, but incapacity, incompatibility, disinclination, want of time and lack of agricultural knowledge forbid my accepting. I have for fifty years refused office of all kinds-religious, secullar and political, especially political, with all its abundant emoluments, honor and glory. Having no such aspirations or am bition, I have requested, do now request and shall hereafter request my fellow-citizens not to attempt to drag me from that unostentatious seclusion and obscurity which has been, is and, I hope, shall be my

In this generation, when millionaires become governors and senators and when their prominence in public life is regarded as the natural consequence of their wealth and enterprise, it is a very rare thing to find men like this modest Detroit citizen. It is impossible to read his letter without coming to the conclusion that he has greatly underesti mated his capacity and competency. Sincerity and good sense are apparent in every line of his communication, and his firmness in resisting the temptations which have drawn so many men into the pursuit of office shows a degree of will power which would be of great value in any position of trust where a responsible man would be needed to guard the interests of others.

While Mr. Scotten might not feel at home on the agricultural commission, we feel sure that he is a man of fine judgment who would be very useful to his constituents in either a legislative or an execuitve position. A self-made rich man who is not puffed up by his success nor politically ambitious is an exception, and in such cases it would be the proper thing for the office to seek the man.

EDITORIAL COMMENT.

Lafcadio Hearn was just the man leave his country to adopt Japan. He was forever doing the most unique things. His mind teemed with original ideas on every odd subject. He is always comes something so out of the common as to at-tract the attention of the world. When a reporter for a Cincinnati paper he often look a bird's eye view of the city from the top of the highest church steeple. He would climb up inside the spire to the topmost little window, then get on the out-side and climb to the foot of the old iron cross that was planted there years ago. Here he would rest a while. Having re-covered his wind he would ascend still higher, till, having reached the arm of the cross, he would anchor himself there, light his pipe, and spend the afternoon in quiet coglitation. The cross was loose in the socket, and in a strong wind rocked con-siderably. But he rather liked that. From the street below he was a mere speck in the heavens. How he ever sot down was

Public indignation in New Jersey over the action of the board of pardons in this case means Governor W imprisonment of the Gut-"Big Four" is by no means dving tenburg out. The Essex county democracy have adopted resolutions condemning the governor in the most pointed terms, telling im that his conduct "would warrant him in stepping down and out from the posion upon which he has brought re-roach," and calling on the legislature take such action as will put it out to take such action as win so "further of the power of the pardoners to "further scandalize the state." A Trenton dispatch scandalize the state." A Trenton dispatch to The Newark Advertiser says that the governor's closest Triends are almos silenced by his action, and that impeach ment proceedings are seriously discussed.

Says The Wilmington Messenger: "Close bservers in North Carolina know this: that outside of the towns and villages you will find but very few white men favoring gold only-that in the towns and villages gold only-that in the towns and vinag not perhaps more than one in ten, if so many. An election in this city if held, and every one allowed to vote as he pre-fers, would result in all probability in majority for the honest money of the cor stitution-both silver and gold-of at least five to one-it may be ten or twenty to

The New York Mercury says that time will never be so good that the average man can afford to pay twice as much for a gold dollar as folks used to pay when the government and the country did busion a gold and silver basis, and both were prosperous and happy.

Keely, of "motor" fame, is heard from again. He has issued a circular addressed to all who hold stock in his company or other obligations against him. He tells these people that he believes he has progressed so far in the development of his system of sympathetic vibratory physics that he can give intelligent and intelligible consideration of his obligations to them and says it would be impossible for him to deliver his system to the world without positive knowledge of what he owes. So he wishes his creditors to register their claims with a trust company. He but does not state so positively, that he near enough the end of his researche to take action looking to a practical devel-opment of his system. So, again those who have confidence in him and the validity of his pretensions are to be agitate with hopes and doubts. The fact that some of them have been waiting for abou twenty-two years is no proof that nothing will come out of it. The siege of Troy lasted ten years, and some scientific men incline to the idea that the creation of the world occupied more than a millior centuries. But surely the suspense in re-gard to Keely cannot last much longer. He must demonstrate that he has done nething of real value in the field o discovery or even the most faithful of his disciples will set him down to be an un-mitigated humbug. A good many other people arrived at that conclusion a long

CARLISLE'S SPEECHES.

Birmingham State: It may suit the pur-poses of Mr. Cleveland and Mr. Carlisle, and the cuckoos who crow when these magnates sound the time of day, to row declare that silver was demonstized in open daylight and by the consent of the people, but they cannot make honest men believe anything of the kind. After donouncing the crime for twenty years, they are estopped from white washing it. are estopped from white washing it.

Nashville American: The republican infamy of 1873, which Mr. Carlisle characterized in 1878 as "the most gigantic crime
of this or any other age," and which no
republican except John Sherman has ever
felt called upon to defend, is now taken pp by Mr. Cariisle as "a legal recogni-tion of a monetary condition which had existed, in fact, in this country, for about charty-five years, or ever since a short this after the passage of the coinage act of 1834." Can it be possible that Mr. Car-lisle had forgotten or did not know that a gold dollar was nown pure authorized to he dollar was never authorized a gold dollar was never authorized to coined in the United States until 1849, fif teen years after Mr. Carlisle says the monetary condition existed of which the act of 1873 was a legal recognition? It was bad enough for the republicans to have passed such a law, but for demo-crats to undertake its defense twenty years afterwards, when it had been deced in one democratic platform after another and by every democratic speaker including Mr. Carlisle himself, is an ab surdity so great that even Mr. Carlisle must be ashamed of having undertaken it.

IN GEORGIA SANCTUMS.

The Bremen Chronicle speaks hopefully of our peach and melon crops as follows: "It is now thought if we do not have frost in June the peach and melon crops will be good."

The Reeves Station correspondent of The Calhoun Times takes a rather gloomy view

of the present crop situation:
"Wheat in our section is only tolerably good. Oats have all turned to cheat. Cotton is damaged some by the cold spell. Corn is not all planted yet, but what is up is growing nicely—and the grass along with it." The patriotic editor of The Decatur Rec-

ord remarks: "The one thing that would more unite the American people than another would be a war with England, and excepting a few gold worshipers the entire fighting population would volunteer. And they may have this opportunity."

The poet of The Griffin Daily News thus portrays the troubles of the farmer's boy:
IN THE SPRINGTIME.

"Now's the time fer fishin', An' plowin's to be done; An' I am kinder wishin' That when it's time fer fun, That somehow it was sorter fixed To keep the things frum gettin' mixed.

"When the fish sets in to bitin',
An' fishin' worms is thick,
An' I want to go a-kitin'
Down to the shady crick,
I think it's mighty hard, somehow
To poke along behint a plow. "Ther's comfort jist a-settin'

Longside the sleepy stream, Feelin' you're fergettin Life ain't all a dream; That's why plows ain't hardly right Jist when fish begins to bite. "I guess I'd be contented

Some better with my lot Ef that chap that invented Plowin' had have not; Leastways, I'd go fishin' now But fer that dad binged old plow!"

JUSTICE SHIRAS'S CHANGE OF FRONT His Action in the Income Tax Case Without a Precedent.

Special to St. Louis Globe-Democrat. Washington, May 22 .- It is not altogether a new thing for the supreme court to reverse a former decision, but that has occurred when a change had taken place in the bench. The income tax case afforls the first instance of a justice changing his mind on a juestion. The justices who now find themselves in the minority affirm that they believed until Wednesday of last week that they were to be the majority. They feel rather outraged at the action of Justice Shiras, and are talking with unusual freedom. This feeling, to some degree, accounts for the bitterness which Justices Harlan and White injected into their dissenting opiniers. It seems that Mr. Justice Jackson had allowed his associates to know before he came to Washington where he stood, and the hearing was granted with the full understanding that the law would be sustained by a majerity vote. The justices opposed to the law acceded to the rehearing, believing that it would be better to have the latter sustained by a majority than to leave it in force by a tie, And so the rehearing was had in the full expectation that the court would stand 5 to 4 for the law. Not until the chief justice had partly written what he supposed was to be the minority opinio learn that Mr. Justice charged his mind, and that the law was to be wiped out. The discussion in the consultation room was characterized by con-siderable feeling when the real situation was known, and that indignation has not yet subsided.

Carlisle Not with His Party.

From The St. Louis Republic. Loose talk about "favoring the largest of silver consistent with maintaining the gold standard" may be pardoned the ordinary citizen who has not by the responsibilities of his position been required to examine the laws of finance and curhensible that Mr. Cleveland and Mr. Carlisle could seriously advance

opinions. • • • Three policies are before the American One is to preserve the gold standpeople. ard. In that case the paper curency would as well rest directly on the gold reserved in theory as it must in fact. Another is silver monometallism. In that case let the paper notes rest on sliver and let gold be a matter of commodity contracts. The third is to adopt free coinage of both gold and silver at a bimetallic ratio and base the paper currency on both. This third policy is what nearly the whole democracy of the west and south think is the tr tion and obligation of the party. ever dispute there may be about the wisest ratio, under the conditions which now con-front us, there is little dispute about the principle

Secretary Carlisle does not speak for his party in defending the single gold stand-ard. We have no abusive epithets for him party in He is a man of strong intellect and invincible integrity. What we do say is that a single gold standard is not democratic and that a "large use of silver" does no make it democratic.

Silver in Germany.

From The Chicago Record. Germany is more than likely to range it-self with the United States on the side of international bimetallism. In very many respects the positions of the two countries much alike as regards the question of

Germany in 1871 and 1873 enacted laws demenetizing silver, making gold the sole standard of value and calling in all silver coins previously issued and circulated in the states of the German empire. The result was that Germany had to purchas gold for coinage with her discarded silver, and this not only caused gold to advance, and this not only caused gold to advance but it depreciated silver. This did muc to deprive Germany of the great advantage she might have derived from the French indemnity. The fleeding of the European markets with silver bullion, made nelted German coin, had a strong influ ence in forcing the states union in 1878 to close the mints against the metal.

Germany, like the United States, has had difficulty in maintaining her gold reserve. She produces little gold, and her gold exports are very near the limit. In 1898 Gerports are very near the limit. In 1898 Germany imported gold to the value of 149,375,039 marks, and the same year exported gold to the value of 191,575,762 marks, leaving a balance of 47,799,277 marks, or about \$11,000,000.

balance of 47,799,277 marks, or about \$11,-000,000.

Germany has passed through a period of depression as severe as that experience by the United States, and, whatever the cause may have been, the people are clamoring for a restoration of silver. The Prussian parliament has passed a resolution calling for an international conference for the purpose of restoring silver to the coinage and has asked France and the United States to join in the call. The reichstag of the German empire will take up the subject this week and enough of its members are pledged to an issuance of such a call and conference as to insure the adoption of the Frussian resolution. If France, Germany and the United States are in harmony on the subject an international ratio may be selected that will admit silver to its former positions as a money metal, at least among those powerful countries.

TALK OF THE TOWN.

Hon. Walten McLauren, a member of the railroad commission of Mississippi passed through Atlanta yesterday on his return home after a few days' visit to Macon, where he had gone on personal business. "In our state," said Mr. Mc-Lauren, "the silver sentiment is as strong as it ever was, and our people are amused to see the extreme statements being made by some who are claiming that Mississippi approves the financial policy of the administration. Ninety per cent of the democracy of Mississippi are for free silver, and the sentiment is growing every day. There is not the slightest doubt about the action of the state in this respect, and the recent campaign tour of Mr. Carlisle, instead of injuring, is absolutely strengthening the silver sentiment. Our people weil remember the gallant fight Mr. Carlisle made only a few years ago for the restoration of silver as a standard money metal, and his change of sentiment is too sudden to make his influence potent." Mr. McLauren left yesterday afternoon by the Southern railway for his home in Vicksburg.

Something appeared in this column last week concerning unhappy rich men which has been construed to mean that all rich men are unhappy. A dozen or two of the richest men in this country wrote interviews for the papers in which they stated that wealth had certainly failed to bring happiness to them. They talked in a strain truly pathetic and the millions of young men in this country who do get enjoyment out of life must have felt sincere pity for them.

The value of wealth is relative. Fifty million dollars in money may mean \$75,000,000 worth of worry, care, and unhappiness, and not a cent's worth of happiness. A fortune of \$50,000,000 may equal \$10,000 pleasure and \$49,000,000 of anxiety. An income of \$2,000 a year may mean \$1,000,000,000 worth of enjoyment. It depends on the man. The man who has the capacity for enjoying and making the most of the good things of life does not always have the means to satisfy his desires, and the man who has unlimited wealth is frequently without the slightest capacity for enjoying the fruits of his accumulations. He cares nothing for poetry, literature, art, education, advancement of any kind-nothing for anybody save himself and his own immediate family. During a whole lifetime, if he should live to be ninety years old, he would never experience one-half the pleasure that comes to the artist and the creator who looks upon something that has come from his mind.

There are thousands of men who could get great happiness out of large fortunes, Within them is ...e power for enjoying the very best things which wealth affords, and within them is the great prompting which would direct their ample means into the channels where it would do most good to

If men who get up expositions have any great fault it is in pitching their enterprises upon an exaggerated scale. This is conspicuously untrue of our exposition.

The men who are making Atlanta's exposition can't recognize the exposition of their plan and design in the present wonderful show that is being prepared at Piedmont park. They made plans and said they were going to have the biggest exposition that the south had ever seen. And their plans justified the statement. But the matter was taken entirely out of their hands, it would seem, and an exposition vastly more elaborate and extensive than any ever dreamed of by them is going up. The way the original design for the show has been thrown to the wind and the natural growth of the enterprise has taken its place is a marvelous story. There will be five times as many buildings in the grounds as were originally contemplated. Many more states than were expected will be represented. The foreign representation will be much larger than had been hoped for, and the arrangement of the grounds is a dream that far surpasses the imagination of the most poetic of the exposition promoters. The expowhen it is completed, but much of it will be the result of a happy combination of time, place and environment

Mr. Harry M. Atkinson has added another wreath to his crown of success, already so generously studded with social, commercial, electrical and other successes. This time he has achieved distinction in the field of letters. Only Mr. Atkinson's intimate friends have suspected that he possessed the accomplishment of writing magnificent English, subtly colored with the bright glow of the imagination, strengthened by concise and direct thought and formed after the fashion which holds beauty and brevity as the measure of merit, On the subject of electricity Mr. Atkinson

has written a paper which entitles him to distinction as a writer. He happily combines technical and scientific treatment with the touch of the poet and the artist For instance, in the matter of light, Mr. Atkinson spurns the idea of having a prod-Atkinson spuris the local of naving a pota-igal display of electrical brilliance for the mere plebeian purpose of directing people which way to go in the night time. He regards light just as an artist does the colors out of which he is to make a picture, idea is not to make a great glow, but an artistic picture. He says the lights must be placed by the hand of an artist and with a strict regard for artistic effect. He wants to make of the exposition grounds a night piece that will put to shame the imagina tion of the painter and the dreamer. And he tells about it in such a direct and thoughtful way as to at once enlist the support of the reader.
Mr. Atkinson belongs to the domain of art
literature just as much as he does to the

realm of finance and electricity.

A CLEVER INTRODUCTION.

Marshal Cushing Presents Mr. Roosevelt to the Public.

From The Washington Capital.

He has been out of college fifteen years, has Theodore Roosevelt, and he is thirtyseven, but he has been a member of as-sembly three years, has written half a dozen books of value and no end of magazine articles; knows about hunting and ranching in the far west, for he has tried it, and has been a civil service commission-er long enough to frighten Charles Lyman half to death. Don't you rather like him now for the way he works and fights? He is the president of the police commission of New York and probably soon to be a Harvard overseer. He is no slouch at tennis and likes football. Probably he can body who tries to punch a frie or make trouble for any cause that he is friendly to. Notice that he is president of the New York police commission, and bear in mind that where Roosevelt sits there is the head of the table—not that he cares especially to have it that way, but because things seem to be that way from force of

circumstances.

The hope of this nation, which is great and grand, if these British men of war don't come into our waters too often, is said to be the fine young fellows bred upon the farm. It is. It is also the chap of equal mettle in his brawn and brain who refuses to be nurtured in the lap of luxury. Mr. Roosevelt, gentlemen; gentlemen, Mr. Roosevelt. Take you hats off to him. He is fine.

IN THE LOCAL FIELD.

Minor Happenings of the Day in Court, Criminal, Social, Political, and Educational Circles th Atlanta.

-Registrar Stewart kept his office open until a late hour last night, but only a few voters registered. The total number of registered voters will not exceed 2,500. It was expected that at least 4,700 would

-The cases against Sergeant White and Patrolman Morrison, who are charged with false imprisonment by Balliff McDonald, will be called this morning by Justice Orr. The officers requested Balliff McDonald to move his buggy out of the way of a procession. The balliff refused and was arrested. He was taken before Judge Calhoun and dismissed without a trial as he had violated no city ordinance.

—There will be a plane recital given by Mrs. B. K. Boyd and her pupils at Freyer & Bradley's music hall. The re-cital will take place on Tuesday evening, May 28th, at 8 o'clock.

-In the second division of the city court yesterday the case of Mrs. Jennie Bates against the British America Insurance Company was disposed of. Mrs. Bates sued for \$500 on a policy under which her house, which burned, was insured. She obtained a verdict of \$200.

-Mrs. L. Kibbee and Mrs. A. W. Broomhead secured a restraining order yesterday to prevent A. B. Steele, C. J. Walker and L. P. Maddox from using an alleyway. The three gentlemen named are building a hotel and are using the alleyway which runs back of property owned by petitioners. Petitioners allege that it is a private alleyway and that the defendants have no right to use it. The case will be disposed of by Judge Lumpkin that morning. In the meantime work will not

-Captain Crim has been detained at his home for the past ten days by serious and dangerous illness of his wife. There was a slight change for the better yesterday and the captain came down to his office for a short time. It was his first visit to his office in ten days. Mrs. Crim's condition is still such as to require the captain to remain at his home.

-One of the most interesting revivals ever held in the city is the one now in —One of the most interesting the cever held in the city is the one now in progress at the Second Baptist church, being held by Rev. J. L. White. His sermons are gems of literary and scholarly production, and he combines with his production, and he combines production, and he combines with his fluency great earnestness and effectiveness. His heart is wholly in his work and the church and congregation are being greatly revived. He preaches daily at 4 and 8 o'clock p. m. Everybody ought to attend these meetings. They are neld in the main auditorium and seats are free

—Rev. Mr. Gaebelein, the successful superintendent of the Hope of Israel mis-sion, of New York city, who was expected to be in Atlanta and to preach at the Boulevard and First Methodist church tomorrow, has been unavoidably detained. He will reach the city early next week and will preach in several of the churches while here. It is desired and hoped by many that the friends of God's ancient people may be united in connection with his coming for an effectual missionary movement in their behalf.

-Mr. John F. Barclay celebrated his birthday yesterday. He was recipient of many happy reminders of

Mr. J. J. Farnesworth, eastern pas senger agent of the Plant system, with headquarters in New York, arrived in Atlanta yesterday. He is one of the most popular of all the railroad men and his ends predict a great future for him.

—A large crowd of Jonesboro people picnicked at Mr. W. H. Venable's place at Stone Mountain yesterday. They went down in special trains and were entertained by Mr. Venable. -Governor Atkinson, accompanied by

his mother and his private secretary, left Atlanta last night at 9 o'c'ck for New York. Mrs. Atkinson will go to Lawrenceville, Va., her old home, where she will visit relatives. Governor Atkinson will go direct to New York, where he will deliver the Northeastern bonds. He will remain there several days.

-J. Henry Symonds, editor of The American Cabinet Maker and Upholsterer, of New York, is at the Kimpall for a few days. Mr. Symonds is on a tour through the south studying the rapidly increasing furniture manufacturing interests in the interest of his paper and investigating de-sirable locations for the establishment of the interest of a number new factories in the interest of a number of practical furniture men now in the emof the furniture factories in the north

WEALTHY MEN COMING.

The Brickmakers Will Be Here During the Exposition.

The brickmakers of America are coming to Atlanta and will hold their convention here in December. The meeting will last a week, and will begin on the first day of The brickmakers' organization is krown as the National Brickmakers' Association, and has a membership of something over three hundred. These men rep resent more than \$60,000,000 invested in the brick making business.

In deciding to come to Atianta during the exposition the association paid the city a neat compliment, inasmuch as one session

has been held this year.

The association holds only one session a year and has had its regular meeting for 1895. The brick makers wanted to come here, though, and so it was decided to hold the session that really should be held next year the latter part of this. The exposition directors, appreciating the coming of such a representative body of men, has decided to devote the week that they are here to their entertainment, and it will be known as "brickmakers' week.

When the association held its last meet ing, Mr. J. H. Allen, chief of the machin-ery department of the exposition, went to Cleveland, where the brickmakers session, and succeeded in inducing them to decide to come to Atlanta.

The coming of the brickmakers will probably result in the southern brickmakers forming a state association. With this end in view a committee composed of Mr W. A. Hancock, of the South River Brick pany, and Mr. Albert Beck, of the Southern Terra Cotta works, has been appointed to correspond with them. During the stay of the brickmakers they will be shown consid-erable attention, and among other things will be banqueted at the Capital City Club.

WHENCETHIS CLAUSE?

Why Did the Bankers at Memphis Declare Against National Banks?

MR. PAUL ROMARE WAS SURPRISED

Doesn't Think Congress Will Agree with the Convention.

WOULD LIKE TO HEAR THE REASONS

Mr. Romare Taiks of the Actions of the Memphis Meeting, Approves Part, and Disapproves the Rest.

Mr. Paul Romare was very greatly surprised at the declaration of the Memphis 'sound money" convention concerning national banks.

He strongly disapproves of that part of the resolutions and says that he "can't understand them."

Mr. Romare is vice president of the Atlanta National Bank, the only national bank in Atlanta, and is the executive head of that institution. For more than twenty years he has been prominently identifled with the financial interests of the city.

of the Memphis convention in Atlanta and he regarded it as a gathering which would represent the best financial thought of the Believeing this, he signed the call for the local meeting to select delegates to attend the convention. Mr. Romare is greatly opposed to free

Mr. Romare was one of the promoters

silver and is one of the staunchest advocates of Mr. Cleveland's financial school to be found in Atlanta. He has always been an ardent admirer and supporter of Mr. Cleveland's views on finance. But Mr. Romare cannot indorse the de-

claration of the Memphis convention on national banks. He says the best sentiment in the financial world is directly opposed to that declaration. "The Memphis convention," said he,

'may declare against national banks, but I do not believe congress will. It is the best system we ever had and the substitution of state banks would, to my mind, be a dangerous experiment."

The national bank plank in the Memphis platform of the "sound moneyites" was a surprise to a great many others as well as to Mr. Romare. There were different explanations offered for it yesterday. Some said that it was injected so as to popularize the goldbug idea with the masses. Others explained it by saying that it was thrown in by the large element of bankers in the convention who wish to make war upon national banks, because the advantage accruing to the latter by reason of the government holding its securities, operated against their banks.

Mr. Romare was seen at his office in the rear of the Atlanta National Bank yesterday afternoon. He was engaged in reading The Constitution's account of the Memphis convention and seemed in a par-

ticularly good humor. "Mr. Romare," he was asked, "what do you think of the action of the Memphis convention?

"Oh, I think it was all right," said he, with a smile, '"It was a good convention, I think its action all right."

"What do you think of its declaration against national banks?" "How's that?" said Mr. Romare, with

surprise. "I didn't see that. What did they say?" Mr. Romare was pointed to section 6 of the resolutions adopted by the conven-

tion, which reads: "6. We realize that our national banking system was adopted during a time of war and that it is not adapted to existing conditions. (We, therefore, favor such legislation as will secure to the people a system of banking surrounded by such safeguards as will at all times furnish them a safe, elastic, sufficient currency for the tranaction of their business.

He elevated his eyebrows as he read. "I hadn't seen that," said he. "I can't understand it. I don't know what they mean by it exactly. I am surprised at

that. "Let's see, 'We realize that our national banking system was adopted during a time of war'-that's certainly true, nobody can deny that-'and that it is not adapted to existing conditions.' I wish they would tell me why it is not. This country has never had a safer, sounder system. they can suggest a better I would be glad

"The Memphis convention may declare against national banks, but I do not be-

lieve congress will." "It has been suggested, Mr. Romare, that that plank was worked in by the representatives of other banks than national banks because of their business opposition to national banks. What do you think of

"There were certainly very few national bankers there," responded Mr. Romare. 'I don't know of any, in fact. There was not one from Georgia. The state bank idea seems to have been popular.

"You see, if a business man in California or elsewhere, has a bill for collection in Atlanta, he will look over the list of At-He will come to our banka national bank-and he will send it to us The fact that it is a national bank satis-

"And the fact that the other banker doesn't get the business makes him sore on national banks. Isn't that it?"

"Naturally they are not enthusiastic in their support of national banks," said Mr. Romare, with a smile. "They are on the state bank dea. I supposed they would advocate state banks. I think it will be a surprise that they declared against national banks, however."

"Do you think the sentiment of the bankers throughout the country generally, will approve of that section of the resolutions?" Mr. Romare was asked.

"Not very generally. The national bankers certainly will not. Other bankers This country never had a safe system than the national bank system and it never will have. A national bank note is as good in San Francisco as it is in Washington. It is redeemable by the government and no man need have any fear Atlanta, will be worth less in another part of the country than it is at home It is as good as any money. Every week the government redeems some \$2,000 of our

"There's no great profit in the system for us. Personally, so far as my business interests go. I am not particular about the maintainance of the national bank law. I view it simply in this way: The country can get no safer or sounder system.

we have state banks, to operate them with safety and success, the government must regulate them and the system must not be greatly different from the present national banking system. I do not believe in the government going into the banking business. I do not believe in a currency that is not as good in one state as in another; in other words, a state bank note must be worth as much in one state as it is worth in the state in which it is

"They say the country needs more currency; I do not think so; but If we do, the national banks can supply the need. They did it in 1893. If there is any great stringency they can do it again. But the country has money enough. There's volumes of it in New York. And it is not the money of the banks. It belongs to to the people-to the depositors.

'No, I don't understand that declaration on national banks. I would like to hear the argument of the gentlemen who favor the repeal of the national bank law, and would like to know what system they propose to substitute for it."

FLOWERS TO CHICAGO.

A Special Car Will Be Sent from Atlanta Tonight:

Tenight at 8 o'clock a car loaded with fragrant flowers, gathered and wreathed by the fair hands of beautiful southern women, will leave over the Western and Atlantic railroad for Chicago, where they will be placed around the confederate monument that has been built and is to be unveiled at Camp Douglass on May 30th. Every city in the south has geen asked to contribute flowers for the occasion and Atlanta is expected to furnish a car.

Major M. C. Cullom, of the Western and Atlantic, has placed a special car at the disposal of the citizens who will donate the flowers. This car will be at the freight depot of the road all day and there will be a committee there to load it. Every person that can do so is asked to send as many flowers as possible, as Atlanta's car must be the best. Yesterday a carload passed through here from Savanrah. Atlanta will be well represented at the unveiling ceremonies and will send a special committee from the confederate veterans' camp.

This committee will be composed of prominent veterans and will be headed by Colonel Andrew J. West, who will have the Atlanta party in charge. Several parties outside of the delegation of veterans have been made up and will leave on the same train with the old soldiers.

The carload of flowers will leave at 8 o'clock tonight.

WITH NEW LIFE,

The Old University Club Was Reorganized Last Night.

university men met and organized last night. The defunct University Club was pulled up and resuscitated. All officers were elected and enough enthusiasm injected into the new organization to assure its permanent success.

There was a large gathering of alumni and matriculates when Hon. N. J. Hammond, who was president of the old club, organized four years ago, called the men to order. He stated that in accordance with the old constitution the terms of the officers had expired and that it was in order to elect others, but before going into that, he wished to present Chancellor William E. Boggs, who had come from Athens for the purpose of watching the organization take shape.

Dr. Boggs in an earnest and forceful talk brought out the benefits that would accrue to the university and to the alumni if the proper organization was formed in

Atlanta. He said that he had recently been in Savannah, and while there chanced to strike, the day when the University Club gave its quarterly banquet. It was a great surprise and pleasure to him, and to Dr. White, of the University, who was with him, to note the fellowship and enthusiasm that characterized the club life of the alumni there. This organization was a potent factor in keeping fresh the college spirit and was in many ways a material help to the col-

lege.

Dr. Boggs then spoke of the number of Dr. Boggs then spoke of the number of Atlanta. He graduates and college men in Atlanta. He called attention to the great work it could do if properly organized and controlled. There were poor boys all over the state calling for an education. There were no funds available to supply their wants. It would be an object of no small importance if the men in Atlanta would organize with the ultimate purpose of not only furthering their own social enjoyment, but securing a sum sufficient to send to Athens each year one or two boys who were too poor to pay their own expenses. This iaudable plan was first established by the late Joseph E. Brown. Its results were obvious There were no better class of men in th state no men more independent, more loyal to the university than those who had been

helped through college in this way.

Dr. Boggs touched on the meager port offered to the university by the state. It was his opinion that if a strong organization was formed in Atlanta it might have effect on future legislatures and bring about an increase in appropriations. reference of the chancellor to the attitude of the legislature was humorous.

In an eloquent way he called upon the

college men to organize.

Officers Elected. Hon. N. J. Hammond made a short talk.

He called for the election of officers, and a committee was appointed to nominate. Their report, which was accepted, placed in nomination the names of H. H. Cabaniss for president, Albert Howell first vice president, Lewis Thomas second vice president, and Oscar Turner secretary and treasurer.

These officers were placed before the members and elected viva vice. President Cabaniss made a speech of thanks. He referred to his own college days, and declared that he would do all in his power to carry forward the work to his power to carry forward the work to which he had been commissioned by reason of his office.

He thought that the suggestion concerning the helping of poor boys was laudable, and, as far as he was concerned, it was his intention to push every effort to carry out this purpose.

Mr. Cabaniss said that he would appoint

the executive committee in a day or two. Judge Lumpkin Talks.

Just before the close of the meeting, Judge J. H. Lumpkin was called on. In a few words he referred to the days he had spent at the old university; told how he had been awaked by the clangor of the college bell, and pledged his interest

to the movements for a new organization.

When he had finished, Mr. Eugence Black proposed a banquet. It met with hearty approval, and by vote it was agreed to have as soon as possible a banquet and

All of the names of those present were placed on the roll. It was decided that the president and members of the executive board collect as many names of alumni and matriculates as possible. These will be given to the secretary to be enrolled. Dr. Boggs will leave this morning for

Reunion of Veterans. Charleston, S. C., May 24.—The Young Men's Business League of this city determined today to have a grand reunion of all the confederate veterans to be held in this city in the spring of 1896.

ZIMMER IS DEAD.

His Attempt at Suicide Last Tuesday Proves Fatal.

HE DIED LAST NIGHT AT 9 O'CLOCK

His Sweetheart and Entire Family at His Bedside-The Cause of the Shoot-ing Veiled in Mystery.

John E. Zimmer, desperately wounded from a pistol ball fired from his own hand Tuesday afternoon, died last night. His death occurred at 9 o'clock.

Around his bedside were his entire family and a young lady whom he loved. the room were the five physicians who have so faithfully endeavored to save

his life and have worked constantly and untiringly on the case.

The end came peacefully and his life ebbed away without a struggle. He gradually grew weaker and weaker until his heart

Early yesterday morning the physicians and watchers at the young man's bedside noticed a change for the worse in his condition. Stimulants were administered and every known remedy applied, but the sufferer became weaker and weaker and the pallor of death settled over his handsome features.

In spite of the alarming symptoms, the doctors worked energetically and did their utmost to rally him, but to no avail. The wound was a ghastly one and the lung was entirely penetrated by the ball. The source of their greatest anxiety was from hemorrhage and last night their fears were re alized. Late in the afternoon they announced that nothing more could be done as he was past all hopes of recovery.

His Family Notified. When the decided change in the young man's condition came yesterday and it was seen that he could not live, telegrams were sent to his relatives out of the city and they were all notified.

In answer to the messages, Mr. and Mrs. W. V. Zimmer, of Chattanooga, Mr. G. C. Zimmer, of Paducah, Ky., and Mrs. Dr. Howell B. Guinn, of Chicago, arrived last night and were taken at once to the room where the young man was dying. When death came to his relief he was

surrounded by all his near relatives and kneeling at his side, holding his icy hand, was his sweetheart. When the shooting occurred the first word spoken by Zimmer was the name of his sweetheart and she was immediately noti-

fied of the tragedy. She at once responded and has never for a moment left him. Through all of his agony and delirium, she has proven her love and constancy and her own hands bathed his fevered brow and burning lips. Her presence soothed his suffering and she quieted his wild delirium with her gentle touch. Last night as death drew nigh and his

breathing became labored and difficult, her devotion was touching in the extreme. In tender words, so full of meaning, she pleaded with him to speak to her, to give her look of recognition, but deat had fixed itself upon the young man and the heart that once beat in unison with hers was forever stilled.

His family is prostrated with grief and the suddenness with which their sorrow came only intensifies their suffering. Since the shooting occurred Mr. Zimmer has been lying between life and death and at no time could the doctors say what the result would be. Every possible attention was given him and the constant care of five physicians and the tender nursing of his family proved futile. The ball went directly through his right lung, ranged around just back of his heart and lodged under his shoulder blade. There was no attempt made to probe the wound as the operation could not be performed while Zimmer was so

Story of the Shooting. At two o'clock Tuesday afternoon, in his room at the corner of Mangum and Jones avenue, young Zimmer fired a pistol, aimed his heart, with suicidal intent. In his room at the time was his friend and roommate, Mr. Pharr. Without one word of warning or a last farewell, Zimmer fred the fatal shot and fell backward across his bed. No reason was given for the rash deed and Z mmer has never regained consclousness, so the cause that action may possibly forever remain unfathomed. It is true that the young man wrote a note. The note was addressed to his mother and contains nothing beyond the fact that he was in great trouble. What closed. All is a mystery and no light has as yet been thrown on the subject. He was engaged to the beautiful young girl and to him she was deeply devoted. There had been no misunderstanding and not even any parental objection to the youthful match. Zimmer was in the best of spirits apparently on the day of the tragedy, and spent the forenoon at home, where he was the life of the house. He was a member of the Third Baptist church, having joined by experience last Sunday, and was to have been baptized tomorrow. Instead of his baptism will be his funeral. His hon is shrouded with grief and the family prostrated.

The funeral will occur tomorrow from the house, No. 52 Formwalt street, and the interment will be at Westview.

From Judge Hammond.

Editor Constitution—In your report of the proceedings of the board of education yes-terday, you say that I, as chairman of the committee on text books and course of study, reported in favor of manual labor in the schools. That is a mistake. The report was in favor of introducing a system of manual training into the schools. One appears ridiculous, and the other is, in a high degree, the reverse of that. Manua training is an important branch of an elementary education, and is so recognized in all our large educational centers. It is a system which teaches the use of the hand and eye of the child in the doing of useful things. I wish I had time to say more about it to the public, but I write simply to correct an error, and in great haste. Yours truly, W. R. HAMMOND.

Giolitti Writes a Letter. Paris, May 24.—Signor Giolitti, expremier and ex-minister of the interior of Italy, as written a letter to The Figaro, in which asserts that Premier Crispi's indebtedness to the state bank in Rome is 1,250,000

- IT FLOATS -

FORTY MILLION CAKES YEARLY.

MISTAKE

Mr. Jeff McClesky Took a Heavy Dose of Laudanum To Soothe His Nerves.

THE DOSE WAS TOO MUCH FOR HIM

He Was Found Dying in His Room Yesterday Afternoon at 2:30 - His Death Last Night.

Night Yardmaster Jeff McClesky, of the Seaboard Air-Line railroad, was found in a dying condition in room 44 at the Metropolitani hotel yesterday afternoon shortly after 2 o'clock, and last night at 9:30 o'clock he died.

Yesterday afternoon he walked into the office of the hotel, which is just opposite the union depot, and spoke to several gentlemen that were seated around the fire in the smoking room. He did not stop in the office, but walked into the hallway near the dining room and was not seen again until he was found in the room almost dead.

Room 44 has for several months been used exclusively by the employes of the Seaboard Air-Line, and no other guests

of the house are ever put in it. Mr. McClesky knew this, and though he did not board in the hotel, was intimately acquainted with nearly every railroad man that made the place his headquarters. When he walked through the office he must have gone directly to the room, for in less than an hour he was discovered in such a condition that it was beyond all human skill to save him. For several days he had been drinking and yesterday stopped the use of all stimulants, which left him in a very nervous state. Just before he went into the hotel he

Straw Hats

None better-None cheaper than ours

A. O. M. GAY & SON HATTERS AND HABERDASHERS, 18 Whitehall Street.

stopped in a barber shop on the lower floor and talked with one of the barbers. I'uring the conversation he said he was very nervous and had been unable to sleep. He asked one of the men in the shop how much laudanum it would take to quiet his nerves and produce sleep. After asking this question he went up the stairs leading to the hotel office.

Just before 2 o'clock an attache of the hotel passed the room into which McCles-

ky had gone and was called by a man who had noticed his unnatural breathing. It was seen at a glance that ne was in a dying condition and Dr. Harry Huzzy was

telephoned for.
As soon as he saw him Dr. Huzza sent for Dr. Willett and the two physicians began a battle against death. Near the dying man's bed was an eight-ounce bottle, nearly empty, that had contained

laudanum. This and his condition told the story and the physicians knew that every chance

for his recovery was against him. For nearly seven hours they worked to save his life, but the drug had taken hold of his weakened system and his death was only a question of a few hours. The people around the hotel and the railroad men who knew him intimately do not think that he had any idea of self-destruction and think his death was caused by an over-dose of the drug taken unintentionally. Huzza is certain that Mr. McClesky

took the drug by mistake. Mr. McClesky was exceedingly popular among railroad men and was one of the most jovial and best natured of men. This and the fact that he was prosperous and apparently as happy as any of his associates causes his friends to think that

in his highly nervous condition le took more than he intended. Mr. McClesky resided at 144 Crew street and leaves a wife and four little children. His remains were taken from the hotel to Patterson's undertaking rooms and this morning Coroner Paden will hold an in-quest. The dead man was prominant in railroad circles and was a brother of Mr. L. L. McClesky, the freight agent of the Southern railroad.

STILSON -COLLINS JEWELRY CO., 55 Whitehall St.,

Make a specialty of reliable and

standard goods.

JEWELERS. The Largest Stock of Fine DIAMONDS In the South, And the Lowest Prices. 31 Whitehall Street.

The Irresistible Logic

Of high values and low prices appeals to all purchasers. To make the high values higher and the low prices lower is a problem ever being worked out in our establishment. Never were values higher or prices lower than at present, and as our vast collection of seasonable goods is being sold under an almost perfect system of distribution, it may be said that the "ne plus ultra" of storekeeping has been almost reached.......

The Best Proof

Of the appreciation of our \$10 Serge, Cheviot and Cassimere Suits is found in the fact that every Suit sold makes an increased demand.

How Can You Tell?

We all say the same things in the newspapers. "We are the biggest and sell the cheapest." It certainly must be confusing to the average reader. Investigate! "Shop around." If you do that intelligently you will buy your clothes and the boy's clothes of us. You will find better fitting and better made clothes here. You will find lower prices here. You can take any purchase made here into any other clothing store and compare goods and prices; if you can do any better we will give your "money back." We are in the midst of a great Suit Sale.

Custom Tailoring.

"Made-to-measure" sounds better; "Made-to-fit" -- if you get the tailoring we give.....

. \$35, \$40, \$45, \$50,

For the best in cloth and trimming. Truest tailoring in town. That's our say-so in the paper and our do-so in the store.....

TO WARMER CLIMES

An Excursion of Conductors Gets Off to

the Land of Flowers. CONDUCTORS PASSING

Unusual Scene at the Depot When the Time for Departure Came.

A BRASS BAND FOR THE TEXANS

All of the Men Were Regretful at Departure and Expressed Themselves Em phatically-The Last Day.

A special train of eleven coaches, with jovial Joe Sylvester, of Cleveland, perched on the rear platform throwing kisses towards Atlanta, pulled out from the union depot last night at 8 o'clock on the Georgia

It was the passing of the conductors. All of them have gone and the corridors of the hotels where they have been wear a desolate and deserted look.

The excursion which left last night will make its way through the southern part of the state, then it will strike Florida and for three days the departing delegates will bask in a warmer clime. St. Augustine, Palatka, Jacksonville and Key West are all in their path and when they come back Savannah and Charleston will be

touched for a few hours. After a five days' trip the conductors will pass through Atlanta again, but they will be here only a few minutes, after which they will scatter to their homes all over the United States and the twenty-fifth session of the Order of Railway Conductors will have been a thing of the past. All of the delegates who did not remain to go on the trip to Florida got off yesterday morning and the night before. They left, all of them, with expressions of deep re-

Here is what Stafford, from San Francisco, says. Stafford is an old newspaper man and was wont long years ago to write boom articles on New Zealand. It has been his custom also in the years of the past to chase kangaroos over the plains of Australia.

He Was Dreary.

Stafford pulled at the ends of his little black mustache and heaved a heavy sigh. He is an orator, too, by the way, and when he threw his head back last night just before the train pulled out and began to heave sighs the boys knew that some-

thing was coming. "Atlanta," he said, "Beautiful Queen City of the South, ta ta; yea, I might even say au revoir, but not goodby. Thou hast sheltered us for thrice three days and now that the time has come when we must hie us hitherward, sighs, I might even say tears, of fond-regret trickle slowly down our cheeks."

Here Stafford stopped and soaked up the water in the corner of his eyes with his Order of Railway Conductors badge.

"Goodby, Atlanta, thou holdest our hearts and souls. We are thine for this time forth, hence for evermore. And when in the course of human events thou seest fit to beckon us back again we will come as fast as the swift-winged specials can carry us; I might even say as fast as 'the quick-cross lightning, as my friend Shakespeare expresses it."

Here Stafford chocked with emotion and went inside the car to hide his feelings.

"That man speaks in proverbs," spoke up one of the conductors who had been standing by. "I am not as eloquent as he is, but I am sure that nowhere has the order of conductors been more royally entertained or received better treatment than right here in Atlanta."

There was a unanimous expression of concurrence from the crowd.

How Some Texas Boys Got Off. From away off in the Lone Star State there came a delegation. All of the states were represented well, but Texas-well, she had a lot of happy-hearted fellows here

and they captured the crowd. Now, when it came to pass yesterday afternoon that the time had come for the leaving of the Texas men great was the sorrowing.

And this sorrow was keenly expressed. In keeping with their feelings some of boys clandestinely captured the street band, made up of sad-faced, tow-headed German children.

The band was carried to the Kimball. There had gathered a good crowd of not only the boys from Texas, but some from Nevada, from Colorado, from Quebec and far away Manitoba, all were gathered there with their grips in hand and tear-stained countenances.

Suddenly the band struck up on one of Sousa's marches. It was too lively for the

"Oh, shut it off. That's too gay. Try something sober, boys," yelled W. R. Bell, who came from Fort Worth, Tex. Then the band tried again.

"Nearer My God to Thee," was the tune but somehow it didn't suit and the crowd compromised on "Dixie."

So they headed for the carshed, with Dain, from Denison, Tex., in the lead. Some one opened up on a song and they

"I'm goin' back to Dixie, I'm goin' back to Dixie,

marched along to the tune.

I'm goin' where the forange

grow,
For I hear the old folks callin', I see their sad tears fallin',

I'm goin' back to Dixie, and I must go."

This seemed to express the sentiment of the crowd, so they marched on. Scenes at the Depot. There were many unusual scenes at the

depot yesterday.
It is not an every day sight when strong men actually shed tears at departure. It happened yesterday. Naturally many firm friendships had been made during the con-

When the time came for these men to be separated, some to go to one side of the continent, some to the most distant northern point, others to the plains of Mexic it was natural that they should feel the separation keenly.
So they clasped hands and wished each

other well. One enthusiast threw his arms about the neck of a fellow delegate, and to all appearances wept copiously. Somebody yelled "Baby!" and he broke

Daniel Will Remain.

Mr. William P. Daniel, the retiring grand secretary, will remain in Atlanta for several days, finishing up the accounts and re-ports of the convention which has just

headquarters for the conductors during their stay. Mr. Daniel says that he is much impress ed with the city, and will return during

His office in the Kimball has been the

the exposition Resolutions Passed.

Resolutions Passed.

The following are the resolutions passed at the last session of the convention;

"Resolved, That the thanks of this grand division be, and are hereby extended to the managers of the Southern Railway, Queen and Crescent, Atlanta and West Point, Atlanta and Florida, Georgia railroad, Central of Georgia, Nashville, Chattanooga and St. Louis, Louisville and Nashville and Cincinnati, Hamilton and Dayton railways for special trains furnished us on our journey to this city.

"To the Pullman and Wagner palace car companies; The Atlanta Journal, The Atlanta Constitution, the Southern Express Company, and its connecting lines; to the hotels and Western Union Telegraph Company, and Atlanta Transfer Company for favors received.

"To the firm of Venable Brothers, of this city, who, for their respect for our order, have granted the free use of this hall for this session of the grand division.

"Resolved, That our special thanks are due Brothers John Humphries, M. J. Land and the committee of Atlanta division 180 and the ladies on Golden Rod division 43. Ladies' Auxiliary, for their untiring and ceaseless efforts in providing so liberally for our entertainment and comfort.

"To the governor, who bade us welcome and tendered us the freedom of old Georgia.
"And to the mayor, who gave us the libertles of the city and the keys to which we now return."

Some Short Lines. The following are the resolutions passed

Some Short Lines.

There has been a pleasant fellow and brilliant writer concealed in the office of Secretary Daniel during the convention, Mr. J. A. Miller is the managing editor of The Railway Conductor, the official organ of the order. He lives in Cedar Rapids, Ia., and attends all of the sessions. Last night a judy delegate in the shape of

E. A. Vahey, of the Wabash Line, Illinois, left on the excursion to Florida. He is popular among the men.

M. D. Felkner, from Covington, Ky., left yesterday morning to resume his through the blue grass region. Mr. Orange Sackett, connected with the

office of grand secretary, is a man who has greatly popularized himself during the convention by his courtesy to all who have been thrown with him. He leaves behind ome warm friends in Atlanta.

W. H. Shafer came from Sunbury, Penn.

Last night he left for home, while the boys gathered around and bade him good luck.
Mr. W. J. May is a delegate in whom all the conductors have great confidence. He comes from Cleveland, where his kindly na ture has won for him the good will of all.

Mr. R. E. Crowley left Atlanta last evening with great regret. He says that he will

ing with great regret. He says that he will come back before many months.

Mortimer D. Hughey, of Bellevue, O., is a man of immense popularity, and has made many friends during the session. He left yesterday to tell his division of the royal time he had in Atlanta.

Mr. J. R. Condit was one of the most influential factors during the session just closed. He is a coming man in the order and will, at some time, occupy the highest position,

MR. LOVEJOY GOES TO NEW YORK. He Will Appear Upon the Metropoli-

tan Stage Next Week. Mr. Edward Lovejoy, well known in conlocal amateur theatricals, left last night for New York, where, next week, he will make his first appearance on the metropolitan stage. Mr. Lovejoy will

appear in his favorite specialties and his friends predict for him a glittering success.

Mr. Lovejoy has appeared a number of times in Atlanta and with considerable Mr. Lovejoy has appeared a number of times in Atlanta and with considerable success. He was announced to appear as Queen Isabella with a professional company several months ago, but abandoned the plan. He is highly successful in feminine roles and will appear in costume in New York. Before leaving Atlanta he had a very extensive stage wardrobe prepared and when he reaches New York he will be supplied with all the costumes for his appearance.

Mr. Lovejoy will doubtless enter upon a stage career in the metropolis. He has considerable talent and has received numerous ovations on his appearance in local productions. It is understood that he has an engagement with a prominent New York company.

From The New York Sun.

To the Editor of The Sun-Sir: The following points suggest themselves in regard to the Admiral Meade affair: By what right does Mr. Clevelayd, in his official capacity, take it upon himself to reprimand that officer without the authorization of a court martial?

that officer without the authorization of a court martial?

The school in which the admiral received his education, and of which the president and the secretary of the navy seem to be so profeurally ignerant, does not permit the punishment of an officer until he is sentenced, which sentence the president may approve or disapprove; that is his function, and without that authority he has no more right to reprinand Admiral Meade than he has to dismiss him from the service. Consequently his comments attached to the indursement of that officer's application for retirement cannot constitute an official reprimand, but a personal and cowardly slur.

AVERELL, HARRIS. The school in

Than Let Detective Wooten Accom-pany Him-Many Other Charges.

and his confinement in the station house that would betray his past. On all ocasked him. Many ruses were resorted to

was agreed upon and he signed an agree it was determined that to allow him to go the sheriff, knowing the man as he

Allen was informed that he would be handcuffed and he flatly refused to go in this manner. Knowing his great contempt for a detective, the sheriff made a proposition to him that he must either go handsuffed or allow Detective Wooten to ac company them. He decided to go with the

than have the detective in the party. United States Deputy Marshal Hughes, 400 miles, tells a most interesting story of the details of the long race and exciting capture. He has known Allen, so he claims, quite a long time and places a great many daring robberies to his credit. He says Allen has devoted many years of his life to the business and says he is quite an adept. Many horses have disappeared from the stables of the country people in Marion county and the tracks of the thief were well covered up, making it almost impossible to follow him. Allen

to have also taken a fine saddle from the stable. This saddle was carried with him on the horse he rode. While riding a buckle became unloosed and fell into the road unnoticed by Allen. The sheriff and deputie marginal phile trying to discourse. road unnoticed by Allen. The sheriff and deputy marshal, while trying to discover the direction in which he had gone, accidently discovered the buckle, and picking up the clew, rode fast and furiously after him. Though close upon Allen at times, they never overtook him until this city was reached. Both men rode day and night and deserve the greatest credit in running Allen to earth.

running Allen to earth.

Hughes, the marshal, left the city last

SUGAR BISCUIT.—One and a half pints flour, pinch sait, I coffee cupful sugar, 2 teaspoonfuls Royal Baking Powder, I tablespoonful Royal Baking Powder, I tablespoonful Royal Extract Nutmeg. Sift together flour, sait, sugar and powder; sugar saucer, pick with fork, lay on greased baking tin, bake in rather hot oven 15 minutes.

ABERNETHY BISCUIT.—3 pints flour, 2 tablespoonfuls sugar, 1 teaspoonful sait, 1½ teaspoonfuls Royal Baking Powder, 4 tablespoonfuls Royal Baking Powder, 1 tablespoonfuls Royal Baking Powder, 1 tablespoonfuls and powder; rub in cold lard, add seeds, beaten eggs and milk; mix into smooth, firm dough. Flour the board, turn out the dough, give it a few quick, vigorous flour proposition of the cold lard, and the sugar proposition of the cold lard, and the sugar proposition of the cold lard, and the

Allen, the Alleged Horsethief, Carried Back by the Sheriff Yesterday.

SATISFIED THAT HE IS GUILTY

He Preferred To Go Handouffed Rather

Allem, the alleged horse thief and robber, possessing, it is claimed, a long list of aliases and a life replete with evil deeds, was carried back to Tennessee yesterday. Securely handcuffed and under the watchful eye of the sheriff of Marion county he occupied a seat in the smoking car of the Western and Atlantic train that left at 8 o'clock yesterday morning. If he should escape while the trip is being made it will not be because sheriff failed to watch him closely, for that he is a desperate man and will refuse no chance to escape all the officers who

When confronted with the most damag ing evidence and accused and positively identified by horse dealers not a muscle twitched nor did he betray his feelings by the slightest expression. At all times he remained perfectly cool and not for one moment was there a single symptom of his breaking down. He possesses wonderful nerve and self-control and did not flinch under the terrible fire of cross-questions

that was directed at him by the detectives After his arrest was accomplished he decided that he would go back with the sheriff without requisition papers, provided he would not be handcuffed. This ment to that effect. Later on, however, unmanacled would be too dangerous and claimed, decided that he could not risk

ANSY PILLS

EXECUTIVE BOARD.

Many Important Matters Considered at the Meeting Yesterday.

GENERAL MILES WILL COME TO ATLANTA

An Interesting Letter from the Chief of the Indian Territory Commission-Other Exposition News.

The executive board of the exposition took up a great many routine matters yesterday afternoon. There was a good attendance of the committee. Vice President Hemphill presided.

A letter was read from the daughter of Mr. H. I. Kimball thanking the board for the kind and sympathetic resolutions adopted on the death of Mr. Kimball.

A similar letter was read from Mr. James W. Scott, of Chicago, thanking the board for the resolutions adopted on the death of her husband.

A communication from General Nelson A. Miles to President Collier was read. The general acknowledged the invitation to attend the opening exercises of the exposition and accepted for himself and staff in the event that he could find it possible to

A highly interesting letter was read from Robert W. Hill, chief of the exposition commission from the Indian Territory. This commission was recently appointed by District Judge Springer, temporarily acting as governor. Mr. Hill stated that his associates on the board were Pleasant Porter, a well educated and highly intelligent Creek Indian, and Joseph Thompson, a cultured Cherokee. He said they were men of affairs and sound judgment and were enthusiastic over the exposition. He said the territory had no funds to make an exhibit, but that there were a great many firms anxious to make exhibits and would do so, provided space could be obtained. He stated, however, that he thought the

most important work that the commission could do in connection with the exposition was to find how trade between Atlanta and the Indian Territory might best be promoted. He said Atlanta shipped a great many supplies into the territory. He ex-pressed himself as being very anxious thelp the exposition in every possible way.

The matter of statuary on the exposition grounds was taken up. A report from the committee on buildings and grounds urged the necessity for such ornamentation, and asked that the finance committee take up the question at once and give direction to it. The report was adopted.

The concessions committee reported

number of concessions. One of these was to the Pittsburg Redemption Company, and

was for making and selling all sorts of aluminium novelties. Another and a highly interesting concession was that let to Mrs. Hugh Hagan, chairman of the ways and means commit-tee of the woman's department. The pro-ceeds of the concession will be devoted to the woman's department, by which it will be operated. It is for the operation of a creole kitchen on the grounds. It will be the most unique restaurant on the entire

Mr. J. H. Allen, chief of the machinery department, at the request of Mr. S. M. Inman, made a statement concerning the progress of the work in his department, He said he apprehended no trouble what-ever in getting ready in time. He said the engines had already been arranged for and that the boilers would be shipped soon. He stated that the exhibits would all be in-

stated that the exhibits would all be installed in time.

Mr. Atkinson made a statement for the electrical department. He sald the electricity building would be filled in time with exhibits of the very best character. While all the space had not been taken it was fast being called for and there was more than ample time for the installation of all the exhibits.

PROTECTION NEEDED.

A Hose Company Will Be Sent to Piedmont Park.

The exposition buildings have reached that stage in their erection where a fire would endanger several buildings if it secured any headway in one.

In order to forestall any such mishap, and to have a fire department on the scene to stop any blaze in its incipiency, a hose company will be sent out to the grounds next week with probably Foreman Emmel, of No. 1 hook and ladder, in charge.

There will be seven men in the hose company and there will be 3,000 feet of hose sent along with the wagen. The hose company will be composed of men selected from the several companies in the city and will be a star company, the places of the men being filled by substitutes.

The hose company would have been sent out a week ago if the water connections had been completed. This important feature is still uncompleted, but work is being pushed rapidly. The rain during the past few days has delayed the work, but it is very likely that by next week everything will be ready in case of a fire.

The shed at the driving park is to be converted into a place for the nose wagon and horses. The men will be quartered in the west end of the fine arts building This end is ver nearly completed and the men will bunk where in a few months are to be displayed the products of art and

This hose company will be the nucleus of the exposition fire department. It is gener ally understood that Foreman Emmel will be made chief of the expositon fire com-pany. He is a man who is thoroughly capable in every way and is a man of experience and of fearless action. A better

selection could not passibly be made by Chief Joyner. Mr. Emmel will have under him three hose wagons, one hook and ladder and one chemical. It will require thirty-two men to man these five companies which will be stationed in the fire headquarters with the exception of one hose wagon. Twenty-two trained men will be selected to go to the grounds and ten "subs" will be sent out. It will be a complete fire department, fully equipped and with a big bell and plenty of alarm boxes.

This is not all of the precaution that has been taken by Chief Joyner in regard to the care of the exposition buildings. He is not a man who overlooks any detail, and it was he who secured the fire alarm boxes and police signal boxes from the Gamewell company. He has arranged to have six sixty-gallon chemicals stationed in the center of the six largest buildings, and to have 200 three-gallon chemical fire ex-tinguishers distributed throughout the various buildings. The sixty-gallon chemical extinguishers are on two wheels and can easily be handled by two men. They are effective and frequently save water

The hose wagon that is not to be stationed with the others, will be placed in one end of the transportation building.

WANT A NEW NAME.

The Midway at the Exposition Will

For twenty minutes yesterday afternoon the glorious boulevard upon which the exposition visitors will spend their money and see queer sights reveled in a beautiful

Then an earnest man arcse and with the strength of a great purpose gleaming in his eye, addressed the chairman of the executive board, who just a few moments before had declared the Midway named.

The earnest man was Mr. Harry M. At He glanced at Mr. Alex W. Smith, who had thought up the successful name, then fixed his eyes upon a beautiful red and white lithograph that covered one side of

the wall and began. The lithograph illustrated a scene in Sardou's great play, "Mme. Sans-Gene." The scene was that in which Napoleon ordered that De Neippberg should die. Mr. Atkinson fastened his gaze upon the determined countenance of Napoleon.

He thought of the name that had been agreed upon-"Pleasure Heights" -- and strengthened up with firmer resolve. "Mr. Chairman," said he, "I don't like

that name.' Mr. Alex Smith, who did like the name and thought it the best one in the English language, transferred his gaze to Na-

"There's nothing in that name," continued Mr. Atkinson. "It ain't a seccess. The people won't talk about !t. It's the worst you could have decided on.

"I've been out of town two weeks and I don't like to say anything against a beau-tiful and poetic name which seems to please so many gentlemen. But I dislike it so strongly that I have made up my mind to protest against it. I don't think it suits. It's not the sort of name." Mr. Smith said the subject had been ex-

hausted. Something like 20,000 names had

been suggested. The committee had decided upon this one.

Mr. Grant Wilkins said he thought it was rather late to commence naming anything around the exposition. Everything of importance had been named. This amusement street had been called "the Terraces."
That name had been printed on the bird'seye views. The world at large looked upon the place as the Terraces, why not let it remain so. The Terraces was not popular, and the discussion was resumed on the other name.

Mr. Cabaniss said he didn't like Pleas-ure Heights, either. He agreed with Mr. "You want to destroy our name," said

Mr. "I haven't had time; I've just returned,"

said Mr. Atkinson.
"Give him time," said Mr. Forrest Adair.
"It takes time," said Mr. Smith.
"I move the whole matter be referred to

Mr. Atkinson with power to act," said Mr. "Give us a better name if you don't like

ours," said a member of the committee which named the pleasure street.
"I can do it—a better one than that. I don't recall any name, but I move the mat-

There was a vote on the motion, the result being in doubt. "I make the point of order that Mr. Atkinson, not having voted for the report, cannot move a reconsideration."
The point was overruled: "Then I call for division," said Mr. Smith.

There was a division and Mr. Atkinson's motion was carried. So the name was swept from the minutes.

On motion of Mr. Allen a committee consisting of Messrs. Allen, Atkinson, Amorous, Cabaniss and Peters were appointed to take up the name business. ointed to take up the name business.
"I am sick of it," said Mr. Smith. "I have been deviled to death over it. My mail has been larger than it has ever been. I have received a thousand anonymous letters about it. Hundreds of people have bothered me with suggestions. My telephone has been ringing constantly. Twice since I have been in this room I have been called out by people who had suggestions to make. The whole subject has been exhausted."

Killed in a Sawmill.

Knoxville, Tenn., May 24.-(Special.)-James Wade, of Knoxville, twenty-five years old, who was running a sawmill at Offutt's Station, twenty-five miles out on the Knoxville and Ohio railroad, was killed this afternoon about 4 o'clock. He fell on the belting and was thrown into the pulley, breaking his neck and causing death instantly. He leaves a wife and a six weeks' old child.

The Lot Belonging to the Masons Is No

READY FOR THE TEMPLE'S ERECTION

The erection of a grand Masonie temple in Atlanta is no longer a delusive dream, but a fact that will soon partake of the substantial qualities of brick and mortar. It is the purpose of the Masons to erect such a building in Atlanta as will not only be in keeping with the city's growth but one that will fitly embody the principles of their ancient brotherhood.

The grand rally of Masons last night in Masonic hall was perhaps the most en thusiastic meeting of its kind ever held in this city. Every lodge was represented not only by its officers, but by a delegation of loyal members. There was not a single Mason present who was not in favor of the new temple and who was not ready to make a cash subscription to the full limit of his ability.

Captain J. W. English was called to th chair and Mr. W. F. Parkhurst was chosen as the secretary of the meeting. The committee on proxies reported over 2,000 shares of stock represented.

As the meeting was the regular annual session of the Atlanta Masonic T-n.ple Company it was necessary that the stockholders should either attend in person of be represented by their proxies.

The reports of the various officers of the company were read and approved and the small indebtedness of \$2,500 on the lot belonging to the company was raised in a

From the moment Captain English called the meeting to order until the final motion to adjourn the session was one of live en thusiasm. Every Mason present seemed to be characterized by a peculiar earnestness and to fairly glow with Masonic ardor.

number of the brethren, among them Hon. Hoke Smith, Captain J. W. English, Colonel W. A. Hemphill, Mr. Julius L. Brown, Mr. A. G. Rhodes and Mr. An-The building of the new Masonic temple was the principal topic urder consideration and the need of such a temple the means of raising the money and the

best plan of procedure were all discussed. As soon as the indebtedness on the lot was raised a subscription was started for the erection of the temple and the call proceeded amidst the wildest nanifestation of enthusiasm ever witnessed in a Masonic meeting.

The old members will yet see the temple erected, after long and anxious years of waiting.

An election of directors was held and the following members were selected: J. W. English, W. A. Hemphill, A. J. Shropshire, L. D. Carpenter, C. F. Malone and D. O. Dougherty. In addition to these six members, elected by the stockholders, will represent the various lodges, thus making the membership of the board thirteen and giving to the lodges a majority of the directors.

It was after 11 o'clock when the meeting adjourned and every Mason left the hall pledged to do all in his power to promote success of the movement and irsure the speedy erection of the building.

MOONSHINING ON CANVASS.

An Atlanta Artist Is Anxious To Sketch a Blockade Distillery. How would the picture of a little north Georgia distillery in full blast under the overarching sides of the mountain, look in one of the celebrated art galleries of the world?

This is not a mere vague speculative question, but one that carries with it a suggestion of likelihood.

A few days ago a singular request came

to Colonel W. H. Chapman, the

revenue agent, from a well known artist of this city. "I want you to give me a clear idea of the moonshine business," said the artist.
"My ambition is to sketch the moonshiner in such a way as to give him an intro-duction into the world of art. The moun-tains of north Georgia are full of his adventures and traditions, and you find him at work in his shirt sleeves on both sides of the Blue Ridge. I confess that I have quite an admiration for his rugged char-acter and I have the faith to believe that a few touches of art would make him a

popular figure in the world's great art galleries.' Colonel Chapman was not a uttle suprised by the nature of this request. dealings with the moonshiner had never been regulated by fraternal feelings, but purely those of a stern official character. This, of course, tended to divest the moon shiner of anything like romance to Colonel Chapman, whose business it was to look upon him as a violator of the law who had incurred the just condemnation that was meted out to his illicit occupation.

The revenue agent informed the artist that a mere description of the moonshiner would scarcely accomplish the purpose which he had in mind, and it would never do for him to paint a moonshine sketch that was based upon such meagre He suggested to the artist that it would be a good idea for him to go

on a raid with one of the deputies, giving the name of Mr. Hetherington, who was a man full of sentiment and poetry, and who would be glad to introduce him to the rough and outdoor life of the moonshiner. The artist was roughed to be considered to The artist was inclined to be suspicious of The artist was inclined to be suspicious the danger that would likely be incurred by such a venture and was disposed to hesitate before giving his consent. He finally decided, however, in the interest of the consent to make the trip, he the consent. his art, to make the trip, be the consequences what they might. He thanked the revenue officer for his suggestion and left the office with his mind fully made

up.

Mr. Hetherington and the artist will have the same of the sam start for the mountains in a few days and the moonshiner will yet wake up to find himself immortal.

It Sobered Him.

From The San Francisco Call. "I knew a gentleman once," said Mrs. Owens, the temperance lecturer, "who would insist on getting intoxicated every time he went to town. Well, on the day before Easter this gentleman decided to pay a visit to the neighboling village, and as he was leaving home his wife, called out to him:

"Now, John, don't forget about the ban-ner. I want it for the Sunday school class tomorrow. Remember, it must be three feet wide, four feet long, and bear the inscription, "Unto Us a Son Is Born." John, after taking one or two drinks

forgot all about the banner and occupie his time in seeing how drunk a man could get and still be a gentleman. In the meantime the good wife, remembering the frail ty of mankind in general and the peculiar appetite of her husband in particular, sent one of the younger boys into the village with the following note:

"Unto Us a Son Is Born,' three feet wide and four feet long." Even then John did not remember his wife's parting injunction about the banner but remarked as he hastily saddled his

"Now, I guess I will be worried to death by every dime museum freak hunter in the country."

PRINCETON COLLEGE.

Examinations Begin at the Y. M. C. A.

on Thursday, June 13th. Candidates should send in their names to C. W. Ottley, Boys' High school. Francis L. Pation, president. may 25, june 1, 8, 12.

THREE MILLIONS TO LOAN. Without Interest.

Now that the great work is completed and orders, drafts and bills of exchange are pouring in from England, Ireland, Scotland, Australia, India, Japan and almost every city and district in America, the Funk & Wagnalls Co., of New York, who devoted a million dollars to the stupendous task of preparing and publishing the "Standard Dictionary" in two volumes compressing

preparing and publishing the "Standard Dictionary" in two volumes, compressing therein the substance and "gist" of thirty or forty volumes, have decided to issue, as fast as required, a quarter of a million copies to responsible parties upon the easy-payment plan of \$5 cash and \$5 per month, thus affording to ambitious young men and women and others of limited means the opportunity to secure the work and its benefits without delay.

This part cash and part time issue of several trainloads of costly books will involve a virtual loaning, without interest, of considerable more than three million dollars, a concession, however, that, large as it seems, will be but a trifle compared with the mighty impulse and impetus which will thus be given to human development. Hurrah for F. & W. Hurrah for everybody!

By writing to R. W. Seager, city, or

By writing to R. W. Seager, city, or calling at room 3, No. 44½ Marietta street, parties interested will have an opportunity to see this nandsomest, most talked about book in the world. It is the product of five years of labor and investigation by a corps of more than two hundred distinguished scholars of a dozen different countries: a book profound and yet so simple that even a child gains mastery over it, and will not fail of becoming intelligent if brought up where a copy is in reach.

WEATHER SYNOPSIS AND FORECAST

Last night's weather reports shows the crest of the area of high barometric pres-sure still over the coast of Virginia. The storm center, which is a slight one, appears to be central near Huron, S. D. the states south of the Ohio and east of the Mississippi river except Florida the temperature was below the normal. The temperature at Atlanta and Charlotte was 58 degrees, the lowest temperature in the United States east of the Rockies with the one exception of 54 degrees at Rapid City S. D. In other sections with the exception of the western portions of the states of Nebraska and South Dakota temperature ranged from normal to slightly above it. Cloudiness was general all over the coun-try and rain was falling in North Carolina, Alabama, Louisiana and Virginia. During the day rain had fallen at most stations in all the sections except the northwest. Forecast for Georgia for today: Showers,

warmer in the north portion. Local Report for May 24, 1895. Mean daily temperature.

IN THE LAST HOUR.

The Anticipated Break in Wheat Came, Dropping 1 1-2 Cents.

COTTON WAS AGAIN ACTIVE YESTERDAY

But Honors Were About Easy as Between Bulls and Bears at the Close-Stock Market Closed Firm.

New York, May 24.-The reports from the west concerning the crop situation, which refuted the recently circulated sto-ries of serious damage to wheat and the break in the price of product, led to a decided change in the sentiment at the stock exchange today, and in the early trading there was a good demand for all classes of railway stocks. London, which classes of railway stocks. London, which has been holding off for a couple of days pending the settlement, turned up this morning as a buyer, but the foreigners later sold in be rise. The Grangers led the upward movement during the early session, Northwest advancing to 100, Burlington and Quincy to 80%, Rock Island to 70 and St. Paul to 68%. The other railway stocks moved up anywhere from % to 3% per cent, Lake Erie and Western leading. The rising tendency, however, was checked in the afternoon trading by a report that in the afternoon trading by a report that the Chicago and Northwestern directors contemplated reducing the dividend on the common at their June meeting to 1½ per cent. Two per cent has been expected all along, and this rumor led to general selling of the Grangers. Northwest sold down to 98% on the story, while the other Grangers reacted ½%% per cent. Reading, Western Union, Louisville and Nashville and North-ern Pacific preferred also increased ¼%% per cent at this time. Vice President Sykes was afterwards given as authority for the statement that the reported reduction was unauthorized, and a rally in the Grangers ensued. The Industrials were generally lower with the greatest pessure against Distilling. This stock was forced down to 19 on the efforts making by the late insiders to prevent the reorganization, Sugar first declined to 115% and then rose to 115%@118%. Tobacco was bid up 2% to 1113%@111½. The closing was generally firm, with prices anywhere from % to 1% per cent above yesterday's finals. Northwest lost % and Distilling % on the day. Total sales were 307,491 shares, including 59,500 Distilling and 38,300 Sugar.

The bond market was active and strong.
The sales of listed stocks today aggregated 320,349 shares and of unlisted stocks 17,142 shares.

Treasury balances: Coin \$83,496,000; curency \$60,508,000.

Money on call easy at 1@1½ per cent;

last loan at 11/2, closing offered at 11/2; prime mercantile paper 31/2@4 per cent.

prime mercantile paper 3\\(^2\)204 per cent.

Bar silver 67c.

Financial Gossip From The New York Stockholder.

From The New York Stockholder.
The unfavorable situation in the crop situation recently calls for a readjustment of speculative views, as in the case of the market it will involve an eventual readjusement of values, and suggests the wisdom of taking profits on all rallies—that the spring rise of 1895 is over.

On all sides it has been admitted that in no previous year, has a good harvest been so necessary to the country's welfare. The future has been drawn upon to such an extent that stocks were bulled on good crops before the crops themselves were out of the ground.

extent that stocks were builed on good crops before the crops themselves were out of the ground.

It now unfortunately happens that the very first actual fact developed in connection with the harvest is a shortage in the country's most important wheat crop—the one planted last fall—and which farmers will soon begin to gather. It also happens that uncertainty as to corn has been greatly increased by the fact that damage necessitates replanting it in important state which, while not precluding good results, provided exceptional conditions prevail from now on, gives it a late start.

As we have said, stocks should be sold on rallies. Especially is this true of the high-priced ones—Jersey Central, Lackawanna, Delaware and Hudson, Sugar, Northwest and also the other Grangers. The present prices of all these properties discount and more than discount the actual improvement which has occurred in earnings and other conditions.

Transactions at the stock exchange

which has occurred in earnings and other conditions.

Transactions at the stock exchange Wednesday aggregated 301,000 shares. During the early part of the session, the market was dull and steady, but prices subsequently receded under the influence of unfavorable crop reports, moderate profit taking and renewed aggressiveness on the part of the bears. London, too, was a selier, exchange a shade higher and local commission houses had only moderate buying orders on the decline.

Earnings for the third week in May ought to show general, and in some cases sub-

Earnings for the third week in May ought to show general, and in some cases substantial, increases over the like period in 1894. As we stated yesterday, the grain movement at the west has been materially enlarged the past few days. Higher prices for these products have brought them out. Even in the case of wheat, the interior supplies of which are small, there is an increase.

Tuesday's receipts at Chicago, for example, were larger than a year ago, although for a long time past they have run materially below the 1894 record. As to corn the increase is very heavy, as will be seen from the fact that 917 cars came to Chicago yesterday, 236 more than on the corresponding day last year. Receipts of oats, too, were heavy, 580 cars, 254 more than a year ago.

were heavy, 580 cars, 254 more than a yea.

ago.

A few weeks ago the corn roads had the lightest traffic in a long while, especially from the far western corn belt. The change that has taken place in this respect is denoted by Tuesday's Chicago corn movement. The Illinois Central road brought in 288 cars, the Wabash 189, the Alton 116 and the Chicago and Eastern Illinois 68. It will be seen how well the Illinois roads are doing, even the Burlington, however, made a fairly good showing, handling 110, while Rock Island brought in 64, a decidedly larger business than either had earlier in the year.

Early Morning Gossip.

Dow Jones News Company, by Private Wire to J. C. Knox, Manager.

Sugar went down 2 points on sales by Blair, Horton & Co., Potter, Popper & Stein, Hudson, Kennett, Hopkins & Van Emburgh, who sold from 1,000 to 5,000 each. The selling was regarded as realizing by a bull interest lately prominent in the stock, but it was observed that when the heavy selling closed the price was able to rally 2 points with rather small dealings by Well, Blair and scattered buyers. This encouraged the bulls on the stock to believe that the de-

cline had been a scoop, and that Sugar would again advance. There has undoubtedly been some realizing on the theory that injury to fruit has been an injury to the carpings of the company but friends of earnings of the company, but friends of Sugar reply that, while fruit has been damaged in some localities, it is unusually abundant in others, and that, while fruit may come from any part of the country, the bulk of sugar must come from the Ameri-can Refinery Company. The present dull-ness in the trade is declared to be the natural result of the large stocking up in re-

Closing Stock Review. New York, May 24.—New York News Bu-reau by private wire to J. C. Knox, man-ager.—The stock market was strong today with only occasional reactions in the af-ternoon. The buoyancy which has been developed was checked by the semi-official announcement that the Northwestern directors contemplated a reduction in the next dividend, but subsequently prices ralked from the set-back which this caused, Northwestern advanced % to 100, but it fell

in the last half hour over 1 per cent.

St. Paul lost only part of its extreme gain, and Burlington was exceptionally

gain, and Burington was exceptionally strong, gaining over 1 per cent.
Sugar, after a slight early reaction, advanced about a point.
Distilling and Cattle Feeding was supported by covering of shorts at about last night's figures.
General Electric broke over 1 per cent on moderate offerings.
Tobacco rose over 2 per cent, but Gas was barely steady.

The strong features were Oregon Improvement, Lake Erie and Western, St. Louis, Southwestern, Monon and Minneapolis and St. Louis.

The market closed generally strong with few exceptions.

S. Munn, Son & Co.'s Cotton Letter, Private Wire to J. C. Knox, Manager. New York, May 24.—Considering a rather disappointing Liverpool our market opened strong this morning, at an advance of 5 to 7 points from last night's closing. It sold off about 8 points on heavy realizations all of which being absorbed the ngs, all of which being absorbed, the market reacted and has been quite firm, supported by strong bull advices from New Orleans, and crop reports, though perhaps somewhat exaggerated, are still not good. Conservative men, whose opinions are entitled to respect, look for much higher prices for cotton. We think it will be governed a great dear by reports of the weather.

The tolly vive to the range of cotton fatures in New York today:

149,060 7,794,48 New Orleans Crop Statement.

5,766,127 last year 4,839,639 year before last and 6,879,873 for the same time in 1892. Overland to mills and Canada 949,514 against 806,948, 843,191 and 1,196,817. Interior stocks in excess of September let, 54,627, against 57,976, 89,205 and 174,579. Southern mill takings, 622,839, against 627,594, 606,668 and 548, 808. Crop brought into sight during 265 days to date, 9,479,316, against 7,220,645, 6,378,703 and 8,728,077. Crop brought into sight for the evek 20,100, against 21,967 for the seven days ended May 24th last year, 34,710 and 24,924. Crop brought into sight for the first twenty-four days of May, 101,938, against 94,244, 106,161 and 132,212. Comparisons in these reports are made up to the corresponding date last year, year before and in 1892, and not to the close of the corresponding week. Comparisons by weeks would take in 267 days of the season last year, 268 year before last and 270 in 1892, against only 266 days this year.

Riordan & Co.'s Cotton Letter.

New York, May 24.—The cotton market was again active today, but honors at the close were about easy between the bulls and the bears. Liverpool was lower, but notwithstanding this our opening prices were higher, August selling on the call at 7.22. After the call prices declined, August selling down to 7.13. A rally followed, in which August sold up to 7.21, but the improvement was not fully sustained, and the close was quiet and steady, with August at 7.16@7.17, the same as yesterday. The crop accounts, it seems to us, are too discouraging to justify any serious decline. We would rather buy than sell.

Hubbard Bros. & Co.'s Cotton Letter. Hubbard Bros. & Co.'s Cotton Letter.

New York, May 24.—Summary Hubbard Bros. & Co's. daily cotton letter: Notwithstanding the decline of 3 points in the Liverpool market, prices here, with marked fluctuations, have shown much steading that weather conditions as yet hardly justify an aggressive selling in favor of lower prices. On buying orders the opening was from 4 to 6 points above the close of yesterday, but after the call heavy realizing sales depressed the market somewhat. This disposition to realize was checked during the afternoon by unfavorable weather reports from various points. checked during the afternoon by unravorable weather reports from various points, including some in Texas. The buying, however, was desultory and lacked vigor. It is feared that The Chronicle tomorrow will make a poor showing, and this fear has caused the absorption of such cotton as was offered for sale. The close was at last night's figures.

From The Wall Street Journal.

The volume of trade passing is an improvement over yesterday, but continued cool weather checks the demand for seasonable merchandise, and if a warm spell does not follow shortly considerable stock will have to be carried over next season. Prices show, no material change. Retailers report fair progress, but evidently do not appreciate the cheapness of stocks in jobbers' hands. Collections are reported as satisfactory and commercial paper finds a ready market at nominal rates. Cotton wash fabrics and serges in wool are the most prominent textures in the demand. At first hands a good forward movement of staple cottons is reported, and stocks are in clean condition, and the production sold ahead in many instances. Otherwise the market rules quiet and firm. There ts no business doing in print cloths and prices continue steady on a basis of 2%c for extras.

Cotton Prospects.

Cotton Prospects.

From The Wall Street Journal.

Latham, Alexander & Co., of 16 and 18
Wall street, have issued a cotton circular
containing the results of 2,141 repl.es covering every cotton growing county in the
south. The results follow:
Alabama—251 repl.ed; il per cent decrease in acreage; 2,430,000 acres; season 14 days late.

Arkansas—163 replies; 16 per cent decrease acreage; 1,346,000 acres; season 7
days late.

Florida—23 replies; 14 per cent decrease
acreage; 196,001 acres; 14 days late.

Georgia—351 repl.es; 13 per cent decrease
acreage; 2,743,000 acres; 14 days late.

Louisiana—146 replies; 11 per cent decrease acreage; 1,066,000 acres; 14 days late.

M.ssissippl—222 replies; 12 per cent decrease acreage; 25,550,000 acres; 7 days late.

North Carolina—215 replies; 17 per cent
decrease acreage; 821,000 acres; 14 days late.

South Carolina—204 replies; 15 per cent
decrease acreage; 1,666,000 acres; 14 days
late.

Tennessee—83 replies; 12 per cent decrease

late.

Tennessee—83 replies; 12 per cent decrease acreage; 650,000 acres; 7 days late.

Texas—431 replies; 15 per cent decrease acreage; 3,921,000 acres; 14 days late.

Var.ous—52 replies; 15 per cent decrease acreage; 165,000 acres; 9 days late.

Total—2,141 replies; average decrease in acreage 13½ per cent; total acreage 17,558,000, a decrease of 2,751,000 acres. Crop condition averages 12 days later than last year.

year.

The causes of the decrease were the low price of cotton last year, commission mer-The causes of the decrease were the low price of cotton last year, commission merchants curtailing advances, failure of merchants who formerly gave accommodation, and disposition to increase acreage of food products. Drought, excessive rains and cold weather have made conditions less favorable. There is large reduction in the use of fertilizers.

The Sun's Cotton Review.

The Sun's Cotton Review.

New York, May 24.—Cotton rose 4@7 points and then lost this and declined 1@3 points, then recovered this and advanced 4@6 points and then receded again, and closed at a net advance for the day of 1@2 points, with the tone quiet and steady and the safes 208,700 bales. Liverpool declined 1-23d on the spot, with sales of 8,000 bales and 2463 points for future delivery, but railied before the close and ended steady at a ret decline of 1@1½ points. New Orleans advanced 2@5 points, lost this and decimed 4@6, regained this and advanced 3@5, and then lost part of the improvement. Total interior receipts, 10,103 against 12,812 last week and 7.625 last year; shipments, 30,62 against 25,457 last week and 22,877 last year; stocks, 112,775 against 13,4032 last week and 128,271 last year. The port receipts were 2.355. Fort receipts, 2,208 against 7,867 last Priday, including "various" and 2,768 last year; total for the week, 29,066 against 31, 485 last week and 20,851 last year. New Orleans receipts tomorrow are estimated at 1,000 against 1,747 last Saturday and 86 last year. The southern spot markets were quiet. Savanmah advanced 1-16c and Baltimore declined 1-16c. In Manchester yarms were quiet but steady; cloths quiet. Spot cotton here was dull and easy; 38 sold for spinning and 120 for export.

Today's features: Quite frequent fluctuations were noticeable today, owing partly to some favorable crop reports and partly to less buillish foreign news, partly to some favorable crop reports and partly to less buillish foreign news, partly to some favorable crop reports and partly to less buillish foreign news, partly to some favorable crop reports and partly to less buillish foreign news, partly to some favorable crop reports and partly to American and foreign selling. But the undertone of the market, after all, showed considerable sterngth, and while prices declined at one time under the pressure of long liquication, yet they rallied later on and ended at a slight advance for the day. Europe sold the

THE CHICAGO MARKET.

Wheat Was More Calm, but There Was Unusual Activity.

Wheat Was More Calm, but There Was Unusual Activity.

Chicago, May 23.—There was more calmness to the wheat market today than yesterday, and yet there was enough restlessness in the trading to give it the stamp of unusual activity. The break at the close yesterday was an unfortunate thing for the bulls, as it exposed a weak spot and showed that prices had reached a point where they had become vulnerable. This development led to some apprehension among holders. Commission houses urged their clients to take profits, and their advice, which was wired yesterday afternoon, brought numerous selling orders this morning. The fluctuations today were sharp and frequently changes of ¼ of a cent were made to effect sales. The anticipated break came during the last hour in the form of a decline of 1½c, although previously to that time the tendency was lower. Crop damage stories were in circulation still, but the spring wheat territory was wiring that crops in that country were in good condition. July wheat opened from 196(184c, sold between 794 and 764c, closing at 17c-13c under yesterday, Cash wheat sold at the same price as yesterday, but closed weak and about 3 cents lower.

Corn was weak on its own account, but was likewise so under the average influence of the lower prices of wheat. The receipts of corn still continue large, today's arrivals beling 759 cars, and 870 are expected for tomorrow. The benefit the growing crop is likely to receive from the rains predicted for tonight and tomorrow prompted some selling, and with no news to offset the weak factors prices declined unresistingly. July corn opered at 54%c, sold between that and 53%c, closing at 35%c-14½c lower than yesterday. Cash corn was le per bushel lower.

Oats—Guite a large trade took place in oats. The usual quiet of the market was disturbed by the activity of commission houses, who had selling orders. Prices declined under the pressure of offerings. The disposition to sell came from the weakness of wheat and corn. July oats closed 18%c19%c under yesterday

Lamson Bros. & Co.'s Grain Letter.

Lamson Bros. & Co.'s Grain Letter.

By private wire to J. C. Knox, manager.

Chicago, May 24.—The large selling of wheat today particularly near the close, was largely of a realizing nature. It is hard to estimate the amount of this selling, but it has been heavy, as all commission houses, especially those with private wire connections, were conspicuous on this side of the market. Although at times during the session the market has appeared strong, there was not that enthusiasm noted on the advance during the past few days. The big amount of buying orders from the country was on a much smaller scale today, thereby leaving the market without sufficient support in the face of this heavy realizing. The set-back in prices, however, has resulted in some cash business, sales being reported made to St. Louis, also to points in Illinois and Indiana. Clearances at the seaboard were fair at about 370,000 bushels of wheat and flour. The opening was all the way from 78½ to 79c, almost immediately declining to 77½, from which point a steady advance set in, carrying the price to 79½c. After that the market became nervous near the close declining rapidly to 76%c, closing at 77c. Although the bull enthusiasm has been checked for the monyent, holders are confident that just as soon as weak longs liquidate the market will again show a liberal advance, basing their belief on the seneral bad condition of the new crop; also on the theory that the country, knowing the true extent of the damage, will not sell out, but instead, will add to their holdings on all weak spots. Outside of the realizing noted there has also been a great deal of wheat sold out on stop loss orders. It does not appear to us that any large amount has been sold short, yet on any intimation of the situation weakening large professionals may become heavy sellers. By private wire to J. C. Knox, manager.

situation weakening large professionals may become heavy sellers.

The corn market has been very active the entire session. The opening was about the highest of the day, the market becoming weak shortly after large selling by elevator people and commission houses. There was a big cash business transacted and also at the seaboard, the result of which caused a firm offering in the speculative market. The late break in wheat had little or no effect on corn. tive market. The late break in wheat had little or no effect on corn.

Cats have ruled considerably lower and closed rather weak. Elevator people are reported as sellers.

The provision market has been heavy on the large run of hogs, although a reported good cash demand for the latter part of the session caused a steadier feeling and a small advance from low points.

Ten innings were required to settle the game between Atlanta and Memphis yesterday afternoon.

The game was not as quick as either the one of the previous day or the one which was played Tuesday, Still, at one time, the interest in the result was so great that the people could not be made to keep their seats. The crowd was not as large by a good deal of the two previous days, but it was just as noisy and demonstrative as any crowd that has been out this season It appeared to be a home throng, toosomething Atlanta rarely shows up. Every one out, too, seemed to know the points of the game pretty well, and as the game went on the crowd showed its appreciation of the good work the two teams were put-

The grounds were soaked, and between the grand stand and the home plate it was nothing but a puddle or mud, while around the rubber everything was soft and mushy when the game began. In fact, the grounds were hardly in condition to play ball when the umpire called the men to work, but be-fore the game was half over the players had tramped the mud out of sight, leaving the grounds right around home plate almost dry and hard as before the rain came In front of the grand stand there was no change, however, and before the grounds are used today that portion will have to be are used today that portion will have to be cleaned off. Armstrong, in running after a foul fly, slipped through the mud and came very near falling, while O'Meara, after getting into it, could not stop himself, and ran into the fence with sufficient force to knock the fence down. Had it been the grand stand against which he went sliding. grand stand against which he went sliding, instead of the fence in front of the bleach-ers, O'Meara would most certainly have been hurt.

Manager Knowles presented Wynne for the box work, and it was a good game he put up. He was hit a little harder, however, than was Quigg, Manager Levis's presenta-tion, but his work was easy and even all through the ten innings. Three times the game was in a very critical situation and apon each occasion Wynne was cool and fully able to take care of himself. Twice with one man out he held himself well in hand and showed no signs of relenting.

In the ninth inning, when the score was tied and there were three men on bases it looked very much like Memphis would pull n. Land, after Smith flew out to Arm ong, was given his base on balls. Quigg it a grounder towards McDade, who handled it well enough, but made a most wretched throw to first, and on the bad throw Land got to third, while Quigg took second. Langsford came along and sent one up, which Smith pulled down, and then Wright came to bat. It seemed a cer-tainty that Mamphis would send a man over the plate, and take the game, and it looked more certain still, when a minute later Wright was given his base on balls, filling up the bags. Quite a number of people gave the game over and started to leave, but be-fore they had left the grand stand, Frank sent a long one away out into center, Goodenough made a dash for the ball but it looked as though it would be impossible for him to reach it. The base runners started, so sure were they that he could not reach it. But Goodenough got close to the ball, and leaping high into the air, pulled it down, and by so doing got a first mortgage on the town

who were leaving sat down to watch Atlanta try a hand at an extra inning game. Wilson opened the inning by hitting a measley little one right to Quigg, who had no trouble in getting the ball to first before Wilson could get a move on himself. That did not please the crowd, but when Goodencugh came to the plate he was given a grand send off. "You saved the game, now win it, Goody,"

yelled some one.

Just then Goodenough smashed it for single and was stealing second when Hor nung found a nice single, which sent Goodenough on to third. McDade tried to sacrifice Goodenough in, but the ball went the wrong way and Goodenough was pinned to the third bag. The sacrifice, however, sent Hornung on to second. Smith was given his base on balls, and that filled them up. Wynn came along and the crowd was all expectancy. He proved a good waiter and was given his first, which forced Goodenough across the plate. A minute later Quigg got a little wild and the ball went wide of the catcher, letting Hornung in Delehanty closed the inning by hitting a weak one to Langsford, who threw him

It was even money with some that Atlar

Avoid substitutes; accept genuine only, with buff wropper and yellow label. POND'S EXTRACT CO., 76 Fifth Ave., New York. ta's Jonah was out and that she would yet

Flaherty opened with a two-bagger and there was a loud groan, which was repeated a minute later when O'Meara's nice single sent him to third. Just here some of the sent him to third. Just here some of the prettiest playing ever seen on any ball park was done. The Atlantas were working with might to prevent Memphis getting a man across the plate, while Levis's men were all out and all on the line, pulling the string to fetch the base cunners around. It was a noisy, scrappy lot of work, and the spectators enjoyed it. Work as they would the Memphians could not win, and their loss of the game was due to one of the prettiest double plays ever made. with a very slight double plays ever made, with a very slight possibility that that double might have been a triple. Certain it is, that a second's dif-ference of time against the base-runner

would have made it a triple.

With Flaherty prancing around on third and O'Meara on first Wentz drove the ball right to Delehanty. O'Meara started on the move and Delehanty pulled the ball down.
It landed in Knowles's hands before
O'Meara could get back and the double was Knowles tried to make triple by cutting Flaherty off at home plate, and came so near it that there were many in the crowd who thought it had been done Smith flew out to Delehanty and the score

Memphis ..

The Atlantas and Memphians will meet for The Atlantas and Memphians will meet for the last time until they come together on Memphis grounds. Manager Knowles is more than anxious to make it three straights, and will have the best out of his men that can be had. Friel was not in the game yesterday, because he was sick, and Wilson covered left, and did it well. If Friel is out of shape again this after-noon, Wilson will be in the field. Manager Knowles will pitch Horner today, and Manager Levis will present Burrell. The teams

will line up this way:

Atlanta, Position, Memphis.

Horner Pitcher Burrell

Wilson Catcher O'Meara

Knowles First Bise Smith

Delehanty Second Base Wentz

McDade Third Base Flaherty

Shortstop Langsford

Chattanoos, Tenn., May 24.—New Orleans and Chattanooga tied this afternoon in a neautiful pipe-inning game. The ground beautiful nine-inning game. The ground was soggy and nasty, but an almost errorless game was played. While base running Buschman, Chattanooga's third baseman, slipped and sprained his ankle. Both teams had their best pitchers in the box. Darkness prevented playing off the tie.

R. H. E. Chattanooga. 0 0 0 2 0 0 0 1 0 -3 9 1 1 New Orleans. . . . 0 1 0 0 0 0 2 0 0 -3 11 3 Batteries Keenan and Fisher; Smith and Gonding.

Nashville Wins Again.

Nashville, Tenn., May 24.—Darkness put an end to the Nashville-Little Rock game today at the conclusion of the seventh in ning. Briggs was very wild in the firs inning and his bases on balls and wild pitching combined with the errors of Sec-ond Baseman Cuil enabled Nashville to

score six runs. Score:

ran. Umpire-Ward. Evansville Hits the Ball.

Evansville, Ind., May 24.-Moloney, pitcher for the Montgomery team, fearfully slaughtered by the Evansville players this afternoon. Moloney's poor work demoralized the other members of the team and they made a very rank exhibi-tion. Score:

Races at Latonia Park

Cincinnati, O., May 24.-At Latonia today another large crowd saw excellent sport on a fast track. The weather was perfect and everything conducive to enjoyable racing was provided. The surprise of the afternoon was in the second race when Elisebert, with N. Morris, a stable boy up, who had been selling at 200 to 1 and closed at 100 to 1, came in first. Thorpe went to sleep on Tobin and Morris slipped past him with ease. After the fourth race Jockey Hugh Penny was ruled off the track for bad riding on Melody. It is not imfor bad riding on Melody. It is not improbable that formal charges may be filed and his license be taken away from him.

First race, seven furlongs, selling, Judith, won, Blanche Kenney second, Brownell third. Time, 1:29½.

Second race, one mile, selling, Elisebert won, Tobin second, Tasco third. Time, 1:43.

Third race, half a mile, r'lorrie won, Countess 1 a mile, 1 a mil

0:40%.
Fourth race, six furlongs, Joe Mack won, Yellow Rose second, Sigurd third. Time, 1:1514.
Fifth race, five furlongs, Rewarder won, Sir Dilke second, Del Boronado third. Time, 1:02%.

Dwyer's Horses Shut Out.

London, May 24.—Neither Banquet nor Montauk ran today in the Chesterfield han-dicap plate at Doncaster and the Salisbury plate at Salisbury, in which races they were respectfully entered.

Beckwith Released.

Special to St. Louis Globe-Democrat.

Nogales, Arlz., May 22.—At Banamichi, in the Arispe district of Sonora, Mexico, in January last, an American named Fred Beckwith, engaged in farming, caught a man named Romero stealing cabbages out of his field at right. When aware of detection the thief ran. Beckwith fired his pistol, wounding the thief in the calf of the leg. Beckwith was taken to Arispe and thrown in jall. His friends offered bail to secure his release wille awaiting trial, but it was refused. In April he communicated the facts to Colonel F. W. Robert, United States consul at Nogales, Sonora. Consul Roberts immediately reported the matter to the state department at Washington. Secretary Gresham called the attention of President Olaz to the case through Minister Ransom, and on May 13th, by order of Dlaz, the imprisoned American was released, word to that effect having today been received by Consul Roberts. Beckwith Released. silver, shall the silver dollar be made to contain chough more than 412½ grains to restore the equilibrium, or shall this result be reached by diminishing the weight of the gold dollar? Either course will satisfy the requirement as stated. Every-selfish creditor would make the change in the silver; every selfish debtor would make it in the gold. Which does Mr. Smith mean shall be done? If he does not know, his proposition has no practical

NOTES ABOUT PEOPLE YOU KNOW

Some Events of the Future-Gossip About taining Thereto.

The musicale to be given at the residence of Mr. W. D. Grant next Wednesday night will be the most interesting of the series that has been held for the benefit of the woman's department. Some of the firest local talent in the city will participate and the event will be interest-ing because of its being the first appearance of Miss Iza Glenn as a vocalist. Miss Glenn will make her debut and those who have heard her sing declare that she will be one of the successes of the evening. Mrs. Dr. Jarnigan will lend her sweet voice to the evening's entertainment. At Miss Ro-mare's recital Monday she established her-self as one of the innest artists in the city. Her voice is full and rich and has the sympathetic ring so necessary in a successful singer. Monday night she was recalled three or four times by the enthusiastic audience. The other features of the evening will be recitations by Mrs. Sarah Grant Jackson and Miss Corline Stocker. These two talented ladies have charmed Atlanta reople with their recitations and will add greatly to the pleasure of the affair next Wednesday evening. Mr. William Owens's singing will be another splendid feature of the entertainment. Professor I. M. Mayer will accompany the soloists, and render a number of choice selections. Refreshments will be served.

Mr. Robert Adamson leaves today the vestibuled for Asheville, N. C., where

The many friends of Hon. William L. Scruggs will be glad to learn that he is again at home, after several weeks' so-journ in Washington city.

One of the prettiest weddings of season was that of Mr. Theo C. Frey and Miss Josie Erin Bowie, at the Methodist church in Smyrna, last Wednesday evening at half-past 7 o'clock.

The church decorations of ivy and ferns were both beautiful and elaborate.
The ushers were Messrs. J. R. Deavors,
Virgil Fleming, John W. Petty and Ed.

ward Frey.

The attendants were: Mr. A. L. Oslin and Miss Aurora Terrell, Mr. R. J. Oslin and Miss Juddie Bowie, Mr. W. R. Power, Jr., and Miss Lula Hanby, Mr. Linton and Miss Agnes Kenley, Mr. Jesse Gantt and Miss Annie Leonie Dowe, Mr. T. M. Thompson and Miss Mattle Smith, Dr. Malon and Miss Lizzie Gann, Mr. Charles H. Mobley and Miss Eveline Terrell. The bride entered with Miss Cliff Bowle, maid of honor, and the groom with Mr. H. B. Leak as best man.

The bride and bridesmaids wore white dresses trimmed in heavy lace and satir

A reception was given after the ceremony at the home of the groom's brother on Roswell avenue in Marietta. The bride is the daughter of Mr. Judson Bowie, of Smyrna, and is a young lady possessing those true traits of Christian character and womanly ways that are sure to make for her a happy life, Mr. Frey is one of Marietta's most popular young lawyers and is fast building a reputation that bids fair to be the envy of the ablest lawyers of the state.

Mrs. John P. Richardson, of New Orleans, one of the Louisiana representatives of the Cotton States and International exposition, is in the city. She is very enthu-siastic and active, and brings a fine report of the progress of the work in New Or-She is very enthu of the progress of the work in New Or-leans, Mrs. Richardson is the descendant of a long line of distinguished Georgia an cestors and is a very charming woman. She will no doubt be the recipient of many social attentions in Atlanta.

MR, SMITH AND SILVER.

It Is Suggested That the Secretary Is

Editor Constitution-Upon reading in The Constitution the interview of the secretary of the interior upon the money ques tion, I am forced to think that he has not been able to spare from his other duties the time for more than a very superficial investigation of his subject.

In his introduction he says: "The real question is whether or not the free and unlimited coinage of silver at a ratio of 16 to 1 would advance the price of silver bullion so that it would bear to gold the relative value of 16 to 1, which is the pro posed ratio."

Now this may be the question which engrosses the attention of Mr. Smith, but I deny that it is the one with which the American people are at present concerned. They are not agitated by any anxiety as to the price of silver bullion. Their thoughts are directed to the prices of property and commodities and the quantity of these to be required for the ment of debts. How much silver builion can be purchased by an ounce of gold is to them a matter of extreme indifference, Their question is, how much of the prod-ucts of labor is to be required to discharge a dollar of money obligations? If Mr. Smith desired to make the expression to this question that he should have addressed himself in his communication. Having, as I conceive, thus misstated the issue, he proceeds to say that unless under free coinage at the present ratio, sixteen ounces of silver would purchase an ounce of gold, "the country would not have a bimetallic currency?" That de-pends, of course, upon the definition to be given to the term "bimetallic currency." In support of his proposition, he states as a sort of financial axiom, settled, as he says, by history and authority, "that the ratio of coinage must be fixed upon the commercial values of the metals in the certainly mean that, in any automatic way, the ratio follows commercial value. He surely understands that the ratio is wholly a creature of law, He must mean, therefore, that whenever the commercial values of the metals, for any reason, sep-arate, then the ratio, by change of law, should be adapted to the change of commercial value. It is to be regretted that he did not point out with more definite-ness how and when this legislative remedy ought to be applied. Is it every tion, however slight, from parity t to be followed by legislation? to be followed by regislation? If not, how wide must the separation be and over what period of time must it extend? Without fixing these conditions the proposition is too indefinite to be of any value. Again, in what direction shall the change be made? One metal becomes, in the market, dearer than the other—the ratio to

meet it may be changed either way—that is, by requiring that a larger amount of metal shall be put in the cheaper or a less

amount in the dearer coin. If in the market one ounce of gold shall have be-come the equivalent of twenty ounces of silver, shall the sliver dollar be made to

significance. If he has an opinion on this point he should have the courage and fairness to express it. The utter disregard of any consideration of equity in this proposition is made apparent by what he him-self says a little further on. Mentioning the fact that silver was at a small premium in 1873, he continues: "But since that time the demonetization of silver by other countries has allowed its value to drop to the price which it will bring for manufacturing purposes."

Now take this in connection with the

previous proposition and we have syllogism. One or more countries by legal enactment demonetize silver—as a result of this demonetization the market value of silver, relative to gold, is depressed 100 per cent. When this happens it becomes the duty of these same legislative bodies, and of all other legislative bodies to change the ratio of the coinage to correspond with this disparity of market value. The rightfulness or wrongfulness of the original de monetization is not, according to Mr. Smith a matter for consideration. It is

no importance how iniquitous or dis-honest may have been the demonetizing legislation which caused the disparity of

the market value; the result must be active the market value; the result must be active and the continuation of the continuation of the continuation. Within the last hundred years no European nation has changed the legal ratio to conform to commercial market value, in 1806 France fixed the ratio at 15% continued to support of the continued to support the assertion of a continued to support of the continued to support of the continued to support the assertion of a continued to support of the assertion of a continued to support the assertion of a continued to support of the assertion of a continued to support of the support of

Silver and Currency in Kentucky.

From The New York World.

To the Editor of The World-In this speech in Covington, Ky., Mr. Carlisl made the remarkable statement that from "about the year 1838 until after the pas-sage of the Bland-Allison act in 1878 no sliver dollars were in circulation in this country, and our whole currency consisted of gold coins and bank notes."

Mr. Carlisle said this is a state where from 1838 until the war the banks and their branches were required to keep in their vaults \$1 in specie for every \$3 of their outstanding notes, and the state law made English, French and Spanish coins, both

gold and silver, as well as United States and Mexican coins, a legal tender. There were plenty of silver coins in the bank vaults and shop tills of Kentucky, and there were very few well-to-do Ken-tucky families that did not have a bag of silver coins somewhere about th When a circus came to town and attracted all the negroes from the fields I have seen them load the ticket wagon with silver coins many a time.

FOR TWENTY-FIVE YEARS

Germetuer Triumphs Over All Ofher

Atlanta, Ga., March 10, 1895 .- After suffering for twenty-five years with an itching humor of the blood, which almost drove me wild at times, and after trying many various remedies without much help, I have been greatly benefited and almost entirely cured by the use of Dr. King's Royal Germetuer. I have also found it very beneficial for colds and sore throat. Mrs. E. P. Wood, 65 Ellis street.

Mrs. Wood is the widow of Rev. Jesse M. Wood, who was very widely known and highly esteemed all over Georgia as an able minister of the Baptist church, and one of the best and noblest of men.

Executor's Sale of the Edward Burns Property,

Nos. 302 and 306 E. Fair Street.

I will sell before the courthouse door on Tuesday, June 4th, at 11 o'clock a. m., for Mr. C. P. Johnson, executor of Edward Burns, two spiendid residences on East Fair street. Mr. Burns's will authorizes and directs the executor to sell Inis property either at public or private sale and convert the same into cash within three years after his death, and, in accordance with the directions, the sale cannot be longer postponed, but the property must be converted into cash at once. No. 302, is a four-room house and No. 308 has eight rooms. Both are well constructed and rent readily and either would make a splendid home. This property is very near the center of the city, has electric cars, paved streets, water, gas and all modern conveniences and is just such property as will continue to enhance in value and will always bring in a good income on the investment. The titles are perfect and the terms, one-half cash, balance in six and twelve months at 8 per cent interest. The property will be sold absolutely upon its merit to the highest bidder without any reserve or limit. Call at my office for plats.

May 25, 26, 29, 30, jun 1, 2, 3 and 4.

AGAINST BERESFORD

A Letter from New York That Opposes His Pardon.

SAYS HIS RECORD IS A BAD ONE

Beresford Says His Wife's Relatives Are Persecuting Him for Their Own Gain. The Application Not Considered.

A hard and determined fight is being made against the application of Lord Beres ford for a pardon from the Georgia penitentiary. So bitter is the fight that it has aroused, apparently, more sympathy for the man than it has undemnation, and many people that have paid little attention to the case are now taking an interest in it, and are working for his release. When it was published a week ago that Beres-ford had written to Governor Atkinson asking for a pardon, there was considerable opposition started at once.

This opposition was peculiar, and has

continued to grow in certain quarters.

Beresford was convicted, as is well known, for registering at a Rome hotel under an assumed name. He was prosecuted for this because he had swindled the firm of Hamilton & Co., of that city. He escaped prosecution of the real crime under a technicality, and was in consequence convicted. nicality, and was in consequence convicted of the other. The fact that he had secured money under false pretenses had its effect when he was sentenced. Since his incarceration the gentlemen that suffered at his hands have watched his life in the penitentiary, and are now willing that he be

given his freedom.

The opposition to his release does not come from the men that were his prosecutors, or even from the city in which he was convicted, but comes from New York.

Attorneys Against Him. Yesterday a letter was filed with Gover-nor Atkinson opposing the pardon of Beres-ford, that was written by a New York attorney. The letter was not written to the governor, and was so worded as to appear to be a personal communication from one attorney to another. The fact that it was placed on file with other public documents gives it the appearance of having been in-

tended otherwise. This letter was written by David Bennett King, who is said to be the attorney for the family of Beresford's wife, and was addressed to John W. Echols, the attorney who took such a prominent part in the prosecution of Harry Hill. The letter gives Beresford a very bad record, and refers to him as the bogus lord, and says he is the most accomplished swindler of the day. It states that he can charm the birds from their roosts, so fluent is his language and so charming his manner. If all that Mr. King says about Beresford is true, he is, indeed, a most remarkable man, and would

be a curiosity in any land. He says that Beresford is so gifted that he can deceive the very elect, and actually convince people that black is white. He makes these statements, and then says that, in St. Johns, Canada, Beresford was at one time considered a pious man—that he posed as a man that was a stranger to evil, and finally brought his stay to an end by swindling every one that gave him a chance, and left. The letter closes by saying surely the governor of Georgia will not allow such a man to go free and allow him to rob the people of the state.

Why the Fight in New York? There is no particular reason just why the New York attorney should be opposed to the granting of a pardon to Beresford, given in the letter written by Mr. King.

The only explanation given has been furnished by Berestord himself. He says that the attorneys in New York are employed by the immediate family of his wife, and that her relatives are seeking to enrich themselves by making him suffer in a peni-tentiary, and at the same time force his wife to secure a divorce from him. This, he says, she has steadily refused to do, and that they fear if he is allowed his freedom, that he will return to his wife and assume charge of her property, which is extensive.

is extensive.

This, says Beresford, is the reason the New York lawyer does not want him given a pardon. They want, he says, to force his wife to procure a separation by law, that they may enjoy her estate and prevent him from deriving any benefit from her for-

Governor Atkinson heard last week an argument for and one against the application for a nadron. These arguments were made when the application was presented to the governor. He has not yet taken up the records to examine them, but will do so in a few days. He says that when he does that the crimes credited to Beresford in other states will have nothing to do with the case.
"His crime in Georgia is the only thing

that I can consider," said the governor yesterday, after he read the letter from

"What he may have done or may no have done should not have any weight so far as his application now before me is concerned. This case will have to rest on its own merits, and his crimes, if any, in other states should do the same thing."

The way to give strength to the weak and tired body is to purify the blood. Hood's Sarsaparilla, the only true blood purifier, makes pure blood and gives health. Try it now.

TROOPS WILL NOT GO.

The Governor Declines To Send the Military to Andersonville.

The sheriff of Sumter county wants mili-tary protection at Andersonville on May 30th, and has had considerable correspondence with Governor Atkinson on the sub-ject. The sheriff fears a riot on the day that has been set apart for the observance of national Decoration Day. The number of negroes that congregate there on this day is always far in excess of the whites, and many deeds of violence have been done by them. This is what the sheriff wants prevented, but he wants it done at the ex-pense of the state and not of the county. Governor Atkinson has declined to send troups to Andersonville unless there is trouble of such a nature that the author-ties of the county cannot suppress it. rice has, however, ordered the military of Americus to be in readiness to go to the Americus to be in readiness to go to the town in case there should be any necessity for them. He has informed the sheriff that this is all he can do.

All danger of drinking impure water is avoided by adding twenty drops of the genu-ine Angostura Bitters manufactured by Dr. Siegert & Sons. At all druggists.

Dr. Hathaway & Co. Praised

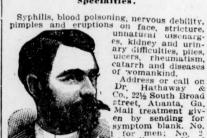

These Famous Specialists Have Earned the Gratitude of Many Sufferers of Both Sexes.

Skill and honesty are the watch words of Dr. Hathaway & Co., the celebrated specialists. These watchwords are the real secret of their ability to cure quickly disease which may have been deep-rooted, and which patients thought might be incurable, it is by adhering closely to the principles implied in these two words that Dr. Hathaway & Co. have earned the confidence of the public. I hely never promises more than they are able to perform, and they are able to perform, and they are able to perform much, indeed for suffering humanity. It is this rigid adherence to principle which has gained this firm the title of the leading specialists in delicate diseases peculiar to both men and women. Dr. Hathaway & Co. employ a corps of skillful physicians who are peculiarly able to cope with these diseases by reason of special courses which they have pursued at leading medical colleges of which they are graduates, and then, too, they have chosen their life work in this particular field of medical practice. Each of the physicians has spent years in the study of the origin, nature, progress and best methods of curing skin, blood and nervous diseases. curing skin, blood and nervous dis-

ods of curing skin, blood and herrods areases.

Their observation has included many thousands of cases—many more than the average practitioner would ever meet with. Patients who have been cured by Dr. Hathaway & Co.—and they are legion—are loud in asserting that the methods employed are the safest, best and surest known. The methods are right up to date; no old fogyism tolerated. Consultation is free. If you will call on or write Dr. Hathaway & Co., they will be glad to give you their opinion of your case free of charge.

OPENING OF PICNIC GROUNDS

PEARL SPRINGS, GA. on the Atlanta and West Point railroad.

Dwellers in Atlanta are justly proud of their charming city, but there comes a time when to escape from the heat and noise it become a duty which is regarded with pleasure.

"WHERE SHALL WE GO?"

Is a question. The Atlanta and West Point railroad has recently improved the picnic grounds at Pearl Spring, and for excursion and picnic parries it offers more inducements than any other place in the state. An elegant new pavilion has been recently erected, boats have been provided and other improvements made. Gushing springs of the purest free-stone water, clear and refreshing, empty their limpid sweetness into the bosom of a beautiful lake of thirteen acres, in which fish of many varieties are to be found. Every breath of air impregnated with life and health is as pure and clear as the vaulted arch of cloudless skies. The rays of the summer sun are shorn of their power by the mammoth trees that have stood as grand old sentinels around this scene of beauty for centuries. It is an ideal place for a day's outing, and no charge is made for the use of the grounds.

The attention of Sunday school superintendents and others interested in picnic parties is called by the management of the Atlanta and West Point railroad to this attractive resort. Any one desiring to arrange for special trains or special coaches on Regular trains to Pearl Spring and return should call on or address JOHN A. GEE, General Passenger Agent, Atlanta, Ga.

G. W. Alllen, Traveling Passenger Agent, Atlanta, Ga. "WHERE SHALL WE GO?"

NATIONAL

Surgical Institute

72 South Pryor Street,

ATLANTA GEORGIA:

Established 1874.

Since February, 1874, this institution has been actively and continuously engaged in the treatment of chronic diseases and deformities, and its work has been done so quietly and so free from parade and laudation that very few, except those cured, know of the varied and splendid facilities employed and the wonderful results secured. The methods employed embrace manual and mechanical massage, thermal and vacuum treatment, vibratory and oscillating motions, Turkish, Russian, thermal, needle and electric baths; Swedish movements, static, faradic and galvanic electricity, the application of the kneeding, rubbing and brushing appliances, physical, culture, etc., etc. Indeed the best and most successful facilities known to hygienists are employed as well as many new mechanical devices peculiar to this institute alone.

Among the affections cured may be mentioned; Uterine derangements, prolapsus or falling of the womb, leucorrhoea, painful, frequent, profuse, scanty and irregular menstruation, ulceration and laceration of the womb, diseased ovaries, dyspepsia. constipation, general nervous debility, affections of the kidneys, liver and bladder, neurasthenia, nervous prostration, "that tired feeling," insomnia, malnutrition and assimilation and all the train of evils brought on by overwork, dissipation

and excesses. A cordial invitation is extended by the proprietors to all who may feel interested to call at the institute and see what is being done for the cure of diseases and

deformities,
